TELEGRAPHIC. A Tenement Holocaust. CHICAGO, Sept. 19 .- One of the most disastrous fires that has visited this city for some time, started after 1 o'clock this morning in a four-story tenement on Sedgwick street, north side. Although the blaze asted but fifty-five minutes, the loss of life made the trifling damage to the property stand out as insignificent in comparison. The basement of the building and lower floor were used as a bakery by William Jafits. RUSH CITY, MIDB., Sept. 18 One of the most blood-curdling accidents that ever occured in this county took place just before daylight Tuesday morning at the home of John Bannehan, whose wife died Monday afternoon. The body was prepared for burial and placed in the parlor. Mrs. Potter, a sister of Mr. Ban nehan, put a boiler on the stove, con aining what she supposed to be water but which proved to be ten gallons of kerosene, which had been emptied into he boiler from a leaking can. The oil soon began to boil and in ten minutes exploded, setting the house on fire in a zen places. The flames soon enveloped the parlor and set on fire the corpse and the coffin, the lid of which had been tas tened. Frank and Philip Bannehan, sons of the dead woman, rushed through the flames and tried to secure the body but were driven back. John Bannehan, and graping the remains, ran through a sheet of fire. Ochoco Review: Last Saturday Andy Ly-tle threshed 1002 bushels of barley off of 30 acres of ground on the farm on Willow creek which he bought of J. H. Crooks. The ground was not plowed last spring, the grain having been put in with a disk harrow. It was a pretty good yield, considering the cultivation the ground had received. The advertisement of Messrs. During the long residence of Mr and Mrs. Colwell among us, they have endeared themselves to our people in a way that causes every one to sincerely regret this separation. He was brought home, but he only breathed an hour. There is a mystery connected with it, on account no empty shell being found in the gun. It is supposed he may have been handling the shell, which went off with the above effect.

Ochoco Review: There being such an imsense amount of hay and grain in this ounty, this would be a good season to feed beef for the spring market, if there were some facilities of transportation by which neat could be marketed in March and April Now beef is worth only 2½ cents a pound and is a dull sale. Next spring it will be and is a dull sale. Next spring it will be worth from 4 to 5 cents and will be in demand. If there were a railroad running through the country, at least 200 head of beef would be fed in the county this winter and shipped out next spring when prices are up. Thus ranchers would find a market for their produce and stock raisers would derive a nice profit on their beef, but as it is neither can derive much profit.
