We may look for something interesting over the "big pond" after next Thursday, When Balfour will introduce his land bill in parliament The British empire is anxiously awaiting developments regarding the policy of the fory government.

The Democrats are hard pressed for capital during the coming campaign, and not being able to attack the pres ent administration on any vulnerable point, are trying to make capital be cause President Harrison did not de clare war against the little republic of Chili, and sacrifice millions of treasure and the lives of citizens in a barbarous conflict with a nation of half-breeds.

The Dalles has set the example of the formation of a Republican club, and other precincts should do likewise. In every town in Wasco county a club should be formed for campaign purposes, and by these means the success or the party is assured. It is not fair that this city should have the candidates, and any selfish faction which attempts to control matters should not be allowed to be supreme in political

Perhaps no better description of the red tape of official doings was ever published than the short note about the "circumlocution office" in one of Dickens' works. Official business in it is almost impossible for an ordinary individual to receive any redress for an injury received. In such instances it is far better to suffer wrongs than to attempt their redress.

The "political pot" in Wasco count is rapidly beginning to assume a boiling temperature, and candidates are "bobbing up serenely" in many directions. By a fair vote the county i 150 Republican, and the candidates of that party will be elected if harmony prevails in the ranks; but care should be taken not to nominate men who simply represent factional interests, and attempt to ride into office on the flood tide of the majority.

In the matter of government proceeding against the alleged fraudulent timber land entries in the states of Washington, Oregon or California, the com er-general of the land office, with the approval of the interior, has instituted a change of procedure, by which parties claiming title to these lands will hereafter required to produce the original entrymen and their witnesses at the local land offices for further examination, with refer ence to any contracts or arrangement which may have been made prior to the entry for the conveyance of land to corporations or syndicates. It appears from the records of the general land office that large tracts of valuable timber land in differ localities have been entered or the same day by a large number of persons, and immediately thereafter all the parties transferred to syndicates. It is onfidently asserted by these syndipates that the government cannot prove that the entries were originally made in their interests. This new order is made with a view of simplifying the procedure in

After much discussion it was agreed that ach precinct select a man and that they circulate a paper for subscriptions and urge the county court to make as large an appropriation as possible, and show the urgent is in condition.

A motion endorsing the contracting fo such a road provoked a long discussion as to now to have the work done, and was finally left to the committee and the court.

The committee selected is M. J Ande son, of Dufur; Robt. Kelly, of Kinsley; . Hollansdale, of Tygh; A. E. Lake, of Wa mie; W. McD. Lewis, of Oak Grove. It was stated the court wished a petition from each precinct to appropriate their por tion to Tygh, and T. H. 'After arriving in Portland last Monday, Mr. Luckey first started for the commission house of Stevens & Jenkins, but on the way to that place he dropped into the wholesale house of Chas, Kohn, and paid that gentleman \$100 which he owed; after chatting a while with Mr. Kohn he went to the commission house and talked with those gentlemen for an hour or more about business matters, when he went to the Hotel Perplace about 7:30 o'clock. After that he was seen at Fourth and L streets in East Portland, going eastward by Newt Blair, who passed the time of day with him. This was about 8 o'clock P. M. Mr. Barnes was born in Kentucky in 1826, and at an early age moved to Missouri. Being attracted by the glowing acounts of the "Golden West," he, with his amily, crossed the plains to California in 1853, where he engaged in mining, and remained in that state until 1862. That year he came to Oregon, locating near Lebanon, in Lunn county, 'Here he remained until the fall of 1867, when the miners of the upper country," as Eastern Oregon was then called, began returning to Willamette valley, and told of the wealth of the bunch grass country east of the mountains. These reports inspired in him a desire to push further out on the frontier, and with a little party of brave men came across the Cascade ountains and wintered in Ochoco valley then the home of the sayage. By request Mr. Anderson laid before the meeting the plan of action prepared by the Dufur delegation-Messra. Kling er, Johnston and Anderson. The plan as outlined was adopted as an order of business, and with some unimportant changes was endorsed by the meeting. A committee of five, one from each precinct, was chosen to make a preliminary survey with Mr. Sharp, to examina carefully all routes and decide which is best. The court will be asked to appoint the viewers from this committee, which consists of L. J. Klinger, Frank Gabel, J. N. Mode, Tom Driver and F. C. Sex-

A second committee of five, chosen as before, was appointed to attend the March term of court and place before the court all petitions, papers and facts upon which the demand for an appropriation is based. This committee was as follows: M. J. Anderson, Robt. Kelley, John Holingshead, A. E. Lake and W. McD. Lewis.

The motion by Anderson that the work be placed under the charge of a superin tendent nominated by this meeting and appointed by the people led to a very spirited discussion on superintendents vs. contractors, and made things decidedly lively for a while. The motion was amended by Mr. Sharp placing the matter in the hands of the two committees named. Mr. Gourlay amended again making it part contract and part by superintendents. Again the eloquence of Phillips, Gourlay, VanDuyn, Kelly, Johnston and Anderson made the window glass rattle, and to secure barmony Mr. Gourlay withdrew his amendment; then baving been taken off with yellow fever entire matter be left to the second committee appointed. This was ably supported by C. L. Phillips and T. H. Johns-

ston, and was carried. Resolutions endorsing the 2-mills levy were passed. Petitions signed and a subscription paper on the table which all were invited to sign soon showed the sum ot \$445 cash and \$260 work payable on demand and several present prefered to sign the list which will be circulated in their respective precincts, making over \$1000 subscription from these present in the house. Astoria Town Talk: Portland is now be ore congress struggling at the national reasury for money to boom herself, and appress information and distort facts about the mouth of the Columbia river. Congres is being importuned by Portland to run its hand into the pockets of the people of the United States to widen and deepen hannel from Portland to the Pacific ocean distance of 110 miles, to continue tha city in her strained position as mistress o the Pacific northwest. To more effectually convince congress that this channel is needed, the Port of Portland was created a the last session of the legislature. Herein was the "job" part of the programme. Few people who voted to create the Port of Portland had an idea that she would have the immaculate gall to ask the people of the United States to put up the money for a scheme that is almost wholly for the booming and individual benefit of one city and a few parsimonious old mossbacks. If the channel from Portland to the sea is to be widened and deepened, and kept so, Portland should be compelled to do it at her own expense.
