The TIMES-MOUNTAINEER has never wavered in its support of an open river and any measures tending in that direction. For many years it has advocated opposition boats on the middle river. This year it has seen its hopes realized in the success which has attended the latter enterprise, and the signs of the times indicate that in a few years the wealth of the Inland Empire, without breaking bulk, will reach tidewater, by way of the Columbia river. Portage roads are simply temporary expedients and should be constructed by the state; but the producers have a right to expect from the government such substantial aid that the waters of the great river of the west may flow unvexed to the sea.

The anarchist upheaval in Europe shakes the foundation of the most causes of discontent among the laboring poor. Kings must understand that the instinct of life is strong even in starving peasantry, and the most not be tolerated; but it must be recollected that for ages the common classes have received little consideration, and have been oppressed in every conceivable manner, until, rendered peraté they forget God and humanity. The anarchist merits punishment; but governments should be so remodeled that the gospel of hate should have few followers.

The centennial celebration of the discovery of the Columbia river by Capt. Robert Gray will begin at Astoria to-morrow, and for three days the city by the sounding sea will enjoy a gala occasion. OREGON WEATHER SERVICE, In Co-operation With U. S. Weathe eau, of the Department of Agriculture.

Central Office Portland, Oregon. Crop-Weather Bulletin, No. 6, for week ending Saturday, May 7, 1892: WESTERN OREGON.

Weather-The week opened warm and closed with cloudy weather and showers. More rain fell in the southern than in the northern counties during the week. There has been a marked increase in the temperature, but yet it is below the normal, caused by the cool nights. Frosts occurred in sections on the mornings of the 2d and 3d. About normal sunshine prevailed. A Willamette valley on the 2d.

Crops-There has been a marked growth in all vegetation, though it is yet several weeks later than usual. The weather conons improved spring and fall grain, and allowed of spring seeding. Oats are being put in in most counties. The color of fall grain has improved. Hops are not coming up as rapidly and healthy as they should. Timothy has slow growth. Apple trees are in blossom. Cherries are as large as peas. but they do not indicate a large crop. Vagetables are coming up and they are very atrong and healthy. The farmers are busy plowing and seeding. The frosts of the past week did no damage but the April rosts did considerably more damage than is usually acknowledged, though it does not at present appear as if there would be a deficiency in the fruit crop. Wild strawberries are ripe in the wamer and southern counties, while cultivated ones are beginning to turn color in Douglas, Josephine and Jackson counties. Warmer weather, more sunshine and fewer showers are needed to facilitate the growth and development of all

Weather-Warmer days have prevailed, though the nights are cool, causing the thermal conditions to continue to be below the normal. Colvig, Clow and Hamilton, the board of railroad commissioners, with their olerk, Mr. Miller, left Portland for their regular semi-annual examination of the Union Pacific lines in this state. It will probably take them a week to go over and examine the lines. Last year they spent five days on the line between Portland and thunder storm prevailed in parts of the The Dalles, and were eleven days in getting to Huntington. They examined every bridge on the line, going down to the bottom of each trestle and having the earth dug away from around the timbers at the base. From the intimate knowledge they acquired of the lines at that time it is bardly probable that they need to be so long in

making their examination this time. Register: A subscriber at Hermann sends us the following particulars of a little experience Chas. Collier and his party of surveyors had with a bear a few days ago: While engaged in running a line the axman, Mr. Hunt, suddenly came upon a large black bear, who seemed disposed to dispute the right of way. He ran away a few yards and then stopped and looked back. The boys shouted to scare him but he wouldn't scare. He then thought he would make their acquaintance and stood on his hind feet and walked toward them. The boys brandished their axes and other things they had with them, but the bear was not disposed to be afraid. As he continued to advance the boys went up the trees in short order, while the bear sat under the tree and watched them awhile and then leisurely walked away. The boys will be prepared

FOUR DAYS A BRIDE. James B. Teller, an Oregon Stock

Portland Welcome. The mystery surrounding the suicide of James B. Teller, an Oregon stock man, living in Crook county, who killed himself April 24th in a Kunsas City hotel, Las been apparently solved. Teller last December arrived in Missouri with a band of Oregon horses to dispose of, making the home of J. N. Kern at Springfield his headquarters. It was there he met a Mrs. Jennie Boxwell, a buxom widow, and daughter of Mr. Kern, whom he fell passionately in love with and became her devoted admirer. The object of his affections warmly reciprocated the devotions shown by her Oregon swain of the couple was announced. Mrs. Boxwell later went on a visit to her sister, living near Chilicothe, and it was there that she and Teller were married Wednesday evening, April 20th. The same night the bride of a few hours left for Frankfort, Ind., to get her household

for Frankfort, Ind., to get her household goods, and four days later her husband was lying cold in death, a victim of his own cowardice and rashness, upon a marble slab in Kansas City morgue. It was not until several daye after that the bride of the self-murdered man learned of his fate. On receipt or the news she immediately went to her father's home at Springfield and there found letters awaiting her from her husband, written in a nervous hand, but showing great deliberation in the deed of self destruction. It appears that Teller was a victim of the at the Warm Springs reservation 150 cases | marble slab in Kansas City morgue. It were reported. JENNIE—My dear and loving wife, it is with sorrow that Jim, the one you have placed your trust in, is not worthy of that trust. When this reaches you I will be no more. You are a dear, good woman and do not deserve this misfortune; but, dear, you are better off without me than with me.

Since I came to Kansas City I have lost what money. I had some \$250 and as it is what money I had, some \$250, and as it is Jennie's money I so regret it that I cannot have courage to meet you and ask forgiveness.

Other parties have, through surreptitions and unbusinesslike methods, obtained a small quantity of this Lime, which may naturally cause the idea that Wm. Butler & Co. are not the exclusive agents for these goods. Such. however, is not the fact, and further Stock of this Article commot be obtained from others than Wm. Butler & Co. The Travic, however, will not lose sight of the fact that the great strife to obtain the "Oregon" Lime by other dealers proves conclusively that the "Oregon" is the best Lines in the market. T. F. OSBORN, Gen. Agt. Or. Marble & Lime Co.
