While all friends of useful legislation about unite in getting the necessary passway constructed over the falls at Oregon City there is need of more thorough attention of the present law to prevent creation of artificial impediment, such as the Niagara Milling company has done in the North Santiam. There is

crying need of more work being done by that company, as some fish get up by the present structure when the river is in full stage, it is utterly impossible for fish to go up during the ordinary summer stage of water. The people above this artificial cataract are justly complaining.
