Hardly a day passes that one or more parties do not take traps in the mountains for the purpose of hunting and fishing. After spending a few days in the cool altitudes they return usually well satisfied with the results.

The foundation is being dug for the new dwelling house of Mr. Paul Boggs, Sr., to be erected on Third street, adjoining the former site of the engine house. When completed it will be a six-story building, and an ornament to that portion of the city.

Baker City Democrat: Tom Williams, a Portland car dealer, cleaned up \$1,000 in a few nights. He first came into the city and was placed in the sack on a table and turned over the safe. A man picked up the money and skipped, and Williams did not get a cent. He was arrested, took the money.

A little girl named May Howard was sent to the Home for the Deaf on Monday evening. She is about 11 years old, and her mother is in no condition to give her proper training. She is a bright, intelligent girl, and it is no doubt that she will be a great help to the Home if she is properly cared for.

We have received the announcement of the death of Mrs. F. J. W. Widdeman, who died at her home in Astoria on Monday morning. She was 65 years of age, and was a devoted wife and mother. Her death is a great loss to her family.

Yakima Herald: A curious phenomenon is shown on the Dan Fish ranch, in the Cowlitz valley. A year or so ago a well 30 feet deep was sunk without securing a drop of water. The hole was covered up for protection to the hole, and was not uncovered recently. It was found that a large volume of water was flowing into the well as it was being dug, but that none of it remained, it having escaped through a crack in the earth.

Statenman: David Howell, confined in the penitentiary for robbery, was given a commutation of sentence yesterday by the governor. He was confined in the penitentiary county July 5, 1920, to serve four years. The commutation was recommended by the district attorney.

Swan lake found him in the evening seated on his pony and weeping bitterly for his mamma. The kid man kept him until morning when his brother found him and brought him home. He told his mamma confidentially that he would never leave her again.

Speaking of the prices of wool a Mr. T. E. Fall, manager of the Woolgrowers' Association, indicated a report that the Hesperus market led this year, as it always has since it became a railroad point. The highest price paid at the Dalles this season was 16 cents per pound, a small lot, which is equal to 1 1/2 at Hesperus, a price that was not reached in few cases here this season. The average market was little behind that, quality considered. Out of 40,000 head of sheep, only 13,000 were shorn, the highest figure reached there. This is a good figure for Baker, and had the clip been smaller, wool having sold at most weeks did there this season—pretty low.

The thermometer ranged to 94 degrees in the shade yesterday.

The men of the day have been light during the past few days.

Lost near Mt. Hood  
Three Citizens of The Dalles Wander Around in the Forest for Hours.

Dr. O. C. Dillinger, D. V. M. C. U. S. at the Dalles, Baker and Hesperus from Clatsop, Ore., returned from Clatsop, Ore. He had a highly interesting and thrilling adventure, but did not reach the summit. Tuesday evening, about 8 o'clock, they reached Cooper's spring from the hotel, and returning toward the direction in the dark and wandered around in the deep canyon till half past 10 o'clock, when they were found by parties from the hotel, who had gone in search of them, and had been looking for them for some time.

THE SAN FRANCISCO BOARD OF HEALTH.

We, the members of the Board of Health of the City and County of San Francisco, Cordially approve and recommend the Royal Baking Powder. It is absolutely pure and healthful, composed of the best ingredients, of the highest strength and character.

In our judgment it is impossible to make a purer or stronger Baking Powder than the Royal.

under arrest. This contraband trade has been allowed by all governments for years and years to proceed unmolested. Everybody knew that the importation of whisky by way of the French islands of St. Pierre and Miquelon was regularly conducted. The "free-traders" as they are called, were not backed by men of capital and possibly of repair at the constitutional party of the coast of Newfoundland, and there on the board of the Boston distillers, distributing it among the poor fishing villages on either shore. Such portions as were not salable below Quebec were reserved for (Quebec itself) but special opportunity for its carriage into Quebec had to be secured. While awaiting a chance to land the liquor was usually concealed at a quiet resort on the Isle d'Anticosti. La Minerve was the name of the place, and in most cases prepared to defend them with arms in their hands. The sailors are told to glorify the bold outlaw, and in the villages their exploits are recounted, and it is regarded as an honor to a parish to possess any of these unscrupulous free-traders.

CONSTANTINOPLE, July 28.—Persecution of the Ottoman reform party continues unabated. The most rigorous measures are enforced to suppress the agitation, and numerous arrests have been made. The Sultan is convinced that there is a conspiracy afoot to depose him, and the constitutional party is daily increasing in numbers. Great confusion reigns in the city, and the Sultan is in the hands of an arbitrary court of the caliph.

A Famine in Russia.  
ST. PETERSBURG, July 28.—The famine in Russia has reached a stage of 500,000,000 people for seed and 200,000,000 for sanitary measures. Similar applications are expected from the provinces that suffered from the famine in 1921. This forecast is based on the report of the Russian government, which states that the famine is still in progress, and that the government is doing all in its power to relieve the suffering.

Professional Teachers.  
The fact that teaching in the public schools is rapidly rising to the dignity of a profession, is shown by the large number of students who are seeking professional training in our State Normal Schools.

Cheats the Gallows.  
OREGON CITY, July 28.—Charles Wilson, the murderer of Marie Walsh, committed suicide at 2:30 P. M. by hanging himself in his cell. He removed the bars from his window, and hanged himself with them. He was discovered by the other prisoners, but he was extinct when the officers reached him.

At Homestead.  
HOMESTEAD, July 28.—The force at work here has steadily increased. Reporters went through this morning and found fully 700 men at work. The heavy planes were rolled while they were there, and seemingly with ease. The work is being specially directed toward the naval contracts. Superintendent Potter says he has all the laborers and yard men they want, and that it is astonishing how rapidly some of the new men are learning the work which the strikers asserted could not possibly be done by even skilled workmen, because they do not know the nature of the work.
