The Wool Tariff.

CHICAGO, June 23—Chairman Midgley of the Western Freight Association, has telegraphed the Great Northern, Northern Pacific and Union Pacific, calling attention to the special wool rate from North Pacific coast terminals to the seaboard, which is at 95 per cent, 100 pounds, and has requested that, as the eastern lines will not accept less than the local rates east of this, its name be withdrawn from the tariff, and no shipment therefrom be made until the lines in the Western Freight Association accept the eastern rates, which would be 25 per cent of the quoted rate. Inquiry has been made by the Chicago Wool Growers' Association, and the latter has advised that the Union Pacific made with the eastern lines for the protection of that rate. The eastern lines claimed that they had not been consulted in the establishment of the rate, and would not accept less than their local rate from this city to the seaboard, viz. 100 per cent. The Chicago Wool Growers' Association has informed Midgley that no arrangements had been made with the eastern lines, and would accept less than the local rates. Under these circumstances no alternative is left for the Western Freight Association than to cancel the tariff. Midgley says the Western Freight Association lines are disposed to do all they can to and their contention is in meeting competition in "the encounter on transcontinental traffic, but their willingness does not go to the extent of shrinking their rates and allowing eastern roads their local, especially when the local in Chicago to the seaboard is more than half the entire rate from the Pacific coast to New York or Boston.

Th. Colville Indians.

SPokane, Wash., June 23—Authentic information has just been received relative to trouble between the Colville Indians and a surveying party under Engineer McDonald. They arrested two farmers who ferried the party across the Columbia river, and frightened away six of the party. The party is now in camp on the San Fall river, and in conference between the Indians and Agent Cole.

LOS ANGELES, June 23—A fatalist's caution has been the British battleship Victoria, flagship of the Mediterranean squadron, and hundreds of lives have been lost. The Victoria, which flew the flag of Vice-Admiral Sir George Tryon, K. C. The Victoria had an enormous hole made in her side, through which the water poured in torrents. The immense hull of the Victoria at once began to settle, and before the hole could be caulked, the ship crashed and sank in four or five minutes. The trial of the nine others charged with a similar crime commenced today. There were twenty and one negroes to be shot by July 7, with twice as many to be tried.
