The Cost of Deportutio WASHINGTON, Oct. 6-The secretary of

the treasury sent to the senate a revised estimate of the cost of deportation of Chinese now in the United States in accordance with the provisions of the Geary aw. The statement is supplementary to will be taken next week. that of September 12, and increases the estimate of the total appropriation becassary from \$6,000,000 to \$10,335 000. A portion of this increase, \$1,369,000, is due to the fact that the steamship companies have increased the rates for the transportation of Chinese from San Fran cisco to Hong Kong from \$85 to \$41 The remaining portion of the increase is due to the fact the first estimate did not include the expenditure in the courts which the enforcement of the act renders necessary. The first auditor of the treas ury gives an opinion that \$85 per capito will be a low estimate of the cost under this head in California, while the amount will be greatly incre-sed in other states. As an example of the maximum of such osts, the auditor instances the fees of the United States marshal in the deportation case in that state in which the fees reached \$450 The auditor thinks \$70 a fair average of such costs, outside of the expense of confinement, which is from 50 cents to one dollar per day, and would therefore increase the amount necessary ndefinitely. BARCELONA, Oct. 6-Pallas, the an rchist who September 24 made an at tempt on the life of Captain General Martinez Campos by throwing two bombs at him, was shot at 8 o'clock this morncourt-martial which tried bim. From first to last he refused the ministrations of the priests, sneered at their exhortations, laughed at their pictures of th state of the unrepentant, and marched to the place of execution sing ing an arnachis song, as if to drown the words of the boly fathers of the church who walked by his side. The execution took place in an enclosure near the castle of Monunich. A large body of troops with small arms formed three sides of a square facing the death wall, against which Pallas was placed. Outside the line of troops crowds of people gathered though not so great as it would have been but for the fact that the place of execu tion was not announced in advance, with a view to prevent an opportunity to Pallas' anarchistic friends from plotting a dynamite outrage in connection with it. The preliminaries arranged, the firing squad were drawn up, with guns loaded. der, and as the commanding officer's sword flashed downward a volley rang out, and Pallas fell forward dead, Then the body was lifted up, the troops

marched away and all was over.

New York Polities. SARATOGA, Oct. 6-The Democratic state convention ressembled this morning. The report of the committee on contested seats in every case seated the anti-Cleveland contestants except one, on which the delegation is evenly divided. The report was adopted 340 to 34 The WRITES FIRE, LIFE AND ACCIDEN temporary organization was made percalled for the report of the committee on resolutions, which was read. After dealing with state issues the platform says: "The transfer of the legislative and executive branches of the federal government to the Democratic party was none too soon to correct, even if too late to avert, the widespread distress caused by unsound plutocratic Republican legislation. To repeal the unwise and unjust laws of Republican origin, the Demo-cratic party is pledged and may safely be trusted to reconstruct our currency and tax laws in accordance with popular needs and sound political principles. Re cent events have emphasized and confirmed the utterances of the Democratic platforms of 1891 and 1892, and the Democratic national platform of last year, in denonciation of the Sherman law providing for the compulsory purchase and storage of silver ballion; and in reiterating that condemnation we again demand the speedy and unconditional re-peal of the law's obnoxious provisions." The platform further favors liberal pro-visious for all disabled Union soldiers' widows and dependents; congratulates Cleveland on the auspicious beginning of his administration; pledges earnest support in all efforts to secure the anactment of Democratic measures and the carrying out of Democratic policies; and especially approves his patriotic action in

convening congress in extra session. The LaGrande Fire. LAGRANDE, Or., Oct. 6-While return ng home last night, Olsen, the miller of the Alliance Flouring Company, heard a man whistle and run along the platform one inside the building. His suspicions were aroused, and he notified Titcomb, the agent, who accompanied the marshal to the elavator. Mischief was evidently intended, for the door was unlocked and an incendiary, on account of the fire of atone will be used, Wednesday, but nothing proved this idea. Others thought it was robbery, the robbers supposing money to be kept there. There is no clue to the men. The heaviest losers of Wednesday are A B Couley, 25,000 bushels; T L Cav. iness, 15,00 bushels, no insurance; Paci-fic Coast E'evator Compa y, a few thou-

Expulsion of Russian Jews SAN FRANCISCO, Oct. 7 The Chronick will print an interview with Agripus Hemcharenko, an exiled Russian priest, who lives in the hills back of Haywards, this state, and whose cottage has long been a refuge for exiles escaping to America from Siberia. The patriot priest as he is known to the exiles, has received word from Rossia of a ukase issued by the czar for the expulsion of all wealthy Russian Jews in Siberia. The priest says 22,000 of the 100,000 Jews in Siberia are affected, and that a large proportion of the 22,000 will come to California. The ukase applies only to prosperous famlies. Many are wealthy and several who will come to America are millionaires One Jewish merchant now in Irkutsk is worth \$50,000,000. The priest says most

The Dalles at the World's Fair. Mr. Emile Schanno, the horticulturist of this city, has taken a great interest in having Wasco county properly represented at the world's fair in Chicago. He has on different occasions sent boxes of fruit from this vicinity to the Oregon exhibit at Chicago, and yesterday received the following acknowledgment from Dr. Jay Guy Lewis, the general superintendent of the Oregon

The Flemish beauties from Joseph Stadleman, the Gravenstein from Mr. Coatsworth, the Gerrings and Bell Flower and the box of mixed pears from Dr. Sanders, were in plendid condition. This entire shipment f fruit has been a drawing card for us for the last few days, and I cannot compliment our growers too much in this case, as they have been attracting so much attention and have occasioned so much favorable comment. It makes my heart throb within me to hear our products mentioned with so much favor, and by so many. I wish to thank you and all who have contributed through you to help us in this very important matter and Old Oregon will bring home her sheaves of golden harvest, rejoicing in

Since last weekly meeting last evening. They had night, about 9 o'clock, there has been a constant downpour, and the hills around are hid from view by mist. This is not agreeable to our people, and we have heard more emplaints about the weather during the past twenty-four hours than we have about the dullness of business or the scurcity of money. Farmers are very much discour aged because the grain in shock is being damaged, and the price is so low that any loss is severely felt. Some imagine that the climate has undergone a radical change and hereafter the rainy s ason may be expected east of the mountains the same as in the Willamette valley; but during these Democratic times the inductive principle cannot be followed by which to form general rules.
