sleeps in white kid gloves.'

Thanksgiving Day.

From Friday's Daily. Thanksgiving day was observed yestery as it should be. Union services were held at the Congregational church, and Rev. W. C. Curtis preached one of his able sermons. He dwelt on the present distress now prevailing, and the necessity of every fulfilling his obligations to his fellow nan. The discourse furnished food for reflection to all cogitative minds in regard to the day, and the manner in which it should be kept by all patriotic citizens,

During a greater part of the day the bus ness houses were closed, and a general holiday was enjoyed. In many families a reunion took place around the dinner table. Fathers and sons, mothers and children, brothers and sisters met together on this occasion who had been separated for years. Old associations were revived, and many lived their lives over again.

The day was not agreeable, there being almost a continuous fall of rain, and the cloominess of the atmosphere appeared to have its effect upon the people. There was no joyous expression on the face of the citizens, and the business depression and the destruction of wheat by reason of excessive moisture appeared to throw a pall over the community. Generally considered it was not such a Thanksgiving day as has been experienced in this usually prosperous

given at St. Mary's academy, which atchairs. A splendid programme of literary and musical exercises were rehearsed, and the entertainment gave general satisfaction. There were several numbers worthy of especial mention, and among which were a medley sung by a class of boys, matrumental duets by the pupils, the farce of illpess without disease. The Dalles brass band. the tableau of Hope and Faith, and Grandma's Dream, beautifully rendered by little Miss Mary McInerny, who has a sweet voice and who displays considerable mus cal cultivation for one so young. Several pieces were loudly applauded, and the performance charge of the academy who had trained the

Do Water Wheels Run Faster at Night?

They do if they are so geared as to

For years the question whether water wheels run faster at night than during the day has been catalogued among the things which no man can find out.

be affected by the varying fullness and speed of the current in which they are set. There is no doubt that all streams are fuller and all streams carry more water at midnight than they do at noon. In the first place, the increased coolness of the air pre vents evaporation and subsequent drying up of the smaller tributaries, and, in the second place, the condensation of the moisture in the air in the shape of dew is always sufficient to add something to large streams and their branches. Heavy dews are often so copious as to be almost equal to a small shower of rain. We often hear dewdrops falling from the overloaded leaves and find all exposed objects as wet as if they had undegone a shower during the night. A large portion of this moisture must get into the minute channels, which of course conduct it to mill streams. "Often," says Humboldt, "the ef-

fect upon a shallow stream is very noticeable indeed." If it is at all "noticeable." a wheel turned by such a stream would "go faster by night than by day."-Indianapolis News.

The Feast of St. Rernara

The feast of St. Barbara, like that of St. Martin, is a soldiers' fete in Italy. The heroic girl, if we may believe an old story of the tenth century, was an angel of beauty and virtue, born in a fortress where her father, Dioscoro, was the governor and also aid-de-camp to the emperor, Maximilian St Borbaro first sow the light in Italy in her father's beautiful villa near Scandriglia, a gift from the emperor to his general, rich with mineral waters, marvelous plants, statues, etc., where she passed the first few years of her life, and

Christian religion. The beautiful girl was hunted to death, taken prisoner, her breasts were cut off, and she was exposed to brutal soldiers, who took possession of her, fastened her to a stake, covered to death, and this she suffered rather than renounce the religion she had embraced. This, at least, is the legend, and the artillery and the engineer regiments fete her as their patron, to whom they show much rethey have half the day free and double pay.-London Society.

Those who mistake the flour of dirt for a natural characteristic of flour are not likely to be safe guides in anything relating to flour. Unrefined sugar is noted for its "flavor," but the ink bottle upon the beautiful the flavor is merely the dirt or extraneous matter in the sugar. So it is appealed for help to the servant. She, with unrefined flour. The stalk of the wheat is quite as digestible as can of the creamy liquid which hap position. The bran faddists ought to insist on smashing bran, awns and stems all at once into meal. Then nothing is wasted-except the conrefusing to eat it. The moralizers

It is said of an old time Maine the ulnar nerve due to a blow on the preacher. Father Blaisdell, who was elbow. This nerve passes down on the pioneer missionary along the the inner side of the arm, and then Maine coast, that he would launch rather inconsiderately bends round his boat and sail before the wind, and and enters the forearm at the back of where the wind took him he would the elbow joint. Any one who has land and preach. At one time, so felt his neighbor's elbow sticking into the story goes, the wind bore him dihis ribs knows that the elbow is re- rectly toward Islesboro. Just be markably deficient in flesh. The fore getting there, however, the wind nerve is therefore at this point very shifted, and although he was within near the surface and has little to a few rods of the land he turned his shield it from a blow. If we are so boat and with the wind sailed off to unfortunate as to give our elbow a another town, where he landed, held smart tap, we obtain a practical con- meetings and started one of the greatest revivals ever held under his ministry .- Rockland (Me.) Courier-

Every one who admires trees must be interested in the result of Profess or Heilprin's studies of the pines that clothe the slopes of the great vol canic mountains of Mexico.

These huge peaks seem to have pierced their way upward through a mantle of pine forest, which clings to their sides up to a height of nearly The vertical range of the pine in

Mexico is remarkable. It is found among the sun loving palm trees at the foot of the mountains, and it stands defiant of the cold close to the gracious and sunny smile, "Don't perpetual snows that cover their summits. - Youth's Companion.

Columbian Stamps For Etiquette An elderly lady in a modest manner leaned over the counter of a west end drug store, and pointing to

"Will you please tell me if these stamps are good for just common When assured that they were so intended, she bowed politely and remarked asshe left: "I didn't know. I thought they were to be used perhaps for etiquette."

"I have to answer that same ques "but I wonder what she meant by etiquette."-Baltimore Sun.

The Listener wants some one to invent and construct a vehicle which shall have wheels and also a set of runners, and be furnished with a lever so placed and geared that when the vehicle is moving over good solid snow it will go on the runners, but when a thin or bare spot is reached, the lever may be operated and the runners drawn up, and then the vehicle will go on wheels. - Boston

Management of the Spoon. Use the spoon only to stir tea or coffee; never use it to sip or drink with. As soon as the liquid is stirred place the spoon in the saucer and leave it there during the remainder sound an instant alarm if it were be | sired, pass the cup with the spoon in the saucer, not in the cup. Do not drink from the cup with the spoon in it.-Housekeeper.

"I don't like our doctor," said Willie. "I went and caught a cold bad enough to keep me home from school Marie has borrowed her cousin's for two weeks, and the mean old doetor cured me in less'n two days.

> An Enthusiast Indeed. Mrs. Trulove-What on earth ever induced you to engage yourself to Count Lackpenny? Miss Brickybrac-Why, my dear, don't you know that he will inherit a service of renaissance plate? How it will improve my collection!-Jewelers' Weekly.

FARMER BROWN'S CONCLUSION

Well, the first I heard about 'em

We've lived on the farm for thirty odd v And been middlin healthy, too; We've raised eight good, smart children Which's as well as most of folks do. But last summer we took some professors And they made my blood run cold,

For ghosts and goblins warn't nowhere Compared to the yarns they told About microbes that swim in the water And fly on wings through the air, That have feet to walk about with

They peeked over the edge of the well curb

And analyzed the pertaters To find the paris green That I put on the tops in early spring. Afore the pertaters was growed; Then how they thought it could git inside Was more than ever I knowed.

They wanted our tomeat kept to home. Because one of 'em'd heard of a case Where a cat brought home a disease in its fur, Though there warn't one to ketch in the place. went up into the past To see if the cows eat weeds, For if they did the milk we used

Would be full of colic se They peeked in the suller and aired the barn And sprinkled cleansin powders around That smelt wus'n any old dreen. They hunted 'em faithful all summer

Is to let the whole thing be,

Till I kind of pitied the things
And thought to myself the Almighty was When on some of the kinds he put wings. Well, after they'd gone away in the fall Matilda she says to me,
"The best thing we can do, Caleb.

So we come to this conclusion, No matter what microbes might bring , little bit of learning
Isa mighty dangerous thing.

-Yankee Blade. A little bit of learning

Offensive and Exasperating Expressions In our own opinion the use of common form" jocularities is most offensive in those who think of them as wit, though most painful in persons who use them unconsciously and as mere methods of expressing their meaning. We feel that those who try to force a laugh out of such expressions as "my downy couch" where she became a convert to the or "committing matrimony," who squirm into a smile as they ask if

"there isn't room for a little one," or

who speak of "japanning their trot-

ter cases," might fairly be shot at her with quicklime and burned her large and heavily facetious family catches up and uses almost unconsciously such phrases as "getting outside a square meal," "the clerk of the weather," "she's no chicken," or "put on your warpaint," and when even the father mechanically talks spect and gratitude, especially as of "performing his ablutions," the sense of pathos overcomes all others.

-London Spectator.

LOOK AT THE trouble and disturbance that it causes you. Wouldn't you welcome somegood? That is the case with Dr. Pierce's Pleasant Pellets. They're the smallest in size, the mildest in action, but the most thorough and far-reaching in results. They follow nature's methods, and they give belong the state of are promptly relieved and permanently cure

"If we can't cure your Catarrh, no matter how had your case or of how long standing, we'll pay you \$500 in cash." That is what is promised by the proprietors of Dr. Sage's Catarrh Remedy. Doesn't it prove, better than any words could, that this is a remedy that cures Catarrh! Costs only 50 cents.

Food - - -Digestion - -Complexion -

are all intimately connected

—practically inseparable,

Though the fact is often practically inseparable. gnored, it is neverthele ue that a good complexion is an impossibility with-out good digestion, which in turn depends on good There is no more common cause of Indigestion than lard. Let the bright house
