Prineville Review,

Last Monday afternoon Sam Seifert came illoping into town and inquired for Dr. Belknap. As soon as he held a consultation with the doctor, we hunted him up and inquired the cause. He informed us that at a point in the Cascade range, twenty miles west of Crane prairie and ninety-five miles from Prineville, himself and three others, William Quinn, William Thorn and William Pooler, were in camp bear hunting. On the 26 h, having killed one bear, in the evening, two of the party, William Thorn and William Quinn, concluded they would take a round and see if they could not scare up another one. They soon became separated, and just as it was getting dusk Thorn saw what he thought was a bear and fired at it. Instead of a bear it turned ont to be
