TELEGRAPHIC NEWS

Washington, Feb. 8.—Affairs in Hawaii have taken a turn that has caused the interference of the United States government again, as is made evident by two telegrams sent congress by the president today.

The first is from United States Minister Willis to Secretary Gresham, dated Honolulu, January 30, and wired from San Francisco, February 6, reading as follows:

"The revolt was over on the 6th; the cessation of the government were one; of the royalists 2. A court-martial convened on the 17th has tried 39 cases, and 100 or more yet to be tried, and daily arrests are being made.

"Galkick, the former minister, and Stewart, minister and major-general of the army, both Americans, and Richard, an Englishman, have been sentenced to death. All were heretofore prominent in politics.

"W. Walker, formerly of the United States army, was sentenced to imprisonment for life, and \$5000 fine, other sentences are not disclosed, but will probably be death.

"Bitter feeling prevails and there are reports of violence which the arrival of the Hawaiian fleet has increased.

"Luisoakalia was made prisoner on the 16th, and on the 24th relinquished all his claims and swore allegiance to the United States government.

"In response to the above, Secretary Gresham, addressed the following telegram to Mr. Gresham, San Francisco: Forward the following by the first steamer: A. S. Willis, United States minister, Honolulu. If American citizens were condemned to death by a military tribunal, not of actual participation in the reported revolt but for complicity only, or if sentenced to death by such tribunal for actual participation but not after an open trial with all the opportunities for defense, demand days of execution, and in either case report your government the evidence relied upon to support the death sentence."

At Che-Poo's Gates. CHE-POO, Feb. 8.—The Japanese landed troops near here last evening with the intention of capturing the city. A landing was made about 10 miles eastward from Che-Poo, and an immediate advance upon the city ordered.

As this dispatch is sent the Japanese are attacking the forces defending the east part of Che-Poo. Intense excitement prevails. It is expected that a severe engagement will occur today.

The Japanese ships which appeared this morning near Ning Hai, a town between Wei-Hai-Wei and this city, and began the bombardment of the forts on the western side of the town, left soon afterward without doing any damage. This confirms the impression that the attack on Ning Hai was only a feint of the Japanese, covering the landing of their forces at some other place. Every precaution is being taken to defend the city.

According to reports from Wei-Hai-Wei, only the Chen Yuen, of the Chinese naval squadron at Wei-Hai-Wei, was sunk by the Japanese. The other ships, including the Ting Yuen, is said to be unhurt.

Chinese inhabitants in this city are leaving by thousands.

Washington, Feb. 9.—Today New York was practically ice-bound. The bay, from the Narrows to Sandy Hook, is almost a solid field of ice. The upper bay would not be so bad were it not for a number of icebergs at work breaking the ice to permit the passage of craft and that small steamers are plying in the North and East rivers. Tugs are constantly at work clearing a passageway for the Staten Island ferry-boats. Two boats of the Long Island ferry were stalled in the East river for over an hour and a tug that went to their assistance was also stopped by the ice. Reports from the interior of the state tell of the continuance of the great ice. The ice on the Central Hudson river are from five to eight hours late. The Delaware and Mechanicville branch of the Delaware & Hudson canal have been blocked, and no effort will be made to operate them until the storm abates. The Geneva branch of the Erie is blocked. The Port Jervis & Monticello railway and the Erie are badly blocked by snow that they can scarcely be opened before next week. The main line of the Erie Western is closed, and the Erie and West are expected since Thursday. All trains on the Rome Watertown & Ogdensburg are abandoned. A Lyon telegram says a second big snow storm is on its way, and within a couple of hours it was snowing and blowing harder than at any time since the big snow commenced. Four New York Central engines are off the track in the Lyons yards and traffic there is at a standstill.

Through Pennsylvania. PHILADELPHIA, Feb. 9.—At the Pennsylvania and Philadelphia & Reading stations all trains are from five to ten hours late. The roads, however, are being cleared up and trains are expected to be running regularly before long. The situation in the country districts is practically unchanged.

At Caliste, at noon, the Cumberland Valley railroad called in all hands and announced all trains would be abandoned. Nothing will be done till the storm abates. The Philadelphia & Reading are not improving. The first mail from Philadelphia since Thursday arrived at New York today. A passenger train and seven engines are now in at W. O. on the Sandburg & Lewis road.

PITTSBURGH, Feb. 9.—A blizzard swept over this section this afternoon, causing much suffering among the poor. The thermometer registered below zero. Trains arrive from one to four hours late.

A Very Quick Capture. KANSAS CITY, Mo., Feb. 9.—A special train from Newkirk, O. T., says: The Blackwell orebody was held up and robbed this afternoon by two unknown men named Johnson and Stratton. Tonight Johnson's corpse lies in the city and Stratton is behind the bars. It was the result of an act of war on the part of the city marshal. Word was first received of the robbery late this afternoon. City Marshal Austin, Deputy Sheriff Masters and a few other deputies were started in pursuit. Although the robbers were sighted within an hour and in another hour were in tow, they were hounded from their long chase. Their pursuers finally came down upon them and although they showed resistance, they were easily overcome. A short fusillade of shot ended Johnson's life. Stratton then gave up and both were taken back to Newkirk. None of the posse was injured. It is not known how much booty was secured.

Against His Brother Harry. MINNEAPOLIS, Feb. 11.—Adrian Hayward testified against his brother Harry

TELEGRAPHIC. Two of Them Rescued. FIRE ISLAND, Feb. 10.—Two men who escaped for 40 hours to the rigging of the wrecked ship were rescued at midnight by the crew of the Lone Hill life saving station. The vessel was the schooner Louis V. Place, Captain Squires son-in-law, from Baltimore to New York. She was wrecked during the gale. Nine men took the rigging when the vessel went down, about an eighth of a mile off shore, and during the rigging during the blizzard until, one by one, seven of them slipped into the sea or hung limp, bound to the rigging. Two only were able to endure the terrible exposure. They are J. S. Nelson and William Stevens. They are badly frozen. The story of their rescue is a tribute to the life-savers who have for the past two days been making almost superhuman efforts to reach the wrecked schooner.

On Trial for Treason. VICTORIA, B. C., Feb. 9.—Hawaiiian advice by the steamer Warrimoo, on February 2, was brought tonight, and set as follows:

"There is a fall in the affairs here and quietness will probably reign until the military court now sitting will have finished its work. A large number of conspirators have yet to be tried, and the probabilities are that the court will sit for two or three weeks at least. Great interest is attached to the forthcoming trial of the queen. The government claims to have more than sufficient evidence to convict her. What her punishment will be in case of conviction is hard to conjecture. Her case will probably come up next Monday. She is charged with treason. The charge reads:

"Treason by aiding, abetting, procuring, counseling, inciting, commanding and encouraging others to commit treason and to engage in open rebellion against the republic of Hawaii, and to attempt by force of arms to overthrow the same; and by levying war against the same; by adhering to the enemies of the republic of Hawaii, giving them aid and comfort within the Hawaiian islands and elsewhere.

"There are six specifications in the charge. The military commission has brought in findings in 24 cases. Those in whose cases treason was found are: "R. W. Wilcox, S. Nowlin, H. F. Bertelme, Carl Wideman, W. H. O. Greig, Louis Marshall, W. C. Luce, J. G. Jones, C. G. Glavin, W. H. Baker, W. T. Stewart, T. B. Walker, Solomon Kaku, Pehaha, Lot Lane, Thomas Poole, J. K. Kaku, Robert Pease, J. W. Kipuka, Kikona, George Chua, J. J. Janus, W. Windfield and Jack Kukuhi.

New York Is Ice-bound. NEW YORK, Feb. 9.—Today New York was practically ice-bound. The bay, from the Narrows to Sandy Hook, is almost a solid field of ice. The upper bay would not be so bad were it not for a number of icebergs at work breaking the ice to permit the passage of craft and that small steamers are plying in the North and East rivers. Tugs are constantly at work clearing a passageway for the Staten Island ferry-boats. Two boats of the Long Island ferry were stalled in the East river for over an hour and a tug that went to their assistance was also stopped by the ice. Reports from the interior of the state tell of the continuance of the great ice. The ice on the Central Hudson river are from five to eight hours late. The Delaware and Mechanicville branch of the Delaware & Hudson canal have been blocked, and no effort will be made to operate them until the storm abates. The Geneva branch of the Erie is blocked. The Port Jervis & Monticello railway and the Erie are badly blocked by snow that they can scarcely be opened before next week. The main line of the Erie Western is closed, and the Erie and West are expected since Thursday. All trains on the Rome Watertown & Ogdensburg are abandoned. A Lyon telegram says a second big snow storm is on its way, and within a couple of hours it was snowing and blowing harder than at any time since the big snow commenced. Four New York Central engines are off the track in the Lyons yards and traffic there is at a standstill.

Through Pennsylvania. PHILADELPHIA, Feb. 9.—At the Pennsylvania and Philadelphia & Reading stations all trains are from five to ten hours late. The roads, however, are being cleared up and trains are expected to be running regularly before long. The situation in the country districts is practically unchanged.

At Caliste, at noon, the Cumberland Valley railroad called in all hands and announced all trains would be abandoned. Nothing will be done till the storm abates. The Philadelphia & Reading are not improving. The first mail from Philadelphia since Thursday arrived at New York today. A passenger train and seven engines are now in at W. O. on the Sandburg & Lewis road.

PITTSBURGH, Feb. 9.—A blizzard swept over this section this afternoon, causing much suffering among the poor. The thermometer registered below zero. Trains arrive from one to four hours late.

A Very Quick Capture. KANSAS CITY, Mo., Feb. 9.—A special train from Newkirk, O. T., says: The Blackwell orebody was held up and robbed this afternoon by two unknown men named Johnson and Stratton. Tonight Johnson's corpse lies in the city and Stratton is behind the bars. It was the result of an act of war on the part of the city marshal. Word was first received of the robbery late this afternoon. City Marshal Austin, Deputy Sheriff Masters and a few other deputies were started in pursuit. Although the robbers were sighted within an hour and in another hour were in tow, they were hounded from their long chase. Their pursuers finally came down upon them and although they showed resistance, they were easily overcome. A short fusillade of shot ended Johnson's life. Stratton then gave up and both were taken back to Newkirk. None of the posse was injured. It is not known how much booty was secured.

Against His Brother Harry. MINNEAPOLIS, Feb. 11.—Adrian Hayward testified against his brother Harry

TELEGRAPHIC. Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Today in the latter's trial for the murder of Catherine King. He repeated the confession previously made by him regarding the brother's statements to him showing the intention to kill Miss King, and get the insurance on her life.

After court adjourned the mother who had heard her eldest son's testimony, torn by conflicting emotions, put an arm around the neck of each of her sons and attempted to draw them together, tears streaming down her soiled face. Adrian tore himself away from the motherly embrace and left the courtroom sobbing, while the drudge handcuffed Harry and led him back to jail.

La Gasconne Is Safe. FIRE ISLAND, Feb. 11.—4:15 p. m.—There are three steamers of the Forgive life saving station. One is a French steamer, moving slowly. Will not reach Fire Island for two days.

The observer here, while he cannot say definitely, thinks the French steamer reported off the Forgive life saving station is La Gasconne.

The French steamer has two masts and two red streaks with black tops. This answers the description of La Gasconne. She is an off-shoot of the Point and moving very slowly. She signals out, and cannot be seen.

Two other steamers are now south of Fire Island. One is a French steamer, moving slowly. Will not reach Fire Island for two days.

Defied the Frost. CHICAGO, Feb. 11.—The laundry comb, comprising all the big firms in the business, under protest to freeze out little Miss Mary G. Hennessy, because she would not join the association. The combine sent agents to Miss Hennessy's customers and in some cases did washing free, to drive her out of the business. Miss Hennessy has refused to give up her business, and a jury has awarded her \$8000. The case will be appealed by the combine, but Miss Hennessy will fight it to the last.

New Orleans First Mayor. NEW ORLEANS, Feb. 11.—Charles Gayard, the venerable historian and litterateur, died this morning, aged 90. He was a native of this city, of noble birth, and famous in this state for having introduced the culture of indigo and sugar cane, and for his first marriage to this city. He wrote a "History of Louisiana," "Influence of Mechanic Arts on the Destiny of the Human Race," and several other works.

Did From Eating Poisoned Pudding. SEATTLE, Feb. 11.—Hazel Flynn, the 5 year old daughter of Thomas Flynn, of Ballard, died this evening from the effects of eating poisoned canned plums Friday evening. Two children of Mrs. Ray and another of Mrs. Flynn, who are the mother, are also sick from the same cause, but they are not considered in danger. No inquest will be held, as the death is plainly accidental.

Under a White Blanket. ATLANTIC CITY, Feb. 11.—The Sunday south woke up this morning to find itself covered with a blanket of snow 3 1/2 inches deep on a level. All trains are delayed. Ed Flynn, colored, was taken to death by his way to Augusta from his home in the country.

Cobblers' Shortage. A few days ago the TIMES-MOUNTAIN published from an exchange a statement that there was a shortage in the shoes of Mr. Cobblers, who committed suicide while in the city of the Dalles, yesterday. The statement of that city printed the following:

C. N. McLean and S. E. Dean, who were appointed by the directors to expert the penitentiary books, made their report about a week ago, but nothing can be learned about the shortage in the late warden's accounts until amount to something over \$12,000. They state that it is almost impossible to ascertain the exact amount of the shortage, as most of the books have been destroyed and those that are left are in such a state that nothing can be learned from them. By taking, however, the amount of the material used in the first seven months Mr. Cobblers had charge of affairs as a guide, the estimate is placed at the amount above stated. It was not known, however, whether to place the value of the missing books or the number of books that have been manufactured from the date received at 60 cents, the selling price, or at the actual cost to the state. In any event, however, Messrs. McLean and Dean, state the delinquency will amount to from \$11,000 to \$12,000.

Expert D. Young, who was sent here from Seattle by Governor McGraw to look through the books and figure out the shortage, finished his labor last Saturday and handed his report to the commissioners today. It was learned from the directors' account sheet at something over \$12,000. The reporter made an effort to see the contents of both reports but without avail. They are to be forwarded to Governor McGraw before anything is made public.

He'll Will be Tried in April. There have been a great many surmises as to what will be done with the convict Hoyt, who so foully murdered a fellow prisoner some weeks ago at the penitentiary, and for the benefit of all we might state that from Prosecuting Attorney Ormsbee it is learned that the prisoner will be arraigned at the April term of the superior court for murder in the first degree, says the Walla Walla Statesman. The procedure is not yet learned, but it will not be necessary to prolong the convict before he can be tried for this offense. Although in the charge of the warden at the penitentiary his body can be demanded by the court for trial, and when the law gets through with him be again returned to the warden to deal with according to the decree of the court. If sentenced to be hanged the sentence will be fulfilled by the official.
