All of this shows that the Constitution has a much clearer insight than the majority of Democratic papers into the feeling of Republicans regarding an extra session, says the St. Louis Globe-Democrat. Most of the Democratic statesmen and journals have been charging that the great aim of the Republicans in congress and out of it has been to force a session of the next congress at the earliest practicable moment. The Republicans desired this, according to the Democratic accusation, so as to begin to use their newly acquired power as soon as possible. They have been charged with dodging issues and otherwise impeding the legislation which the administration favors, and all for the purpose of compelling the president to call after March 4, so that they may show the country how financial and all other sorts of crises are met by a party of vigor, courage and intelligence. But the accusations were false, and

the alleged conspiracy to block legislation was non-existent. The Republi cans have especially powerful reasons to avoid an extra session. They will have only one branch of the next congress, the house, while they will lack two or three votes of a clear mejority in the senate. Moreover, the silver element will be stronger in the next senate than it is in this one, which is another reason why the Republicans gency. are not anxious to have the congress of the Court street school furnace burned come together before its stated meeting out this morning, consequently the pupils time in December. The Populists will the furnace was being repaired. The regulation of the furnace was being repaired. The regulation of the furnace was being repaired. hold the balance in the senate, and as lar quarterly examination will be held on friday of this week in the Court street school and on Thursday in the other schools vital issue, the financial question, that of the city. hands all through the term. To a certain extent the R-publicans will perhaps be held responsible for the conduct of the next congress, without having the power to determine decisively what that conduct shall be. The President will be on their side, but the senate will be against them, and they will be powerless to carry out any distinctively Republican policy. An extra session is what the Republicans desire most earnestly to avoid, and they are trying to avert it by supporting the administration's policy when it commends itself to their views of financial expediency and propriety.

Death of Mr. L. Newman.

Mr. L. Newman, a pieneer resident o The Dalles, and who has been in business in this city since 1863, with the exception of four years that he spent in mercantile pursuits at the mouth of the Amoor river, died very suddenly at 10:45 this morning. He attended to business at his store yesterday, although he complained of feeling poorly, and retired about the usual time last night. Not getting up at the usual hour this morning his family went to the room, and he was found in an unconscious condition. Medical aid was summoned, and the usual restoratives administered; but he died without regaining consciousness. It is supposed he was taken with apoplexy during the night, and, sleeping up stairs, was unable to alarm his family. He has been in business in Boise City, Camp

Watson, Sacramento, the Amoor river, but principally at The Dalles for the past thirty years. Mr. Newman was an ener getic business man, public spirited and enterprising, and was possessed of a fund of valuable information. He was born in Poland about 61 years ago, and came to America when a small boy, stopping for some time in Texas and Alabama before he came to the coast. La Grande Chronicle. Senator McAllister's bill creating the

Eighth judicial district to include the counties of Baker, Union and Wallows, Mat Weich has passed both houses and will become a law. The new bill does not effect the date of the next term of circuit court for this county, which is to convene in Union next Monday.

The bill provides that the governor shall appoint a judge to serve for this district until the time of the next general election, when a judge is to be elected for the regular term of six years. A petition has been circulated and numerously signed asking for the appointment of R. Eukin, Esq., of Union, to this position, and it is believed that he will probably be the successful applicant. Prosecuting Attorney J. L. Rand, of Baker City, 18 also a candidate for the position.

During 1895 every vital question will be discussed with vigor and without prejudice in the editorial columns, and also in special articles by the highest authorities in each department. Portraits of the men and w-men who are masing history, and powerful and caustic political cartoons, will continue to be characteristic features.
