Upon petition of 537 citizens of Ber ton county the county court in session there last week ordered that the sheriff be allowed only one deputy at \$50 a month, the county clerk only one deputy at \$30 a month and the recorder a deputy at \$10 a month, just half the former allowance.

The delinquent tax roll has been returned to the sheriff with an order attached that a levy be made upon the real property of those who have not paid their taxes, and that the same be sold to satisfy the unpaid taxes. The sheriff is allowed sixty days in which the second light this

The special train from Yaquina Sunday morning almost ran over a deer standing on the track a few miles this side of Summit. The sleek creature bounded off into the bushes barely in time to escape being caught by the cow-catcher. It appeared fascinated by the approaching engine, and only moved when the engineer began vigorous

whistling.

The people in the Willamette valley who worked to get a fish ladder in the falls at Oregon City, will not be pleased to learn that the work is all undone by strewing nets in the river below the falls so it is almost impossible for fish to get over. The law establishing the ladder was not more than half made, or it would prevent this netting of fish.

The committee on International Delegates at the recent meeting of the reported the following names, as those chosen in committee, to represent the Webfoot Endeavorers at the great Boston convention in July, towit: Rev. George E. Hawes, of Portland; A. R. Ruthford, of Oswego; Miss Lena Holt, of Eugene; Anna Smith, of Hood River and Anna Thompson, of Portland.

Salem does not like the appellation that has been given it since the contest over the branch asylum has begun. The Statesman says: "It is to be regretted the attorney for the board in the so-called branch asylum case so far forgot himself as to refer in his brief to the beautiful, generous, hospitable Capital City as the 'Salem hog.' Such startling argument (?) never yet made an impression upon a judge of the court."

Exchange: One constantly runs cross curious bits of superstition. Just now Seattle is talking of the hoodoo in a cane. The stock was made in the Deer Lodge penitentiary and from there sent to Seattle. Already one of its owners has had his wages cut, an-other lost \$160 on the street at night, another was put on trial for stealing a diamond, and three who have carried the stick are now serving sentences at

The annual meeting of the Oregon pioneers will be held at Portland June 14th. William Galloway, of Yamhill county, will make the annual address, and T. T. Geer, of Marion county, the occasional address. Mrs. Robert A. Miller, of Oregon City, a pioneer daughter, will prepare a paper for the evening meeting, treating particularly of woman's experiences in crossing the plains and in pioneering. William Kapus has been selected as grand marshal and Rev. D. B. Gray, chaplain.

The play tonight will be "The Light-ning Rod Agent, or "Paradise Lost." Mr. Senter Payton will take the lead-ing part, and this is a sufficient guar-anty that it will be well rendered. He will be supported by the members of the company, every one of whom is an artist. This play is full of fun, and as Mr. Payton will be the comedian, there is no doubt that it will amuse and entertain all who attend.

Oregon City Enterprize: An advertisement in an exchange reads: "The best grades of ranch butter, 22 cents per brick; creamery butter the very finest, 40 cents per brick." This displayed advertisement is a silent but strong argument in favor of the establishment of creameries, It is much more profitable for farmers to sell milk to a creamery, and thus dispense milk to a creamery, and thus dispense with much work and worry in making butter for market under adverse con-

According to the computation of Mr. Henry Garnett, the well-known statis-tician, the wealth of the United States in 1880 was \$43,642,000,000, or an average of \$870 to each inhabitant; in 1890 it was \$62,600,000,000, or about \$1000 to each inhabitant; and at both dates it was greater than the wealth of any other nation. He goes on to show that 5 per cent of the total wealth of the country is owned by millionaires; 27 per cent by people worth from \$100,-000 to \$1,000,000 each; 37 per cent. the largest percentage, by those worth from \$1000 to \$10,000 each; and 6 per cent by those owning less than \$1000 each.

THE CURRENT CREEK HILL New Road Being Constructed Overcome the Obstacles to Travel in

That Part of the Country. In a conversation with Hon. Robert Mays this morning, who has just re-turned from a tour of the southeastern portion of the county, and who spent some time with Mr. J. H. Sherar and his graders on the new road over Current creek hill, we glean several important facts in connection with this mprovement. That portion of the route from Grant county to The Dalles has always been the most difficult, and freighters have been forced to camp there for days before they could haul their loads over the rocks and clay, which rendered it almost impassable. For some time the necessity of a new grade at that point has been apparent, and the merchants of this city subscribed \$1000 for the work. The people of Antelope have also made liberal donations for the same purpose. A few weeks ago Mr. J. H. Sherar, with a force of eighteen men, began the task of making a road around the hill, and has so far succeeded that in two weeks he will have as good

grade at that point as there is any-where. He has had eighteen Indians at work, and has expended about \$1300. Superintending the grading himself, he has camped on the ground with the men, and supervised every foot that has been graded. He has given his time and labor free, and is determined to finish the work he has begun. When finished the grade will be over four miles long, and will have been a more difficult visce of road to have more difficult piece of road to have constructed than that down the Tygh hill, which cost over \$4000. The two nost important reads leading from this city are those to Crook county and to Canyon City, and on the latter of hese is the Current creek hill. This road is of the greatest importance to citizens in the southern portion of the county, who are isolated from The Dalles, and have no other way than this to reach a market. They are heavy taxpayers, and should receive sufficient consideration from the county court to have a sum appropriate to finish the work begun. Mr. Sherar is a thorough road-builder, will give his time and labor until the grade

The statistical reports furnished from the different towns no doubt made a deep impression on the minds of the engi-neers and will greatly influence them in favor of future improvements of Yaquina harbor. One great drawback to this enterprise is the small volume water in the Yaquina river, which of water in the Yaquina river, which is lacking in force to do the scouring of the channel after the jetty work is completed. This is the opinion privately expressed by Major Post, but may not be considered in their final decision. The general impression formed by all who conversed with the engineers is that a favorable report will be made to the war department."

Fire at The Locks. Yesterday afternoon, at the Locks. the scow used by Day Bros. in hauling rock to the works, caught fire from a spark from the engine used in working a derrick. A hucket brigade was formed and the flames were soon under control. Considerable damage was done to the boat; but the full extent could not be ascertained.

making the trial. The Snake river, between Huntington and Lewiston, is at the low stage of water, an almost continuous stretch of rapids and eddies. The river is navigable at all stages only from Riparia to Lewiston, and as Lewiston is 200 miles below Huntington, it will be seen that Captain Gray has no easy

task before him.

The Norma is being strengthened in every possible manner for the trip and will probably make the start the last of this week. Should she make the trip successfully she will be run in op-position to the O. R. & N. boats on the lower Snake,

Y., that all cases of Indigestion, Dyspepsia and Liver Complaint could be cured permanently if the right treatment were given. In support of his belief that he had discovered an alterative extract which he called "Golden Medical Discovery," that would cure these diseases, he collected from all parts of the country the evidence of those who had used his medicine, and he has asked the public to investigate for themselves, as he would be glad to furnish the names and addresses of thousands of people who have used Dr. Pierce's Golden Medical Discovery. All interested should send for a little medical treatise on Dyspepsia, Chronic Diarrhea, "Liver Complaint," Billousness, Constipation and Piles, published by the World's Dispensary Medical Association, Buffalo, N. Y., and mailed on receipt of six cents in one-cent stamps. This book also contains the photographs and testimony of many persons who have suffered from discases of the digestive organs,
