NEW YORK, May 17 .- A special to the World from San Salvador says: A revolution is reported to be in progress in Honduras. The governnent has hurried troops to the border between the two republics to prevent intrusion upon the territory of this country, and to preserve strict neutrality. Precautions have been taken to prevent parties leaving San Salvador for Honduras. A report comes from Honduras that

14 prisoners captured by the government forces have been shot. Another report is that four officers were killed by the soldiers of their commands at Santa Tecla. ROBBER OUT OF SIGHT. Klamath Falls-Ager Stage was Again

ASHLAND, Or., May 17.—The stage from Ager to Klamath Falls was rob-bed again last night. The stage left the railroad at Ager at 30'clock yester-day afternoon, Ed. Walters, driver, and two passengers, John Wells, a prominent and wealthy Klamath stockman and populist county commissioner of Klamath county, and Emanuel Cora, a merchant bound home to Picard, settled down to a slow pull up the nar-row Topsy grade, six miles long, the comp and came from ambush beside the road for the driver to hold up and throw out the express box and letter-pouches. The driver and passengers were then ordered to dismount. Wells was told to cut open the letter pouches and, while he was slashing away at Uncle Sam's property with a pocket knife, the other passenger was ordered by the robber to break open a box sup-posed to contain Wells-Fargo's treasures. The high-wayman objected, however, to the merchant making so much disturbance and confussion, and bade the driver take an ax from the stage and make a neater job of it and with less noise. This work completed, the passengers and driver took off their coats, at the request of the rob-ber, who was still "out of sight," and left the contents of their pockets with the other booty. Little was obtained from them, though. The two pas-sengers and driver were then permitted to get aboard the stage again an

CHILI'S CURRENCY BILL

cial Payment to Begin Next M WASHINGTON, May 17 .- The text of Chili's currency conversion bill as passed by both houses of congress, has been received here. It provides fo specie payments from June 1, 1895. As both metals are to be utilized, the upon the world's supply of The president of Chili is empowered for three years to coin \$10,000,000 in silver. All proceeds from the sales from nitrate beds shall be devoted exclusively to the purchase of silver. Three gold coins, \$20, 10 and \$6, are also provided for. The eliver dollar is to weigh 20 grammes and be 835-1000 fine. Silver is not a legal tender above \$50, except to the government, where it is received as gold to exchange gold for silver dollars presented to it with that object. The act also provides a system of bank currency guaranteed by the government and redeemable by the government if the bank fails.

"Bimetallic Union." SALT LAKE, May 17.—The silver convention today provided for a permanent organization, to be called the "Bimetalic Union." The purpose of the organization is to spread the doctrine of bimetalism at the ratio of 16 to 1 by the "circulation of documents, holding meetings and other appropri-

olding meetings and other appropri Delegates were appointed as follows to attend the bimetallic league convention at Memphis, Tenn., June 11: Ex Governor Prince, of New Mexico; F. E. Sargent, of Montana; ex-Governor Adams, of Colorado; C. M. Donaldson, of Oregon; Henry Laugenour, of California. FOR SOUND CURRENCY.

NEW YORK, May, 17.-George F. Peck, the recent Democratic governor of Wisconsin, is at the Holland house. Speaking of the condition of his state,

and merchants are thinking for them-selves, and this thought has not done much for silver, When the craze first started I saw a lot of men who expected much for silver, When the craze first started I saw a lot of men who expected to make political capital out of the movemen. Now, political ambition is all right, perhaps, but the men who have flocked to the silver standard I do not think did it on account of convictions, but through the idea of gaining political chances. One month ago had an election taken place with a silver ticket in the field, I believe it would have swept the country. Today the silverites have only a scant following. Suppose a man had been elected on a silver ticket, he would hate himself all through his term of office, for he would know very well that he could 'not deliver the goods.' Prosperity is returning, and with it a better understanding of the financial question of the day. I say confidently that Wisconsin is securely within the ranks for sound currency, and nothing can shake her allegiance."

The Bond Syndicate.

ing been begun by the bond syndicate. The recent return to members of 40 per cent of their subscription money was the first step in this direction. It is uncertain when the balance will be returned, out some think it will be in short time. The calling from the The Supreme Court Will Desyndicate members of extra gold is an-other step in the same direction.

There is authority for the statement that the progress of events in the desired direction has been a good deal faster than the syndicate expected or even hoped would be the case. The evelopment of foreign investment on a large scale, so noticeable last month as practically assured the country against any large demand for gold for many months to come. Most of the syndicate's preparations were made against this danger.

SAN FRANCISCO, May 17 .- Colone and Mrs. John Bradbury, of Los Angeles, will leave on Saturday for Honolulu. This will be his first stopping place on their trip around the world, which must be made in 90 days—ten more than Phineos Fogg, Jules Verne's hero, had at his disposal. CUBAN'S REBEL LEADER.

NEW YORK, May 20 .- A special to the *Herald* from Hoguin, Cuba, says: General Gomez, of the Cuban armie who passed near this place escorted by a cavalry force of 1200 men on his way to Puerto Principe, has sent a letter to the *Herald*, of which the following is a translation: is a translation:

"Magnaminity will mark this war as well as untiring energy. Among the veterans of the previous struggle flocking to my standard to guide the rank and file of the younger generation of patriots of liberty to sure victory, there is noticeable a spirit of determination."

nation and an energy far superior to anything displayed during our last war, and entirely free from certain objectionable features which has ten-ed to localize our movements and prevent rapidity of operations. The outlook for the success of the present revolution before many years is so bright that there can now be no doubt right that there can now that the republic of Cuba will be one of the new states soon to occupy place among the free governments the world. Martinez Campos has to accept the only plan of campaign left to him to enable Spain temporarily to maintain possession of the larger towns and principal coast ports, and these will soon slip from her sickly grasp. Campos will require a double grasp. Campos will require a double army, one of occupation and one of operation. For the first, he must have, as any military expert who knows the strength of the revolution and who possesses a knowledge of geography of the island may see at a glance, at least 30,000 men in order to occupy and defend the cities, towns and strategic outposts already threatened by the revolution. For his army of operation as many more troops will be required to enable him to face our forces in the field.

the court, the entire history of which is not likely to be given to the public The conference of Saturday developed the fact that Chief Justice Fuller and Justices Field, Gray and Brewer were still opposed to the law as a whole. Practically the whole court was willing to exempt state and municipal bonds. A majority of the court including Justice Jackson, was oppos ed to the tax on rentals. An apparent majority was in favor of upholding the law as a whole, but just at this junction Justice Shiras, who had wavered during the first hearing, began to show evidences of changing front. Thus it will seem that Justice Brown changed front on the rental question, and Justice III. tice Shiras changed back on the law itself. He was still undecided when Chief Justice Fuller started to write an opinion, and the Chicago member of the court did not know whether he was writing the decision of the court or a dissenting opinion. Finally Jus-tice Shiras took his stand with the op-ponents of the law, and then the chief justice went to work on his opinion, knowing it would go down into history as the decision of the court. It will most certainly be handed down on Monday, and the chances are that

Steele Shot by C. L. Halber North Yakima.

NORTH YAKIMA, Wash., May

Clarence C. Steele was shot and mor-ally wounded this evening by C. L. Halbert. The trouble arose over Halert paying attention to Mrs. Steele, the seemed to reciprocate the affec-ion. There had been considerable uarreling on this account, and Steele ad twice charged his wife with infldelity. Tonight he followed her when she went to gather vegetables, and witnessed a meeting between the two. He called Halbert the most ofensive of names, and the latter picked up a rock and struck Steele on the hip. Steele also reached for a rock, and while he was in a stooping position, Halbert drew his pistol and fired. The bullet took effect in Steele's left arm. In his ante-mortem statement, Steele said he realized he was dealing with a lesperate man; so, after he was shot in he arm, he threw a rock with all his force, striking Halbert on the head. For this he received a bullet wound in the breast, which Dr. Frank, the attending surgeon, says will be fatal. Prosecution Attorney Englehart securfrom the dying man. Halbert is now in jail, but denies that he shot Steele or had a revolver.
