They Fear Lynch Law. DENVER, June 28 .- Almost the entire police force was employed last night in guarding the houses of eight aldermen, who feared violence from their constituents. An ordinance granting reduction of 15 per cent. on the schedule of water rates now in force passed the aldermen by a vote of 8 to 6, and this aroused the anger of the people, who attended the council meeting in force. The measure has a clause which makes the rates fixed a burden on the people for 15 years. Besides, it is claimed, the reduction is not half what the public is entitled to under the company's contract, which calls for a reduction the to the average rates charged in Chicago, St. Louis and Cincinnati. Although much

harsh talk is heard, no overt acts against the aldermen have yet been DA GAMA'S LAST DATTLE.

of the rebels who escaped capture by government troops after the insurgent defeat near Santa Ana, Rio Grande do Sul, Brazil, details of the last battle in which Admiral Da Gama took part, and of his suicide, have been secured. The admiral, at the head of a force of 400 sailors, was engaged by a brigade of government soldiers numbering 1200. The battle lasted five hours, and at least 300 men were killed or wounded. Some of the insurgents ad-vised Da Gama to retreat, but he refused and they abandoned ihm. With a handful of men the admiral repulsed five charges of the government cay-alry, but the struggle was hopeless, and, seeing that all was lost, Da Gama

Da Gama's body was taken to Santa Ana by the government troops and there horribly mutilated. The throats of many of the captured rebels were cut by the victorious soldiers.

the drivers were changed at Klamath hot springs it was 9:20 o'clock, and a Washington county, and bound for Klamath Falls on business. Nothing happened until the stage had climbe a long and tortuous grade, and was nearly a mile beyond, when, at a quarter to I o'clock, a command came from behind a tree at the side of the road to halt and throw out the mail sacks. The robber did not ask for the express box, showing that he knew of Wells-Turks Very Dilatory About Fargo having recently withdrawn their

service over the road. When the down stage came along it was halted within three feet of the other stage, and the same procedure gone through with. There were no passengers in the second stage. The robber had a horse close at hand, but seemed to have no confederate. He wore a cloth mask and talked without any attempt to disguise himself. He was of medium height. He was careful to keep out of sight though, it is said, he could have been shot several times if the passenger or driver had a pistol. Only \$3 was secured from Gates and 10 cents from the driver.

Sheep Herders Missing.

DENVER, June 28 .- A special to the Times, from Albuquerque, N. M., says Pedro Perea, of Bernalillo, reports the people of Algodones, a small Mexican settlement north of here, greatly excited over the mysterious disappear ance of Pedro Lobalo and Maximo Sandova, sheep herders, employed by Francisco Archibeque. It is believed the men have been murdered, as their sheep were found in charge of a wellknown sheep thief and desperado named Garcia. Threats of lynching Garcia have been made.

Gridley, Cal., July 1.—The residence of Trotter Holliday, situated five miles south of Gridley, was totally destroyed by fire last night. About 11:30 o'clock, Joe Quinn, brother-inglaw of Holliday, was awakened by smelling smoke. He arose and rushed to the door of the Hollidays' sleeping apartment. He rushed outside and redeavored to raise a window so as to rescue Holliday, but was unable to do so. While endeavoring to do this, he heard Miss May Terrill, a niece of Mr. Holliday, who was stopping at the house, scream twice. Both Holliday and Miss Perrell were cremated in the burning building. It seems that Miss Terrell, was overcome by the heat, and perished, as her body was found in a room other than that in which she slept. Nothing but the trunks of the bodies remain, the arms and limbs having been burned away. Mr. Holliday was a well-known and highly respected citizen, and a well-to-dofarmer. The coroner's jury, on being impaneled, rendered a verdict in accordance with the above facts,

MARCHING ON HAVANA.

Groseberry, Morrow County—The weather has now become a veritable drouth. Crops are beginning to perish. Fruit cannot mature; it has already stopped growing. Some rye hay is being cut, making about one fourth of a to to the acre. Range grass is dying, and stock show signs of shrinking.

"Clem, Gilliam County—There has been no rain since May 5. The ground is very dry. Fruit is drying up and falling from the tree; grain is burning badly, and starvation is starring up in the face. I have lived in this county for 16 years and never experienced weather has now become a veritable drouth. Crops are beginning to perish. Fruit cannot mature; it has already stopped growing. Some rye hay is being cut, making about one fourth of a to to the acre. Range grass is dying, and stock show signs of shrinking."

Gomez, the Rebel Leader, at the Head of 8000 Troops.

Key West, July 1.—According to a gentleman who came from Havana on the steamer Mascotte, the island of Cuba is ablaze with the revolutionary fever. This gentleman, who is well posted on Cuban affairs, asserts that Gomez is marching on Havana at the head of 8000 well-armed troops. Gomez asserts that in a short time he will water his horses in Rio del Almendares, and command the capital of the island.

Maxima Gomez surprised a garrison of 1500 Spanish at Alta Gracia, and had a severe battle with them. He cut their ranks all to pieces and routed the enemy with heavy losses. After he had taken the town he burned it. Colonel Bore, one of the Cuban leaders, was killed by his own men, but is said by some accidentally.

The large amount held over from last year has kept well and will be needed. On the Imnaha, the fruit section of the county, the fruit will be full and fine. Stock is in fine condition. People are not as happy as they were two weaks ago."

In Baker, Malheur and other countries to the south of the Blue mountains, irrigation is generally practiced, and the warm weather is favorable to all irrigated crops. The hay crop will not, however, be an average. The range grass holds out fairly well, and stock continues in a very fair condition. In some sections there is a movement to sell stock, owing to fear of a short range and short hay crops.
