Dueling is Inhibited. CITY OF MEXICO. Aug. 23.—A section of the penal code relating to dueling provides that when any person is wounded or killed in a duel the conditions of which are favorable to one of the combatants, the challenging party shall be punished by 10 years' imprisonment, and the recipient of the challenge six years. The challenger's seconds are, in such cases, subject to the same imprisonment as the principals, and it is urged here that this law will apply in the Momero-Verastegui case now on trial if it is proved that the latter was the challenging party and the duel was unfair. The seconds in this case expect to

patch from Shanghai says the mem-bers of the commission which recently eft Foo Chow for Cheng Tu, to inrestigate the recent massacre of missionaries there, are virtually prisoners. Commander Newell, of the United States cruiser Detroit, has gone to Cheng Tu to consult with J C. Hixson, United States consul at Foo Chow, the leading member of the commission about landing marines for the protection of the other commissioners.

The Report Discredited. WASHINGTON, Aug. 23 .- It is said here that Ku Cheng is meant wherever "Cheng Tu" is used in the London dispatch, as Cheng Tu is the scene of the June riots and 1400 miles from Foo Chow. Naval officials, though without information themselves, are inlined to discredit the dispatch, Acting Secretary McAdoo said it was observed that dispatches of this character came by way of London, while another high naval officer said there was an evident intention on the part of Great Britain in the whole Ku Cheng affair to get the United States to pull chestnuts rut of the fire, and he pointed to the fact that there did not

seem to be any anxiety on the part of England to land troops or to be unduly nasty to force an explanation.

The navy department thought that if Commander Nawell had gone on such mission the government would have been notified. It was also said that the marines had scarcely ever landed at the request of any consul, especially when there is a minister in the country. However, should there be trouble of the kind indicated. he United States has a strong force in Asiatic waters. Seven ships are available, some of them good crusiers, our fleet including the Baltimore (flag-ship), Charleston, Detroit, Yorktown, Machias, Monocacy and Concord. YREKA, Cal., Aug. 26.—As a ghastly climax of a reign of lawlessness in Sis-klyou county for many months past, the bodies of four accused murderers lie this morning on the floor of a fre-engine house in the old mining town of Yreka. It was evident that Judge Lynch and his jurors had been at work during the night, and their verdict was "death by hanging" to four miser-able wretches in the county jail.

The victims are: Lawrence Johnson, who, on July 28, stabbed his wife to death in the town of Etna; William Null, who shot Henry Hayter, in the back, near Callahans, April 21; Louis Moreno and Garland Semler, who was supposed to have killed George Sears and Casper Meiererhans at Baily Hill, August 5. At about 9 o'clock a straggler now and then caught a glimpse of dark objects hanging around the sub-urbs of the town, but nothing was

At midnight a prearranged plan or signal drew a small army of some 250 men in the vicinity of the court house source. the vicinity of the court house square, while sentinels were placed through-out the town to ward off the danger of discovery by officers. The fire bells were tied up and the night watchmen were sent to other parts of the town on sham errands, and stagglers were de-

A demand was made upon Deputy Sheriff Radford for the keys, but he did not yield. Henry Bratlaucht, who was sleeping in the jail, heard a commotion and opened the door to see what the trouble was, and he was at once seized by the mob. The doors were then forced open and Johnson, Null, Semler and Moreno were marched out of the courtyard. The condemned men were stolid and took their fate without a stolid and took their fate without a as it was learned that the Indians murmer, with the exception of young Seinler, who begged piteously for mercy. His age is 19. It is said that the scene was a heartrendering one, as young Semler broke forth in an

agonized appeal, and cried out: "Tell my dear old mother I am innocent of the crime." Sheriff Hobbs had given strict orders that in case any attempt at lynching was made to ring the fire bells and rouse the citizens, but the mob anticipated this and laid their plans well. Every person about the streets in the vicinity of the jail was stopped. S. F. Miles and Sam Roop were going to the house of the latter's mother, and were held at the scene of the hanging. Nearly every section of the county was
represented in the mob. In fact, ever
since Null's cold-blooded murder of
Henry Hayter, a lynching was freely
talked of in the western end of the
county, and when Johnson killed his wife the avenging sentiment kept on fermenting. After the Bailey Hill murder the feeling reached a danger-ous stage. During the lynching some one awoke Sheriff Hobbs, who hurried down town, and as he was going through the courthouse a Winchester was stuck in his face and he was compelled to stand where he was. The whole affair was carefully arranged and well executed, and not over 20 minutes elapsed from the time the keys were surrendered until the mob

"The French are in a bad way in Madagascar, and, in addition, by their ridiculously severe sentence of Waller, they have involved themselves in a grave international question. There is a certain irony in the mischance which has embroiled them with a power so absolutely indifferent to the Madagascar question. Last Friday night the settlers of those reports the killing of 15 Bannocks by carellemen under the leadership of "Rye" Smith. Smith has reason for revenge for the murder of his father in 1878 in Diamond valley. There is great excitement in the town and throughout the county. Troop A is in realiness to march on short notice, and is awaiting orders from the county sheriff for authority to act. Indians are reported approaching the town from the south, but are believed to be friendly.

There were reports from those who had been riding the range of the lighting of signal fires by the Indians in Diamond and Happy valleys, and of hostile Bannocks, and spread at Diamond postoffice, but the captures of an old squaw dispelled their fears, as it was learned that the Indians were on their annual hunting tour.
