Secretary Olney Makes His BLUFFS DON'T GO

Russian Bear but Dres Not Man to Nominate McKinley, For President-A Hard Hill For the Veteran.

NEW YORK, Oct. 25 .- A special to he Herald-from Washington says: Additional particulars have been as Secretary Clney's note to Great Britain on the Venezuelan matter. It is a ommunication of about 8000 words, and contains a full review of the eforts which the United States has reneatedly made to secure a settlemen of the long-standing dispute between Great Britain and Venezuela. It de scribes the relation of the Monroe doctrine, to the boundary dispute in Grina, and then relates the principle. which is the vital part of the note and the real principle for which the United States is now contending, namely, that no European power shall enlarge its erritorial cominion on the American

ontinent by means of force. From this basis, Secretary Olney roceeds to declare that arbitration is obviously the only just method by which Great Britain can hope to reach settlement of her dispute with Venezuela. Such arbitration, he says, the United States is now, as formerly, willng to promote and facilitate. But he s as emphatic as the language permits in the declaration that any attempt to reach a settlement of the contention by means of force would be regarded as an act unfriendly to the United

He esablishes, as it appears, beyond contracharacter where no absolute right nor clearness of title exists with either party, and that the quarrel is essentially one of those misunderstandings between nations which by innumerable international precedents are prop-

erly to be adjusted by means of arbi Having thus effectually estopped any ossible plea that the territory in question is indisputably British soil and therefore coming within the rule that no nation can submit to arbitration its title to its own territory, Mr. Olney gain declares that through the Monoe doctrine the United States has a right to advise settlement of this mater and that his voice is raised to urge hat the dispute be settled by arbitra-

The secretary takes the ground that arbitration may confirm Great Britain's jurisdiction over all the disputed territory. If this should be the finding of a tribunal the United States would henceforth respect that decision. But he shows that until Great Britain's title shall have been passed upon by such a tribunal, the United States is and will continue to be a party to the

It should be added that there is every reason to believe the story from Hong Kong is authentic.
