THERE SHOULD BE UNITY. The question of opening the Columbia river above The Dalles is at this time of more importance to the people of Eastern Oregon than any other. Upon it depends the future prosperity and welfare of the entire Inland Empire. The great work at the Cascades is nearing completion, and in order that the immense wheat fields and stock ranges of that section of the state lying east of the Cascade mountains shall be enabled to reap full benefit from this improvement, the other obs good enough to live in, and no title structions to free navigation of the of duchess or princess is more honorariver must be removed. All of Eastern ble than plain Mrs. John Smith, citi-Oregon is entitled to the low traffic zen of the United States. rates which river transportation assure. Upon this point there is a general unison of opinion; but as to the means to be adopted opinions widely differ. Some advocate the building of a boat-railway, as recommended by the board of government engineers, while others deem that scheme impracticable, and insist on urging our representatives in congress to have the matter reconsidered, and a plan for a canal and locks substituted, and there are still others who believe that a portage road would be sufficient to handle the traffic of the upper country,

and that it would meet all demands. To us a portage road, except as a temporary means, does not appear to time may be required to construct more permanent improvements—either

But the question of greatest moment | the government inside of three or four | some showing can be made and a capis the opening of the river by some years at least. substantial and permanent means that will last through ages. And which ask for an appropriation from the state | commerce one of nature's most beautishall it be, a boat-railway or canal and for a portage road around the dalles, ful highways! I have only mentioned locks? Upon this point the entire since the treasury has never been lav- wheat in my letter; but are cattle, country should be a unit. If the boat-railway is impracticable, too expensive with the state already owning the roll-fited by cheaper rates? We can even to operate, and dangerous to the boats ing stock and almost a mile of track at ship ore from the Okanogan to our that it is proposed it shall convey the Cascades, which could be utilized smelting works at Linnton." around the obstructions, let the facts on the new road, the appropriation the measure and demand that canal are parsimoniously inclined. Possibly and locks be substituted. With one section demanding one thing and an- quired to put the road in operation. other something else, we can rest as- This amount, when compared with Dalles, and at a recent meeting of the sured that the obstructions to the navigation of the Columbia will remain intact for the next generation. Cat- the time intervening between now and erwauling over the plan for removing them will never accomplish anything, but unity of action will. Let all of would be to them what the portage eastern Oregon unite on some plan, road at the Cascades has been to The then present it to congress, and we may hope for an appropriation and action that will ultimately result in an single broad-minded legislator. open river from Lewiston to the sea.

WHEN WILL IT COME? the address of Ambassador Bayard before the Philosophical Society at Edin-

burgh, says: with faith in the future of his country, looks forward to a time when, with all barriers to trade removed, the United States shall enter freely into the commerce of the world and send its products to the most distant markets, as Great Britain does now. But we shall not reach that stage of industrial and commercial development by consenting to grow wheat and cotton to be labor to do our manufacturing, close men in Coxey armies. A time will come when we shall adopt free trade, but it will be when Mr. Bayard is past

reached by the path he points out." what means will it be reached? Surely allied beneficiaries and combines are not by the methods the Republican party has adopted of increasing duties at almost every session of congress. When protection was first adopted in this nation as a means of fostering rule as they were only built by making manufacturing industries, the demands of protectionists were modest, and du- gation laws. It is incorrect to speak ties ranging from 5 to 25 per cent were with succeeding years, as the protected industries grew strong and their powers were felt in the councils of the Republican party, they asked for higher rates and they were granted from time to time, until when the tariff law of tion." 1890 was framed they were granted protection ranging from 25 to 100 per cent. Will this manner of procedure ever result in the removing of the barriers to trade in the United States? Most emphatically, No. The history of the Republican party during its thirty years of ascendency was to increase the customs duties whenever asked, and the lowering of duties was | may show a surplus. The probability only exceptional. The Oregonian is right in ascerting that the barriers to trade will not be removed during the lifetime of Mr. Bayard, provided the Republican party again gets into power. But even though this should occur, the time will come when the people will revolt against the taxation of all for the protection of the few, and will demand that all protective duties be removed and the revenues of the government be raised by direct

STOP THE TRAFFIC.

the latter when she has a few million the consumer, and the increased reveof cold gold to plank down as an ac- nue produced by it would solve the companiment to her other numerous problem of meeting the expense of attractions. In fact has she become so notorious as a purchaser of a titled treasury or threatening the gold rehusband that every little upstart of a serve.- N. Y. World. prince, lord and duke whose exchequer is deplete, begins looking about for an American heiress who is willing to World's Fair Highest Award.

sell herself and her millions simply for the "honor" of being dubbed "Princess Money Bags" or "Duchess Much Wealth." These obscure dignataries to the conclusion that all that is necfew millions, is to let their wants be known, and the desired companion, with the money thrown in, will come flying to their mammon-worshipping embrace, at least we are lead to this belief by the announcement in the dispatches that a certain French prince, who announces that he belongs to one of the first families of the fallen king-

dom's nobility, with a title dating back to the Crusades, is undertaking to negotiate a marriage in this country with some young lady who has \$2,000;-000 (and it must be in cold cash) to bestow on his highness, and offering a commission of \$15,000 to the party who will negotiate the deal. This is indeed a chance for some high aspiring American girl, with more money than brains, but it is to be hoped that the chance will be spurned. It is time to call a halt in this traffic. American women should hold themselves in too high esteem to be bartered away for empty titles of fallen princes. If America is good enough to be bred and born in, it

WHY NOT?

Now that there is assurance that the canal and locks at the Cascades will be completed in a short time, by the first of March at farthest, thereby removing be the thing. However, judging what year, but even that is earlier than we under plow, and I should be very much the boat-railway or canal and locks— port of the board of engineers recom-by the time that has been consumed in mending the building of a boat-rail- fertile Palouse country 1,000,000 bushthe construction of the canal and locks | way is adopted, and an appropriation | els of wheat. Take the very low figure at the Cascades, it would probably be is made by the next congress for that of 35 cents east of the mountains, and money well spent to build a portage purpose, it cannot be expected that we have already a capital of \$350,000. road; and Eastern Oregon would be work will be commenced inside of a I am sure that the city of Portland, justified in asking an appropriation year from the date on which such with its host of enterprising wholesale from the state for this purpose. A TRUE AMERICAN.

Hon. Thomas F. Bayard, United States ambassador to England, delivered the inaugural address to the Philosophical Society at Edinburgh, on the replete with patriotic expressions and denunciations of socialism and protec tion, showing the relation that exists ection, Mr. Bayard said:

"In my country I have witnessed the nsatiable growth of that form of state legislation and create inequality of fortue, corrupt public life, banishment through London, while we pay British from public councils, blunt public conscience and place politics upon the low level of mercenary scramble, than any other single cause. Step by step, and largely owing to the confusion of civic strife, it has succeeded in obtaining holding office, and it will not be control of the sovereign power of tax-When will this glad time come? By gine for selfish and private profit. Its called 'trusts,' and gradually the commercial marine of the United States has disappeared, the few vessels built being an exception and proving the a breach in the general tariff and naviof protection as a national policy. That could never be, as it will never be anything but the fostering of special interests at the expense of the rest. It is contrary to hopes of advancement, or even the retrenchment of what has been gained by civiliza-

INCREASE IN REVENUES.

With an increase of over \$1,000,000 n the October expense for pensions the total expenditures of the government for the month are \$6,000,000 in excess of the receipts.

The expenditure for November expected to be lower, and the month that it will do so is made greater by the increase in revenues on imports at the port of New York from \$7,597,000 under the McKinley bill in October, 1893, to \$9,299,000 under the Wilson bill in October, 1895. There is also a prospect of a continuous increase in evenue from the whisky tax now that the law has at last begun to overcome the efforts made by dealers to discount

In spite of this, however, congress when it convenes may find it necessary to meet the enormous drain of pensions by a slight increase in internal The American girl has become so revenue taxes. The statistics pubrenowned for her beauty and womanly lished recently by the Brewers' Jourqualities that she has attracted atten nal show that the total consumption of little excuse for placing such incomped will never submit to Spanish tyrany and as a wife she is sought by the high of 191,000 barrels over last year. An and the low, the rich and the poor, the increase of \$1 a barrel in the tax on peasant and the prince, especially by this production would not be felt by pensions without embarrassing the of widespread and general business

THE PROBLEM SOLVED.

While we of Eastern Oregon have been pondering over the means for have, through force of custom, come opening the Columbia to navigation for years, and have not yet arrived at essary to secure an American wife any definite conclusion or devised any with the comfortable appendage of a plan whereby the work may be accomplished, Mr. Alexander Kunz seems to have solved the problem for us. In vesterday's Oregonian he gave his plan, which is not altogether impracticable, and certainly has the merit of being a speedy method, provided it can be accomplished. In his letter, after showing the advantages to be derived from an open river. Mr. Kunz

whereby this much-desired boat railway can be made a reality within 12 months, and the wheat crop of '96 floated down the majestic Columbia, its now so silent waters enlivened by numerous steamers, barges and craft of all kinds, and a charm lent to the beautiful scenery of life, energy and action which it now lacks.

"My plan is simply this: No government help, no slow appropriations. I claim that we—the people of Oregon, Washington, and Idaho—can build this boat railway ourselves.

"The Chamber of Commerce in Portland should take the lead and invite every other chamber of commerce or board of trade of the interior towns. such as The Dalles, Goldendale, Heppner, Pendleton, Walla Walla, Dayton, Colfax, Moscow and Lewiston, to join hands with them and open a list of

"Next thing would be for our cham-

ber of commerce to appoint a few live men to visit the Inland Empire, to inthe necessity for the state portage vite the farmers to meet them in pubroad at that place, why would it not be | lie meeting. These men have to underadvisable for Eastern Oregon to ask stand the purport fully and be able to that the portage road and rolling stock show the farmers the bearings of this be moved from the Cascades and used scheme in a graphic way, so as to enin the construction of a like road from gage their co-operation. The help that The Dalles to Celilo? This, of course, I expect from the farmers is simply could not be accomplished until the this: I want them to subscribe a cermeeting of the legislature in 1897, and tain number of bushels of wheat each the work could not be accomplished according to his circumstances and the perhaps before the summer of that size of his farm, or the acreage he has can expect the river to be opened by mistaken and misjudge the character the general government. For if the re- of our people east of the mountains if ital furnished more than sufficient to Eastern Oregon can with consistency build this boat railway and open to

PROPOSED SEWERAGE SYSTEM

by many citizens and taxpayers of The city council plans and specifications, together with estimated cost of the same, were presented and considered. Foraker. Whether the council contemplates making this improvement we are not informed, nor are we conversant with the needs of the city in this respect; but unless the present system is in should not meet the opposition of a a most dilapidated condition, such as to endanger the health of the city, it would seem that the present is not a proper time to begin such improvenents. During the past few years of have practiced the strictest economy in conducting their private affairs, and at the present are not indulging in any evening of the 7th. The address was luxuries or enlarging their plants. When business men are thus cautious, it is well that those in whose hands the management of public affairs are between these two evils. In this con- intrusted should be cautious about incurring expenses that are not absolutely necessary, or making improve ments that will increase the burdens ocialism styled protection, which I of taxation. It is estimated that a new believe has done more to foster class sewerage system, constructed on the plans and specifications presented to the council, will cost in the neighborof independent means and character | hood of \$22,000. Considering that the city has already quite a heavy bonded indebtedness, and that property owners are not in condition to meet heavier burdens of taxation, it would be well for the gentlemen who compose the city council to very carefully weigh are all right. Just compare the vote Syrians and Cretans are rising in varithe question of the necessity of a new of this year with that of 1894, and you ous parts of the empire and Turkey is ation, creating the revenue into an en- sewerage system before they order it

A NEW DEAL NEEDED.

Recent investigation of the books of the insane asylum at Salem reveals the fact that there has been, to say the least, a very loose system of bookkeeping practiced in that institution. Although the superintendent of the asylum is over \$12,000 short in his accounts, the state board gives out as its opinion that the state has not lost any money by the transaction, carelessness in entering debits and credits in the "Subsistence Book" being offered as an excuse for the apparent discrepancy in the accounts. An expert has been examining the accounts of the asylum, and in his report to the state board he

"July 31, 1895, there purported to be on hand, according to the 'Subsistence Book,' merchandise in the commissary department and accounts amounting to \$26,581.26. From the inventory taken at the date, after placing values on each article (from original bills when the goods were properly identified, otherwise from the most authentic sources possible) the value of the same was found to be \$14,076,77."

If it is true that the state has lost nothing by this apparent shortage of over \$12,000, it is true negligence in the manner of keeping the accounts of marriages, and they represent a total the asylum has been practiced that borders on criminality. A force of clerks are employed by the state to keep the accounts of the asylum, and for money with which to build our tendent who appointed them can offer

In this country there are now 228 iron furnaces in operation, against 172 ast year, and the output from January to Oct. 25th this year is 7,293,000 tons, against 4,850,000 tons for the same period of last year. This increase has occurred under a reduced tariff too. There must be something wrong in the theory that a reduction of the tariff would ruin the iron industry.

The little actress who bestowed her affections on Lord Sholto Douglass has found her titled swain an unruly and obstreperous hubby. In San Francisco the other day he threatened to shoot the dear girl if she disobeyed his lordly commands by seeing her mother. It is needless to say she needed not his threat, and a divorce will likely follow. Another instance of the folly of marrying a title.

Lynching under ordinary circumstances is not excusable, but it is at times the only means whereby justice can be meted out to a certain class of criminals. If it is ever excusable it would be in the case of the three men in San Francisco who have made a wholesale practice of enticing little girls into a den of vice for immoral purposes. Death is the only punishment suitable for such brutes.

Ohio has not gained much in the the same class and kind. What Brice The question of a new sewerage syshas done for the Democrats of Ohio, Foraker will accomplish for the Retem is being pretty generally discussed publicans of that state in a very short time. companies removed the body. ASHLAND NOT THE TERMINUS.

Washington, Nov. 14.—Secretary

Smith has decided a very important case today, holding the eastern terminus of the Northern Pacific railroad is either Tompson, Minn., or Superior. Wis., instead of Ashland, Wis., as has always been claimed by the company. About 800,000 acres are lost by the company. The secretary does not undertake to say whether the grant begins at Tompsons or Superior City, but directs all selections for indemnity between these points held for further consideration. He does declare the grant of the Northern Pacific does not extend east of Superior City. He also says he is aware that lands east of Superior were the basis for the selection of a large quantity of lands fron the indemnity belt of the company's grant in North Dakota. These selections having been made sometime ago, many, Caesarea, not far from Jerusalem, but if not all, perhaps, have been sold by vails at Moosh, owing to the Kurdish sixty days from the notice of this dedemanding state government as did movement. All who can do so are cision within which to specify a new basis for any of its indemnity selections, provided by the decision, and that during that period no contracts against such selections, where the applications entered under the settle ment laws, will be received. TO TEACH TURKEY A LESSON.

Warships of the Powers Now Gathering

at Salonica. CONSTANTINOPLE, Nov. 14.-There s little change in the situation here this morning. The Italian fleet is understood to be on its way to Salonica bay to join British fleet. About 20 warships are already there. The French fleet is expected there shortly and the representative of the powers, the results of communication tions exchanged with their govern-

ments, have had another informal meeting at the French embassy. When the three squadrons have united and Sir Currie, the British ambassador, returns, some decided step on the part of the powers may be anticipated. It is rumored here today that Shakir Pasha, imperial high commissioner for Armenian reforms, is about to be recalled in order that he may be appointed grand vizier in succession to Hali Ri-

fiat Pasha. If this rumor is correct this would seem to be another defiance of the powers, for Shakir Pasha is regarded as the chief butcher of the porte.

HIS FUTURE OCCUPATION.

One Bad Boy Thought He Would Drive a

York village. At the little school-

pupil who, although about the same

age as Mr. Miller, was noted through-out the village for his pure cussedness.

That boy, according to Mr. Miller's

coct some scheme to make the people of

the town miserable. He would chase

the cows, stone the dogs and pigs, put

ropes across the path at night, set pins

around. Whenever any devilment was done it was laid at the door of this one

boy, and usually correctly. At school he was a terror to all. Stubborn and

defiant, there was no restraining him,

and the schoolmaster was in despair. One day he thought he would make a

last effort to reform the boy by argu-

"Now, Tom," he began, "you are

bright fellow, but you are spoiling your future. Just think what you can

nake of yourself if you only behave

yourself. Now, have you ever thought

of what you will do when you grow

TALK AS YOU EAT.

n This Instance Your Topics Are Chos

The latest fashionable fad is the con-

versation luncheon, which is not to be

despised as an up-to-date mode of en-

tertaining. Small tables are used, and

at each guest's plate besides the name card is placed the menu, with a topic

of conversation written beside each course. All conversation except that

pertaining to the special subject is for

bidden, and in many cases this restric-

tion itself makes the luncheon a very

jolly affair. At a recent conversation

luncheon held at Newport the subjects

chosen for conversation were as fol lows: With the iced bouillon the guests

discussed the question: "Is the mascu-line idea of humor a sort of horse

play?" The conversation with the fish

for and against woman suf

a corpse." After which silence
