NEW YORK, Dec. 30. - Deputy Commissioner of Immigrants McSweeney estimates that about 62,000 more immigrants arrived at Ellis island the

past year than in 1894. Thus far in December, 13,149 immigrants have arrived. Estimating 14,000 for this month, the total for 1895, is 229,607, and the increase over last year is 61,944. McSweeney says the character of emigrants is much better than in previous years. This improvement is due to the rigid enforcement of the emigration laws. He says the immigrants last year brought \$4,000,000 with them. The immigrants of this year have brought a much larger sum.

Political Crisis in South Africa. JOHANNESBURG, South Africa, Dec. 30.-The political crisis here, brought about by efforts of the foreign population to obtain equal political rights with the boers, has reached an acute stage. The exodus of women and children is increasing. All trains leaving are crowded and the phices of food stuffs has risen greatly. All kinds of bellicose rumors are current.

the body. WASHINGTON, Dec. 27 .- Chairman Dingley, of the ways and means comnittee, has received a letter from Secretary Carlisle, which is private, but which furnished some information conterning the condition of the treasury. Dingley says the secretary offers to urnish the house all the data that may be needed. The condition of the treasury is represented as very serious. and Carlisle urges legislation for gold

Dingley has informed the secretary and could not be considered. Secretary Carlisle did not say to Dingley that 3 per cent bonds cannot be floated. and did not discuss this feature of the case. This depial is made because a eport to this effcet concerning the secretary's letter is in circulation.

He is Well Informed on the Boundary Question.

CHICAGO, Dec. 27 .- Robert T. Linoln, who has been asked to serve on ie Venezuelan boundary commission, rough it was reported that he had left New York 24 hours previously. In the absence of a definite utterance from Mr. Lincoln, a recently published interview with him will be found interesting and significant. In this he

" As congress now has the matter in the boundary question in Venezuela. I think it was in 1891, while I was minister to England, that this government isked me to act as intermediary in the boundary line dispute between England and Venezuela. (Not the dispute now spoken of.) Dr. Pulido came from Venezuela as commissioner, and I cted as intermediary, as instructed, holding my audiences with the Marquis of Salisbury. The latter offered to accept any settlement other than a fixed line marked in his official charts. This broke off diplomatic relations and ended my position in the matter. Dr. Pulldo returned to Caracas, the Venesuelin minister to Great Britain was ecalled, and England acted likewise. "While that ended the negotiations for more extensive boundary lines. The boundary upon which I was asked to assist in making a settlement is far to the east of this present alleged eneroachment. In this section are said to be gold mines of great richness, se that an extensive field is offered to British enterprise. "I believe in the Monroe doctrine in

connection with the Venezuelan troubles, provided this government is prepared to enforce it.'

WAR AT A COAL MINE.

Pitched Battle Between Hungarians an DUNBAR, Pa., Dec. 27 .- Hungaria and negro employes of the Morrell coal works had an actual battle last night, in which one Hungarian was fatally wounded, eight Hungarians seriously injured, and six negroes badly wounded.

There has been a feud for many months between the two races, and yesterday the colored men, mostly armed with Winchester rifles and revolvers, attacked the Hungarian settlement. They began by firing into a shanty where some Hungarians were at supper, shooting one man in the back. The negroes took their station behind a fence on the township road, and the Hungarians posted themselves near the company's houses. A

hundred shots were fired. After their ammunition was exhausted the fight was continued in hand-to-hand fashion. Seven negroes were captured last evening.

Some peculiar post offices found in these counties Smooth Creek, Millstone. Paperweight, Rockhouse, Ratterbard and Solomon. They believe in long names up that way, and one poor child struggles under the cognomen of Rob-ert S. Samuel T. Nelson R. Benjamin P. Hester. In Knott county there is one family which has ten members licknamed thus: Stick, Burch, Ham, Mardup, Buck, Dol, Sal, Let, Pol, Bat and Do-em. Leslie county has a Mad Dog, Cutshin and Hell-for-Sartin post offices, and the last named is on Hellfor-Sartin creek, which is said to have been named by early settlers who enconntered many tribulations while exploring this locality and named the creek accordingly. Pike county comes next with Bass, Beatrice, Beefhide, Canada, Lookout, Paw-Paw and Praise post offices. Elliott has Backbone, Climlet, Mink, Ordinary and Wyett post

MONEY THAT IS TO BUHN. Confederate Bills Used Largely in Making

"Did you ever know what has become of the greater part of the confederate paper money with which this country was flooded some years back?" asked a local business man who had just returned from a trip to the Atlanta exuntil I struck Atlanto a few weeks ago. In that town I found an old man who makes a business of quietly gathering in all the confederate bank notes he can find. You know the stuff was issued by the ton during the war, and there is any quantity of it still floating around. When the old man gets a big bundle of the paper he sends it to Edison, the inventor, who pays a good price for it. Edison uses it to make carbon for incandescent lamps. The paper upor which the confederate notes were en graved was made of the pulp of sc grass. This branch of the paper mak ing industry has since become a dead art, says the Philadelphia Record. Sea grass paper, when chemically treated by Edison, has been found to make the best sort of carbon for incandescent lights, and so there is always a demand for the confederate bills."

Great Swimming Foat.
