A GIGANTIC ASSOCIATION. More Than Thirty Railroad Systems In-

CHICAGO, Jan. 24 .- After a two days' session behind closed doors, the officers of more than thirty railroad systems formed a gigantic association in this city last evening. The organization will be known as the Central passanger committee, and will include all he present roads in the territory bounded by Toronto, Buffalo and Pitsburg on the east, Chicago, Peoria and St. Louis on the west, the Grand Trunk of Canada and Lakes Huron and Michigan on the north and the Ohio river on the south. The association will have absolute jurisdiction and control over all passenger affairs in this big territory, and will be entirely independent of and in no way subsidiary to the president' joint traffic pool, the operation of which the interstate commerce commission is now

attempting to enjoin at New York. The headquarters of the new organization will be in Chicago, from which int all passenger matters in that erritory will be directed. The combine is not a pool in any sense of the word, but has been formed for the purpose of agreeing upon and maintaing uniform rates of fare. Under the agreement signed, each road will be subject to fines for violations of rules, cuting rates or any other infraction of cure. For sale by M. Z. Donnell. its provisions. Questions will be referred to arbitration.
