The good people came and took me in. And now the folks at me do stare. But it is not to me a surprise, That folks don't say of my hair and eye That they are like his father's or mother's Or that he resembles his sisters or bro For they know not who gave me birth.

I am a stranger to all the earth, I am to the world a little waif, Yet I am here quite snug and safe. When I get older I will some day. Get on my knees and to God I'll pray. To send to me my own lost mother, Who has thus cast me upon another HUN HUNSON

to learn of their happy union. Some time since S. L. Brooks sen quantity of rock from the Goldendale quartz mines to the chemical labratory

and assay office of J. R. Fisk in Portland for assay, and yesterday received the assayor's certificate, showing that not even a trace of gold or silver was found in either of the two assays made. Mr. Fisk, in a letter accompanying the certificate says: "I have made a very careful assay of your ore, also a thorough test by the cyanide process, and am unable to de-

tect the least trace of gold. The ore is not a good gold rock, it is tufa, composed largely of volcanic ash. I have made other assays from the same section of the country of similar ore, but it was very red with the oxide of iron, which had a very low per cent of gold, but it was of more permanent forms

April 6. Mr. E. Gralmund, of Mosier, is in the city today, having came to town by means of a sleigh. He says there is four inches of snow in that vicinity, and if the weather does not change soon there will be quite a loss of stock, as the farmers are out of feed.

Mr. Godfried Lahel arrived vesterday from Australia, and is visiting friends in this city. Mr. Lahel says outside of the wheat crop, which was a partial failure, the output from Australia will be good this year. The wool clip, he says will be up to the average. Mr. Lahel contemplates remaining in America for several months.

W. H. Hurlburt, general passenger agent of the O. R. & N. Co., returned Sunday from Chicago. In an interview with a Telegram reporter he says: "Considerable travel was reported to the Cripple Creek mining district. Smithsville, sometimes to Jenkinsville. This, it is believed, will give a great impetus to the mining interest throughout the entire northwest, and Oregon will get her share of the bene fits accuring. Many of the Cripple Creek enthusiasts will no doubt come to Oregon, and our mining interests especially in Eastern Oregon, will receive such a lift as they have not had for years. Were the resources of our mines as well advertised as those of room and doorkeepers with cards hunt | Colorado, there would probably be as much of an Oregon fever in the east as Groceries and Provisions, there now is a Cripple Creek fever."

THOROUGH INVESTIGATION REQUESTED.

A BOLD ASSERTION.

Ever since Prof. Koch startled the world by promising to cure consumption with the Koch lymph and his complete failure to do so, the people have been looking for some discovery which would prove an absolute, certain cure for that dread disease. Over a construction discovery which would prove an absolute, certain cure for that dread disease. Over a quarter of a century ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, put in a claim for a medicine, which he had discovered and used, in his extensive practice, that would cure ninety-eight per cent. of all cases of consumption when taken in all its early stages. Time has proved that his assertion was based on facts gained from experience. His "Golden Medical Discovery" has cured many thousand people in all parts of the was based on facts gained from experience. His "Golden Medical Discovery" has cured many thousand people in all parts of the world, and Dr. Pierce invites all interested to send to him for a free book which gives the names, addresses and photographs of many prominent people who have willingly testined to the marvelous curative properties of his "Golden Medical Discovery." He has also written a Rock of for pages of He has also written a Book of 160 pages on "Diseases of the Respiratory Organs," which treats of all Throat, Bronchial and Lung diseases, also Asthma and Catarrh, that will be mailed by the World's Dispensary Medical Association of Ruffale N.V. on receipt ical Association of Buffalo, N. Y., on receipt of six cents in stamps, to pay postage.

Consumption, as most everybody knows, is first manifested by feeble vitality, loss of strength, emaciation; then local symptoms soon develop, as cough difficult breathing, or bleeding from lungs, when investigation proves that tubercular deposits have formed in the lungs. It is earnestly advised that the "Discovery" be taken early and the latter stages of the disease can thereby be easily avoided.

To build up solid fiesh and strength after the grip, pneumonia, ("lung fever"), exhausting fevers, and other prostrating diseases, it has no equal. It does not make fat like cod liver oil and its nasty compounds, but, solid, wholesome flesh.
