ERIE, Colo., March 13.-If the coal war has been a boom to consumers, it has been death to miners, bringing a reduction of income, and bare subsistence in all cases, and destitution in not a few. It may result in actual disress in many families. The winter has not been a favorable one for coal miners. The weather has been mild and the demand corresponding light. Hence the miners earned small wages, not to exceed \$25 per month. Many have earned nearer \$10 to \$12 a month came the coal war, with the gradual drop in prices from \$4 a ton down by legrees to \$2 40. Now the mines have practically all shut down. Some of the large companies are owing their men from one to two months' pay. The merchants are not able to carry the burden, and already some have been forced to the wall. The outlook here is anything but bright, and while there is as yet no starvation, it is only a matter of a short time when there will be hungry men, women and chiliren unless a speedy turn in affairs is

This vast body of workers will necessarily be joined by as nany more, who are not members of the union, and who are in sympathy with them, and for whom there would be no work during the idleness of the cutters, trimmers and tailors.

The sentiment in favor of the strike was practically uranimous. At a meet ing of Cutters' and Trimmers' Union, No. 61, last night, the advisability of calling out members of that body was approvingly discussed. The general feeling was that in creating an absolute tie-up of clothing manufacture in Chicago lay the best chance for the garment-workers to win a battle which they look upon as one involving the existence of their own order.
