Wakefield, The Dalles. Frank B. Clopton, of Pendleton, has received a telegram from Harold Sorby, of Chicago, who has been experimenting with the use of virus in inoculating Umatilla county squirrels sent to Chicago for the purpose. Mr. Sorby writes that the virus is harmless to human beings and to all animals excepting rodents, pigeons, poultry and ducks. It is not anthrax virus. This was in answer to an inquiry as to the possibility of the virus producing disease among human beings, as well as For Congressman, Second District, among ground squirrels, as feared by some.
