Moscow, May 31 .- The di-aster on the Hodynsky plain yesterday is cons'antly gaining in proport on, as the investigation by the authorities con- easly Drug C inues. These are made under difficulties, as the recovery of the victims was conducted by hum re is of volunteers, and many were carried away before they were enumerated. Many additional deaths of the injured ar occuring, which are only added to th enumeration after some time.

It is said now the fatalities wil mount to between 2000 and 3000, bu t is impossible as yet to learn exactly the extent of the disaster. The official statement this morning places the lead recovered at 1336, and the seri iously or fatally injured at 286. But n contrast with this official statemen ment, there are 1282 corpres lying this afternoon at the cemetary, besides the many dead and dying that are known to have been removed from the ill

fated field by friends. Last evening, after receiving depotations, the czar and ezarina attended and danced at the brilliant ball at the French embassy. Preparations had been made on a most elaborate scale for this ball, and it is asserted that \$70,000 were expended on the supper alone, rare viands and delicious fruits and vegetables being brought from the most distant climes to add to the delights of the feast, while France furnished the costile-t and most elegant fabries and furniture to set off the beauties of the palace where the embassy is lodged.
