There is a large quantity of wood on saws in port, Messrs. Maier and Benton say that now is the time to order your winter's wood as they are afraid to pile it on the beach, and yet would be more than glad to unload some more, it would pay you to take advantage of the situation.

The river at this point was up to 33 feet this morning with the news from up the river points that the Snake at Lewiston had risen one foot in the past twenty-four hours, it is now thought that all danger of an extraordinary rise for this season is over, although more than average high water may be expected.

The Woodmen of the World presented Judge John Filloon with a silk hat yesterday evening. Dr. Eschman in a neat little speech, making the presentation for the lodge. The judge tried it on, but has concluded that it would be more becoming with a full regalia of judicial ermine, than with his everyday clothes and in consequence has laid the hat away, buttoned side down, for the present.

Invitations have been sent to neighboring camps by the Woodmen of this city to be present next Sunday at the unveiling of the monument of neighbor Thomas N. Jones, deceased, in Sunset Cemetery, it is hoped that a large number of choppers will be in attendance. The ceremonies attending the unveiling of a Woodman's monument are very impressive and beautiful, and a large crowd will doubtless be present.

Steel wagon roads bid fair to have a thorough trial in several states this year. The claim is made that such a road would last much longer than stone, and that one horse will draw on a steel track twenty times as much as on a dirt track and five times as much as on macadam. These roads consist of two rails made of steel the thickness of a boiler plate, each formed in the shape of a gutter five inches wide, with a square perpendicular shoulder half an inch high, the angle of one inch forward, slightly raised. The gutter forms a ditch for the water and makes it easy for the wheels to enter or leave the road without stone, and that one horse will draw a double-track steel railroad, 100 feet wide, filled in between with broken stone, macadam road of the same width, but the cost of a rural one-track steel road would be only about \$2,000 a mile.
