Times-Mountaineer.

SATURDAY..........JULY 25, 1896

Notice Farmers

We are now prepared to put out . . . .

WHEAT SACKS

Get your orders in early and save money. . .

Wasco Warehouse Co.

ITEMS IN BRIEF.

From Wednesday's Daily.

W. H. Wilson returned today to the seacoast.

H. W. Varwig went to Portland on the 2:30 train.

Mr. and Mrs. N. R. Baird, of Antelope, are in the city.

Messrs. L. Rice and J. W. Barnes are in the city today.

D. McRae, a prominent sheepman of Antelope, is in the city.

Herrick's cannery has 15 tons of canned salmon ready for shipment.

Oscar Groenow, vice-president of Gambrinus Brewing Co., of Portland, is in the city today.

The hand baler at Moody's warehouse is kept busy every day preparing wool for shipment.

Mrs. B. T. Conroy, accompanied by her mother, Mrs. S. Horton, arrived on the local from Portland today.

A party of 14 San Francisco tourists arrived by the Regulator last night. and have devoted the day to viewing The Dalles.

F. W. Silvertooth left last night for Rossland, B. C., where he will engage in business, having leased a large hotel in that place.

Mrs Ed Boynton, night operator in the Seufert & Condon telephone office, is spending her vacation visiting her parents near Dufur.

Walter and Charlie VanDuyn, accompanied by their cousin Frank, of Portland, have hied away to White Salmon for a month's outing.

T. A. Hudson arrived on today's local from Seaside, where his family is spending the summer. He goes tonight to Union to adjust a fire loss.

There are 300 bales, or about 360,000 pounds of wool at the D. P. & A. N. dock awaiting shipment as soon as through connection can be made with Portland.

Yesterday Gov. Lord appointed Samuel Hughes, of Forest Grove, a member of the board of regents of the state agricultural college, vice H. B. Miller, resigned.

The remains of Ed Martin, who died at Ontario Monday night, will be taken to Portland tonight to be embalmed. and from there will be taken to San Francisco for interment.

This has been the pleasantest day since the 22nd of June, the mercury being lower than at any time since that date. Evidently the long hot spell has come to an end.

Representative Barklay, of Salem, one of the most prominent free silver republicans of the state, was on the west-bound overland when it passed through The Dalles today.

Last night Fargher Bros. shipped a train load, twelve cars, of sheep to Chicago. Walter Fargher went with them to look after the shipping and sale of the sheep after they shall reach Chicago.

The Dalles has a good-sized colony at almost every summer resort in the state. All those who can leave their business for a time have sought recreation either at the seaside or in the mountains.

Marshal Blakeney did some excellent work with a gang of hoboes yesterday. He had them clearing up the rubbish that had accumulated in the streets in the residence part of the city, thus adding materially to the appearance thereof.

The west-bound overland, due here at 4 o'clock this morning. was detained eight hours by sand accumulating on the track at Umatilla. The train arrived here at 12:05 and after stopping long enough for the passengers to get dinner, pulled out for Portland.

There is no more hospitable person in Wasco county than the venerable John Brookhouse. He enjoys having his friends around him at his residence near Dufur, and is seriously contemplating putting on a line of stages between here and Dufur to accommodate his friends.

A large number of harvest hands arrive on every boat from Willamette valley, and so far all have found employment with the farmers of this county. There appears to be plenty of work in the harvest fields and those who are seeking employment can find it with the farmers.

Tyge Ridge appears to have suffered less from the effects of the hot weather than any other part of the county. John Brookhouse, who was in the city last night, said very little damage had been done to growing crops on the ridge, and as a rule the yield will be up to the average in that section.

According to the bulletin issued from the weather bureau yesterday the grain crops throughout the state are not up to the average, and in places are reported the poorest ever known in the state. The fruit crop is generally about up to the average. Apples will be the heaviest yield of any of the fruits.

The Regulator will leave at 8:30 tomorrow evening for an excursion of three hours on the river. The excursion is to be given by the concert band, and fine music will be discoursed during the trip. There will be no tickets placed on sale, but collections will be made as parties go on board the boat.

The question of establishing a branch asylum at Union is again before the state supreme court, a suit restraining the state treasurer from paying a warrant for $25,000 issued in payment of the site selected by the state having come up from the third district and was argued before the supreme court yesterday.

December and May were united in marriage the other day at Woodburn, but the usual order of a blushing maiden becoming an old man's darling was reversed. In this instance it was an incipient youth who became an old lady's pet. The contracting parties were John Bertschinger, aged 21, and Elizabeth Wemer, aged 55 years.

There are some splendid specimens of Oregon pine at the Regulator dock. They are from Mr. Rowe's mill at the mouth of Klickitat, and are prettier than any samples of curly maple ever seen. The grain runs in beautiful curves through the wood, giving an effect which no painter could possibly imitate. The lumber is to be used in inside finishing in Mr. Rowe's new residence which is under construction on the bluff.

From Thursday's Daily.

Remember the lawn party at Mrs. G. C. Bell's tomorrow evening.

Mr. and Mrs. J. S. McMeen, of Crook county, are visiting in the city today.

Mrs. Capt Waud visited the locks today, going down on the Regulator this morning.

A. A. Bonney was a passenger on the Regulator this morning, going to Cascade Locks.

Work was commenced today on the cement walk to be laid around the French bank.

Mrs. M. E. Briggs left this morning for Chehalis, Wash., where she will spend a few weeks visiting her parents.

Mr. and Mrs. L. E. Crowe left on the 2:30 train for Portland, where they will spend a few days visiting friends and relatives.

Mrs. S. L. Brooks went to White Salmon today to meet her friends, Mr and Mrs. Joslin, of Colorado, who are visiting at that place.

Mrs. T. F. Wood left this morning for Newport accompanied by her little son. She will remain on the sea coast during the remainder of the summer.

Miss Omah Smith, one of Wasco county's most successful teachers, left this morning for Independende to spend her vacation with relatives in that city.

About all the salmon that have been taken from the river the past few days have been steelheads. The main run of chinook seems to have got beyond this point while the wheels were not running.

Hon. H. T. Hill, of Prineville, arrived in The Dalles today. He says the hot weather has had a decidedly bad effect upon the grain crop in Crook county, but the yield of hay has been up to the average.

Mr. and Mrs. J. W. Condon were passengers on the afternoon train for Portland. From there Mrs. Condon goes to Clatsop Beach, while Mr. Condon will remain in the metropolis a few days looking after business interests.

Yesterday at Salem ex-county clerk William Egan was arrested on a warrant sworn out by P. M. Massey charging him with assault with a dangerous weapon. The parties engaged in an altrication over the alleged slander of Egan's sister.

Mrs. Trueman Butler and Misses Nellie, Pearl, Jessie and Carrie Butler started to Portland this morning. They go for a few day's visit to the metropolis and to see the government cruiser Philadelphia, which is in that port.

Today the Regulator accepted 15 tons of through freight, it being canned salmon from Herrick's cannery. Although the portage road is not yet in operation, the company is prepared to transfer a limited amount of freight around the portage by wagons.

Fern Lodge, No. 25, D. of H, gave a pleasant surprise last night to the delegates who attended the recent session of the grand lodge at Portland. An interesting program, including the reading of the Fern Leaf, edited by Mrs. D. C. Herrin, was rendered, after which ice cream and cake were served.

W. A. Mansfield, secretary of the Oregon Fruit Union, informs the Oregonian that the fruit crop of the state this year will not exceed 200 car loads, whereas early estimates fixed it at 800 car loads. He finds the fruit crop in Wasco county better than in any other part of the state.

Out of about 60 head of horses that have been offered to Wm. Frazier, who is buying for the U. S. cavalry, since he has been in the city, only five have been selected. Very few of the animals offered fill the requirements of first class cavalry horses, since to fill the bill they must be solid color, sound in every respect, good travelers, and gentle, combined qualifications that are not generally found in the average bunchgrass broncho. The average price for the horses bought so far has been $50.

It is yet too early to form any correct estimate of the damage done to wheat crops in Wasco county by the recent hot weather, still it is evident that growing crops have not been nearly so badly damaged as was feared for a time. Considerable of the early wheat has been shriveled, but farmers in some parts of the county say they will have some first grade wheat, and their yield will be up to the average. Those who are well informed estimate that there will be at least two-thirds an average crop harvested in the entire county.

W. L. Weatherred, agent of the Goodell Fruit Line, was in the city yesterday, just having returned from an extended tour through Eastern Washington, Idaho and Montana. Mr. Weatherred said the condition of crops in the sections he had visited was not flattering, wheat having been more or less damaged by the hot weather. As to politics, Mr. Weatherred said in all sections where he had been since the Chicago convention, he could hear little except Bryan and free silver. He thinks Bryan will make a clean sweep of Oregon, Washington, Idaho and Montana.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do, you have indigestion, which means not digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps digestion and cures indigestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rational of its method of cure, as the doctors would say. Sold by druggists, price 10 cents to $1.00 per bottle.

From Friday's Daily.

Last night Leon Curtis, of Rockland, shipped a car load of beef to Troutdale.

Charles Butler, the beef buyer, returned on the afternoon train to Portland.

Mr. and Mrs. Richard Brookhouse, of Ten-Mile, are visiting friends and relatives in the city.

Fred Pundt returned this morning from a visit to Seattle. He reports business very quiet on the Sound.

T. A. Hudson returned on the morning train from Union, where he had been adjusting a fire loss on farm property.

The officers of the cruiser Philedelphia chartered the Steamer Dalles City for an excursion from Portland to Cascade Locks today.

Miss Charlotte Roberts left on the 2:30 train for Portland. From there she goes to the sea coast to spend the remainder of the summer.

Two Indians were graduated from the training school at Salem yesterday. The diplomas were awarded by State Superintendent Irwin.

The variety store belonging to S. E Rinehart at Island City was burglarized Wednesday night, and a quantity of light goods was stolen.

This morning Messrs. R. E. Saltmarshe, Ralph Gibons and Frank Conley hied away to the head waters of Mill creek for a week's fishing.

Mayor L. O. Edwards and family, of Arlington, were in the city last evening en route to Cascade springs, where they will spend the summer camping.

Attorneys E. B. Dufur and H. H. Riddell left at an early hour this morning for the big meadows on the head of Hood river for a few days' outing.

Gesang Verein, of this city, will attend the Turn Verein anniversary at Portland on Oct. 15, and the members of the quartett have begun preparing music for the occasion.

As fine a lot of beef as has ever been seen in this section is in R. E. Saltmarshe & Co's. stock yards today. They belong to Wood Bros. and will be shipped to Troutdale tonight.

The prospects are favorable that the populist national convention will indorse Bryan, but the middle-of-the-roaders will insist on the nomination of Mimms, of Tennessee, for vice president.

John Foster, a young man raised in this city, but who has been away for the past nine years, arrived here last night from Vancouver, where he has been engaged as a compositor on the Columbian.

The teachers attending the normal institute will give an excursion to Cascade Locks and return tomorrow. Round-trip tickets 50 cents. The excursion will leave here at the usual hour, 8 A. M.

Messrs. Otto and John Yaisle, of Cross Keys, were in the city several days this week. John left this morning for his old home in Switzerland, while Otto returned to their farm in Crook county.

The Huntington building, a one-story brick with three store rooms, was burned at La Grande yesterday morning. The building was a total wreck, and the loss on the building and the stock in the three stores is estimated at $12,500.

It is not often that there is a sunstroke to record in Oregon, but last week George Mulkey, while haying in Blodgett's valley, Benton county suffered a stroke which resulted in the paralysis of his entire right side. He will doubtless recover.

Rev. L. Gray returned last evening from Oregon City. Mrs. Gray is quite ill in that city, but is convalescent. Rev. Gray will hold Lutheran services next Sunday in the First Baptist church as follows: At 9:30 A. M. and 3 P. M. sermons in English.

Mr. and Mrs. Louie Davenport, of Mosier, were visiting their daughter, Mrs. Gunning, in this city last evening, and returned home by the morning train. Mr. Davenport says Mosier farmers have suffered but little loss by the hot weather, and crops in that section will generally be up to the average.

"Grandpa" McCabe met with a serious accident at his home on Eight-Mile yesterday. He was standing on a box making some repairs to a chicken house when he fell, injuring his spine and right hip. Mr. McCabe is 81 years old, and on account of his extreme age, his physician, Dr. O. C. Hollister, fears his recovery is uncertain.

The promptness with which the A. O. U. W. meets its death losses is very satisfactory to the members of the order and to the beneficiaries of the deceased. On June 15, B. T. Conroy, a member of Temple Lodge, No. 3, was killed by a railroad accident near this city, and yesterday the lodge delivered to his widow a check for $2,000, the amount of his insurance.

Some of the prominent residents of this city, who got lost recently while endeavoring to find the headwaters of Fifteen-Mile and had to discommode a lady by causing her to travel several miles in order to put them on the right road, are ardent advocates of the enforcement of the law requiring road supervisors to put up sign boards at the intersection of roads.

The excursion given by the concert band last evening was a perfect success. The evening was perfect, there being no wind to ripple the placid bosom of the Columbia, and the Regulator seemed like a fairy palace floating down the river with its 200 passengers, while the band discoursed excellent music both going and returning. The boat left here at 8:15, went as far as Memaloose Island, and returned at 11 o'clock.

From four miles above town into The Dalles appearances intimate a suberb of Chicago. Besides being the handsomest city in the Inland Empire, with such handsome structures as the Williams and Vogt blocks, The Dalles proper may shortly become the liveliest metropolis of the Pacific Northwest. Why not? she has local pride and energy—and no place on the whole coast has half as good a country to back it.—Moro Observer.

At The Institute.

Thursday afternoon the subject, "What books should teachers in the primary grade and the teachers in the mixed school read?" was considered. Many books were named, and a list will be placed upon the board for the reference of the teachers. Mr Hugh Gourley was with the teachers during the discussion, and gave them valuable suggestions as to useful reading. The teachers are getting much good from the discussion work. The composition class reviewed the two weeks' work this morning and but three questions were missed. The improvement in writing is noted by the instructors, and with two weeks more of work the teachers should be able to pass very creditable examinations in the several studies pursued during the institute.

Notice to Water Consumers.

You are hereby notified that the irrigating rules will be strictly enforced from now on. If you wake up and find the water shut off, don't kick at me, as I have got to enforce the law to protect your property. I. J. NORMAN,
Sup't.

Dr. Price's Cream Baking Powder
Awarded Gold Medal Midwinter Fair, San Francisco.

THE PROPOSED FREE ROAD.

Practical Route Viewed Out Across Deschutes Leading to Prineville.

County Surveyor Goit has returned from making a preliminary survey of the proposed free road leading from Dufur across Deschutes and on to the Crook county line. The main obstacle to be overcome on this route is getting across Deschutes canyon, and by Mr. Goit's survey it is demonstrated that this will be no difficult matter. The point of crossing Deschutes is at the old Maupin ferry, six miles above the mouth of White river, and this can be reached by easy grades on either side. The grade that will have to be built to reach the river from the west is only three miles while that from the east is but two, and the heaviest rise will be but little over a foot to the rod. There is little rock on the proposed route on either side of the river, so most of the grades can be made with plows and the road machines which the county owns.

The heaviest expense will be the construction of a bridge across the river, but Mr. Goit estimates the entire cost of the road and bridge will not be more than $3,500. What portion of this sum the county court will be asked to contribute is not yet determined, but the amount will be comparatively light, since it is expected that the people of Prineville will contribute liberally, as the route will give them a free road to market, besides the people about Dufur are very much interested in the building of the road, and will do their share, while the business men of The Dalles will also contribute something.

From the top of the hill on the east side of the Deschutes to the Crook county line the route passes over a comparatively level country, and the cost of building the road through that section will be nominal.

Messrs. J. W. Howard and D. F. Stewart, two prominent Prineville merchants, had an interview with Mr. Goit Tuesday with reference to the proposed new road, and were very favorably impressed with the idea, since it will shorten the route between The Dalles and Prineville, and will avoid the paying of two tolls by the Prineville freighters, which is an annual expense of nearly $10,000.

IT KILLS THE HOPPERS.

Successful Experiments With the Poisoned Bran Grasshopper Exterminator.

This season grasshoppers have been making serious inroads in Dr. Sander's orchard on Three-Mile, and the doctor has been experimenting with the bran, arsenic and sugar remedy recommended by the department of agriculture, meeting with good success. Yesterday Messrs. E. Schanno and E. K. Russell visited Dr. Sander's orchard to witness the effect the poison was having on the hoppers, and found on the ground where it had been put out, thousands of dead insects. They had eaten the bran freely, and every one that had eaten appeared to have died.

The poison had been distributed in small quantities about the roots of the fruit trees, and as the hoppers have a keen appetite for bran they took to it readily. It was noticeable that the number of grasshoppers in the orchard had been materially decreased since the poison was put out, those that had not been killed, apparently having become alarmed at the fate of their fellows and migrated.

Messrs. Robert Cooper and Samuel Creighton have also been experimenting with the poison in their orchards, and have met with good success.

Mr. Schanno suggests that the remedy be applied in all orchards where hoppers are numerous, believing it will soon destroy the pest. He advises that a teaspoonful be placed on a chip or piece of pasteboard at the root of each tree. Care should be taken however to keep poultry and stock out of the orchards where the remedy is being used, for arsenic is a powerful poison, very little of it being required to cause the death of either fowls or animals.

AN OBJECT LESSON.

Mexico Is Prosperous in Spite of Her Silver Basis.

The republic of Mexico is being pointed to by the republican press as a country of degredation, poverty and distress, where there is no thrift or enterprise, where poverty predominates and investments are uncertain, all on account of the money of the country being based on silver. However some people who visit that country find a different state of affairs existing to what is depicted in some of the partisan journals. W. H. Sebastian, general manager for W. J. Brandenstein & Co., tea importers of San Francisco, recently returned to Los Angeles from an extended trip through Mexico, and one result of his trip was to convert him from an ardent gold man to an advocate of silver. In connection with his change of mind on financial matters, he said:

"When I went out on this trip I was a full-fledged gold bug, but have returned a free silver man. I found Mexico one of the most prosperous countries in the world. Old adobes that have stood for 100 years and over are being torn down and in their places are being erected magnificent business blocks. They are doing little if any trade with Europe for the reason that they are manufacturing everything they need. The only things you can sell them is teas, matting and Japan silks, and in a short time they will be manufacturing the two latter articles.

"Eastern capital is being invested in Mexico with good results. I found several Eastern capitalists who also went to Mexico as gold bugs but changed their opinion as to free silver. Why, free silver I consider one of the best protection arguments that can be brought out. If free silver has done so much for Mexico, which it undoubtedly has, it is good enough for this country. I could relate numerous incidents of Mexico's progress during the past four years that would surprise the American people. In one city alone during the past four years there have been fifteen factories built and they are doubling their dividends every year. The Mexican Central is making more money than any railroad in the United States of its size."

Will Handle Freight Anyway.

Although the portage road at Cascades cannot be operated at present, and possibly will not be for some time, the D. P. & A. N. Co. will begin handling through freight in spite of adverse circumstances. Arrangements have been made to transfer freight around the portage on the Oregon side by wagon. This will be quite an inconvenience to the company, as the boat landings are about one mile apart, nevertheless the managers of the D. H. & A. N. line do not propose to be baffled by so small a thing as not being able to transfer freight over the portage by railroad, and they will continue to receive freight and do business "at the same old stand," corner First and Court streets.

Stock Shipped From Pendleton.

T. A. Rhea, of Heppner, cattle dealer, who has been buying up cattle for B. F. Saunders, of Salt Lake, arrived in Pendleton Tuesday night with 400 head of cows and calves, 200 each. They were loaded on the cars Wednesday and started for Salt Lake over the Northern Pacific.

Tuesday Mr. Rhea loaded 10 cars of two and three-year old steers at Umatilla, for Montana. All the cattle were purchased in Gilliam, Morrow and Grant counties, collected at Heppner and driven to Pendleton. Mr. Rhea has a contract to deliver within the next forty days 1,000 head of beef cattle to the Union Meat Company, of Portland. These cattle will be shipped from Heppner and Arlington.

The average price received for those shipped east Tuesday and Wednesday was about $16 50 per head.

Strattan-Helm Nuptuals.

At the residence of her parents, Mr. and Mrs. W. F. Helm, in this city, at 9 o'clock last evening, Miss Marie Helm and Prof. M. N. Strattan were united in the holy bonds of wedlock, Rev. W. C. Curtis, pastor of the Congregational church, officiating. The wedding was a quiet one, only a few immediate friends of the family being present. The contracting parties are well and favorably known in this city, Miss Helm having resided here for many years, and Prof. Strattan having been first assistant in the Dalles high school the past two years.

Mr. and Mrs. Strattan left on the morning train for Clatsop Beach, where they will remain two weeks, after which they will permanently locate in Portland.

An Old Man Murdered.

One of the most cold-blooded murders in the history of Riparia was committed Saturday afternoon by Jas. D. Lawrence, a passenger en route from Walla Walla to Lewiston, Idaho, Jacob Malquist, an old steamboat man, but who, for the past dozen years, has been conducting the Steamboat saloon at Riparia, being the victim. The murderer took to the hills, but was followed by a posse and captured about two miles from town.

There could have been no motive for the crime, unless it was to rob the old man, as it is thought he had considerable money on hand. The deceased was more than 86 years old.

Good Doctrine for Democrats.

When Senator Thurston, who presided over the St. Louis convention, was taken to task for disagreeing with his party on the financial plank in the platform he said: "A party platform is not expected to necessarily meet the individual views of every member of the party. I believe in the rule of the majority, and I should not think of deserting my party because one of its planks was not exactly in accord with my personal views which I have heretofore held."

If that is good doctrine for the chairman of the republican national convention why is it not good for the democrats who differ with the Chicago platform?

The Institute.

The sober, earnest work still goes on at the institute. True, one of the instructors forgot to go to his class the other day, but the teachers readily forgave him, as he promised them ice cream if they wouldn't tell on him. Of course every teacher kept the secret. Then Supt. Gilbert, really was the first one to break a new rule of the institute, and one or two (we have forgotten which) of the teachers was found hanging on the gate! Don't tell any one, but a young lady teacher told us all about it. But one thing is remarked by all, not a teacher has been seen chewing gum. We conclude that Wasco Co. teachers do not chew gum.

QUERY.

THE DALLES, July 22, 1896.

Editor TIMES-MOUNTAINEER:

I see in the county court proceedings, published in your paper during the week, an item of $373.53 in favor of Geo. D. Barnard & Co., St. Louis. What this bill was for I do not know; but I would like to know whether it is sound protection principles to send money to St. Louis or other eastern cities for work that could be done at The Dalles or in Oregon? Has it not been the bane of Oregon in the past that too much money has been sent out of the state for articles that could be manufactured or purchased at home? PROTECTIONIST.

Injured in the Mountains.

Last Wednesday Emil Hechtler, who was herding sheep in the vicinity of Mt. Adams, started from his camp on horseback to a spring a mile and a half away after water, and while crossing a log his horse became entangled in the brush and threw the rider to the ground, breaking his right foot Mr. Hechtler managed to get hold of the horse again, and get out of the mountains. He came up on last night's train and had the fracture reduced by Dr. Hollister. He is at present at Skibbe's hotel, and is getting along as well as could be expected.

Land Transfers.

Lane M. Smith and wife to Lewis Albrecht, lot 1, block 2 in town of Centralia, $21.

Frank Price and wife to S. A. Diel, w½ nw¼, sw¼ sec 13, t 2 n, range 9 e. $250.

S A Diel and husband to E A Covel, sw¼ nw¼ sw¼ sec 13, t2, n r 9 e. $100.

John Phares and wife to A J Hendry n½ nw¼ sec 16, t 1 n, r 13 e, $123.

Herbert B Meeker and wife to Alexander J Hendry and wife 80 acres in nw¼ sec 6, t 1 n, r 13e, $800.

At the Institute.

The cool weather is greatly appreciated by the teachers in the institute. The interest in the work is increasing from day to day, and doubtless the month's teaching will raise the standard of education work in the county. The following teachers entered the school this morning: J. M. O'Brien, R. D. O'Brien and R. D. Butler, of Dufur. Mr. Hostetler visited the institute during the sessions today.

Cure For Headache.

As a remedy for all forms of headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreadful habitual sick headaches yield to its influence. We urge all who are afflicted to procure a bottle, and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Fifty cents and $1 at Blakeley & Houghton's Drug Store.

CLAIMS ALLOWED.

Following is a list of the claims against Wasco county allowed by the July, 1896, term of county court.

Resolution of Condolence

WHEREAS, It has pleased an all wise Providence to remove from our midst, our esteemed sister, Cassie Wiley-Hill, and

WHEREAS, This Degree of Honor wishes to convey to those to whom she was near and dear that their loss is our loss, be it therefore

Resolved, That we take this measure to express to her parents, husband, family and friends our sincere sympathy in this their bereavement and be it

Resolved, That we extend to them through these resolutions our regret as true brothers and sisters;

Resolved, That a copy of these resolutions be sent to the family and that they be spread upon the minutes.

MRS. M. E. BRIGGS,
MRS. M. E. HERRIN,
MRS. B. J RUSSELL.
Committee.
