

Times-Mountain.

SATURDAY...SEPTEMBER 12, 1896

ITEMS IN BRIEF.

From Wednesday's Daily.

Joe Folco went to Cascade Locks today.

Mrs. McNulty returned to her home near Mosier this morning.

Miss Cora Jones and Lizzie Schoning returned home from Portland last night.

Mrs. J. M. Filloon went to Multnomah falls today and will return tomorrow.

Mrs. Wm. Mitchell and daughter, Miss Rose, returned last night from the coast.

D. P. Ketchum went to Stevenson this morning to receive a flock of nuttall sheep.

A nickel-plated fountain pen was found on the streets yesterday and left at this office for the owner.

J. L. Harper has returned from Antelope where he has been engaged at carpenter work the past two months.

Mrs. I. M. Hork and family arrived yesterday from Prineville and left last night for their former home in Hillsboro.

Mr. and Mrs. MacAllister were passengers on the Regulator this morning. They go to Portland for a few days visit.

Hon. W. H. Wilson left this afternoon for Ilwaco. He will return Friday accompanied by Mrs. Wilson and daughter.

No. 1 wheat is selling at 41 cents a bushel in The Dalles today, one cent lower than the same grade is bringing in Salem.

Messrs. John Unger, A. A. Barry and Joe Desco, of Lytle, were in the city last night and returned home on the Regulator this morning.

C. A. Sanford and family have returned from their summer outing, and Mr. S. has taken a former position in A. M. Williams & Co.'s store.

Pete Stadlerman, manager of the Commission Co., went to Mosier this morning to attend to the shipping of a quantity of fruit from that point.

J. S. Messenger, of Erskinville, is in the city today. Mr. Messenger says Sherman county will roll up a handsome majority for Bryan this fall.

Phil Deegan, who recently visited his stock farm beyond Antelope, says the recent rains started the grass growing nicely on the hills in that section, and fall feed for sheep will be good.

A party consisting of Mrs. E. B. Coman and two daughters and Mrs. A. B. Morse and two sons, came up on the Regulator this afternoon from Portland and returned home today.

Jack White, a former engineer on the O. R. N., arrived in the city this morning from St. Paul, Minnesota. He will visit friends in the city for a few days and continue his journey to San Francisco.

Messrs. C. S. Van Duyn and C. I. Hood, our second hand furniture dealers, returned last night from Portland where they bought largely of goods in their lines.

The many friends of Rev. J. H. Wood will be pleased to learn that the Methodist conference has returned him to the pastorate of the church in this city. Mr. Wood arrived home from North Yakima this morning.

O. P. Perry, of the firm of Perry Bros., whose sawmill near Lytle was burned some three weeks ago, was in the city last night, and left today for Portland to purchase new machinery for the mill which has been rebuilt.

A good audience greeted Prof. Ben Dillon at Baldwin's opera house last night to hear his first lecture on "Human Nature." All pronounced the gentleman a decided success as an entertaining speaker and his public examinations were sure hits. Subject tonight at 8 p. m. "Animality of Man." Admission free.

It is a little rumour around the East End today, however some business is being done at the washery and stock yards. Partridge Bros. shipped 10 cars of hams to Chicago, C. M. Grimes got three cars of beef to Troutdale for the Union Meat Co., and the warehouses received some ten or a dozen loads of wheat.

By a vote of the school board of Portland yesterday, Miss Nellie Butler, of this city, who taught in the Holladay school last year, was promoted to a position in the Harrison school. Miss Butler is an accomplished and progressive educator, and the promotion was an acknowledgment of her ability and thoroughness.

It is a pleasure to announce that the Sunday afternoon concert will be continued during the remainder of the month, Mark Long having been elected director of the band for the present. In the mean time the members of the band will endeavor to supply the services of a leader who is both a competent player and violinist.

The enterprising firm of Johnston Bros., who had their store and entire stock of goods at Dufur burned a short time since, have reopened in the Brigham building where they will continue business until next spring, when they will erect a large fireproof building. The Johnston boys have a quality of enterprise that cannot be doubted even by fire.

The report of Superintendent Paino of the state insane asylum for the month ending August 31, shows 1090 patients confined in the asylum at that date. During the month 43 patients were received, 18 discharged, four died and one escaped. There were 124 officers and employes engaged in the institution during the month, and the aggregate pay-roll was \$4963.

For a number of days past Mrs. Brown has been borrowing a whole lot of trouble over an alleged attempt on the part of certain parties to alienate the affections of her husband, and she has been giving the officers of the law no small amount of annoyance. But yesterday her troubles all came to an end. The big hearted John Parrott assumed the role of peace-maker and smoothed out all her supposed wrongs.

The case of the state vs. Hans Miller, tried in Justice Filloon's court yesterday, was dismissed. He was arrested on a charge of obtaining money on false pretenses, in having given F. W. L. Skibbe an order on Carl Preetz, and afterwards having drawn all money due him from Mr. Preetz. The evidence showed that at the time the order was given there was a balance due Miller, and it was held by the court that there was no violation of law.

Just before noon today Wm. Drummond's team made things lively in various and sundry parts of town. Mr. Drummond had just finished unloading

of hay on 10th street when some boys chipped to the horses and away they went down the cut on Union street. At the Gates' building the wagon knocked two posts out from under the corner awning and hung up on a post in front of the Oregon market. There the wagon stopped, but the horses kept on running until one fell in front of Williams' store. No damage was done except to the awning and the hay rack, which was a complete wreck.

From Thursday's Daily.

Miss Anderson went to Portland this morning.

Prof. Hill went to Portland on the 2:30 train.

W. C. Allaway went to Portland this morning.

A. L. Roberts went to Cascade Locks this morning.

Billy Mansfield went to Hood River on the 2:30 train.

Deputy U. S. Marshall Humphrey was in the city this forenoon.

Frank Summers is seeking health and recreation at Cascade springs.

Mrs. Emma Jacobson returned home yesterday from a trip to Stevenson.

Tonight Herrick's cannery will ship a car load of canned salmon to New York.

Alex Thompson was a passenger on the Regulator this morning, going to Troutdale.

A. P. Jones and L. Henry were in the city today, and returned on the 2:30 train to Hood River.

C. L. Schmidt, a prominent business man of Cascade, spent yesterday in the city attending to business before the county court.

Otto Pieper, a former Dalles boy, now a resident of Starbuck, Wash., is spending a few days visiting friends and relatives in this city.

Tuesday morning there were three inches of snow at Helena, Mont., and all the Rocky mountain section was covered with snow yesterday morning.

Judge Sol Smith, wife and two daughters, of Goldendale, were in the city today en route to Portland, where Miss Alma goes to re-enter the university.

Since the first of the month the Oregon Fruit Union have shipped four cars of fruit from The Dalles, and will get two more cars out by the end of the week.

Murphy & Knox, of Salem, have been awarded the contract for doing the painting in the new dormitory being erected at the Warm Springs Indian agency.

Prof. J. M. C. Miller, who has been elected to the principalship of the Hood River public school, was in the city last night and left on the Regulator this morning.

The combine convention in Kilkenny county could have made no better selection for county surveyor than A. W. Mohr, of Rockland, who was the unanimous choice for that office.

Last night the Commission Co. shipped a car of prunes and plums from Mosier and one from The Dalles. Another car will be shipped from Mosier either tonight or tomorrow.

This morning one citizen asked another "why it was that he had ordered the portage at Cascades torn up?" The answer was "to keep the days from appropriating what is left off."

A sample of 21 Hungarian prunes raised in W. H. Taylor's orchard, was left at his office yesterday. They were simply beauties, all uniform size and color, and the flavor could not be surpassed.

This morning Misses Daisy Allaway, Julia Hill and May Sechler left for Eugene to enter the state university. All three of the young ladies are graduates from The Dalles high school, and are prepared to take up the collegiate course of the university.

Everything has been active on the river today, the fishermen getting their apparatus in readiness to begin fishing tonight and the canneries making preparations to handle the catch. The river is said to be full of salmon, and a phenomenal fall catch is expected.

Gus Brown, Joe Crate and George Monger are off for another winter's trapping expedition near Mt. Adams, where they will hide themselves away from the world until next spring.

They spent last winter in the same place in the mountains and were quite successful in trapping fur animals.

At the stock yards are 20 thoroughbred Merino rams from Chas. Durbin's place at Antelope. They will be shipped to Idaho for distribution among the sheep raisers of that state.

Only a few years ago Oregon sheep raisers were importing thousands from the east, now they are able to supply growers in other states.

Today the county court went out to the forks of Mill creek to examine a piece of road for which the citizens of that section ask aid to build. After examining the ground over which the road is to be built and calculating the expense, the court determined the expenditure would be too great for the benefit to be derived.

N. Whealdon arrived home this morning from Spokane. Mr. Whealdon says business appears to be fair in Spokane; he noticed very few vacant business houses, and heard a general demand for real estate property. From his appearances, he judges Spokane to be one of the most thriving cities in the Northwest.

J. E. Cass, secretary of the Washington state board of horticulture, calls attention to the great danger to fruit interests from the landing of new fruit pests from the Orient. He says shippers and fruit-raisers cannot be too careful in this regard, for the scale and other pests of the Orient are far more destructive to trees and fruit than the scales of more temperate zones.

Today Sheriff Driver was deputized by U. S. Marshal Grady to serve summons in the case of the United States vs. W. H. O'Dell, Chas. B. Donn, E. A. Griffin, Thos. Harris, Wm. Wiley, John Karlin, Wm. Gilhouse, Wm. E. Hunt and Alex. Thomson. They are summoned to appear in the U. S. circuit court and show cause why they should not be permanently enjoined from herding stock on the Cascade timber reserve.

From Friday's Daily

County court adjourned at noon today.

Mr. and Mrs. C. B. Durbin and son, of Antelope, are visiting in the city.

Hon. W. H. Wilson and family arrived home on today's local from Ilwaco.

Prices right and goods satisfactory at Johnston's. Remember the place, next door to A. M. Williams & Co's.

River today to spend a few days visiting in that city.

Hon. B. F. Allen, of Prineville, and J. P. VanHouten, of Gray Creek, are in the city today.

Mrs. W. H. Van Bibber and Miss Katie Lamb went to Lyle this morning for a day's visit.

Mrs. Sutford, who has been visiting with Mrs. G. H. Riddell, returned to Portland this morning.

D. W. Claypool, a prominent farmer and stock-raiser of Crook county, is in the city today buying supplies.

Tomorrow John Karlin will ship 13 cars of sheep to Chicago and on Monday Smith and O'Leary will ship 18 cars.

W. T. Shaw and wife, of Dallas, are in the city en route to Burat Ranch to visit Mrs. Salmanson, Mrs. Shaw's mother.

Mrs. John Mitchell and daughter returned home last evening from Portland where they have been visiting the past week.

Miss Freda Hatch returned this morning to her home in Portland. She has been visiting Mr. and Mrs. O. L. Barrett in the city.

D. W. Dufur and W. H. Staats, of Dufur, are in the city. They report harvest over in the vicinity of Dufur, and farmers busy bringing their grain to market.

This morning the Regulator went down to Lytle and got 600 head of sheep which were brought to The Dalles and shipped to Troutdale by D. P. Ketchum.

Prof. Birgfeld came up last night from his summer camp at Gear Lake, and knowing the editor's weakness, supplied him with a choice mess of mousetraps.

L. E. Farington left this morning for Eugene to enter the state university. This is Mr. Farrington's sixth year in the university and he will complete his course of study this year.

Still the wool from the interior seeks storage in The Dalles. W. C. Buick and J. K. Horning arrived last evening with 48 sacks from Sumner Lake, in Lake county, 200 miles south of this place.

G. Siebold, of St. Louis, Mo., who has been visiting his old school-fellow, Judge G. A. Lieb, in this city, left on the 2:30 train for below. He will visit California before returning home.

Today Geo. Luckey, Ed Montgomery and Louie Vroloh delivered 238 head of Crook county beef cattle to T. K. Long, of Lytle. The cattle were loaded into ten cars and started on their eastern journey this afternoon.

Wheat is coming into The Dalles at the rate of about 100 wagon loads each day. Most of that coming from the Washington side is No. 1, while a considerable amount of the Wasco county wheat is more or less shriveled, and is graded as No. 2.

Yesterday Porter Bros. Co. sold in Chicago for The Dalles Commission Co. a car load of fruit shipped from here on the 3d, at the following prices: Jewett's Hungarian prunes, \$1 per crate; Bennett's egg plums, \$1.25; Italian prunes, \$1.15. This is the best price ever received for such fruit.

At the meeting of the National Women's Relief Corps recently held in St. Paul, Mrs. Mary Scott Myers, of this city, was elected a member of the national executive board. This is a high recognition of the services Mrs. Myers has rendered the corps in this state, while acting as its headquarters.

A rather questionable moral atmosphere prevails in the vicinity of Heppner. A dispatch from that place states that eight divorce cases occupy the attention of the circuit court, which is now in session, for three days, and the grand jury has indicted Chester Sargent for rape of a 7-year-old girl, and old man Beach for rape of a 11-year-old girl.

Sick-poison is a poison which makes you sick. It comes from the stomach. The stomach makes it out of undigested food.

The blood gets it and taints the whole body with it. That's the way of it.

The way to be rid of it is to look after your digestion.

If your food is all properly digested, there will be none left in the stomach to make sick-poison out of.

If your stomach is too weak to see to this matter by itself, help it along with a few doses of Shaker Digestive Cordial.

Shaker Digestive Cordial is a delicious, healthful, tonic cordial, made of pure medicinal plants, herbs and wine. It is successful trapping for fur animals.

At the stock yards are 20 thoroughbred Merino rams from Chas. Durbin's place at Antelope. They will be shipped to Idaho for distribution among the sheep raisers of that state.

Only a few years ago Oregon sheep raisers were importing thousands from the east, now they are able to supply growers in other states.

Today the county court went out to the forks of Mill creek to examine a piece of road for which the citizens of that section ask aid to build. After examining the ground over which the road is to be built and calculating the expense, the court determined the expenditure would be too great for the benefit to be derived.

N. Whealdon arrived home this morning from Spokane. Mr. Whealdon says business appears to be fair in Spokane; he noticed very few vacant business houses, and heard a general demand for real estate property. From his appearances, he judges Spokane to be one of the most thriving cities in the Northwest.

J. E. Cass, secretary of the Washington state board of horticulture, calls attention to the great danger to fruit interests from the landing of new fruit pests from the Orient. He says shippers and fruit-raisers cannot be too careful in this regard, for the scale and other pests of the Orient are far more destructive to trees and fruit than the scales of more temperate zones.

Today Sheriff Driver was deputized by U. S. Marshal Grady to serve summons in the case of the United States vs. W. H. O'Dell, Chas. B. Donn, E. A. Griffin, Thos. Harris, Wm. Wiley, John Karlin, Wm. Gilhouse, Wm. E. Hunt and Alex. Thomson. They are summoned to appear in the U. S. circuit court and show cause why they should not be permanently enjoined from herding stock on the Cascade timber reserve.

From Friday's Daily

County court adjourned at noon today.

Mr. and Mrs. C. B. Durbin and son, of Antelope, are visiting in the city.

Hon. W. H. Wilson and family arrived home on today's local from Ilwaco.

Prices right and goods satisfactory at Johnston's. Remember the place, next door to A. M. Williams & Co's.

THE LOAD AND THE LOCKS.

Oh, dear, dear Lord, Why did you do it? Shut up the portage? You'll surely rue it. The rains will come. The snow will fall. But our portage is done. For good and all. The locks stand us. That all can see. The commission stands in with the portage. The days have come. With help from the three The portage is closed. So, about, come home. The Regulator stands while And can puff, and can blow. Handle apples and pears. But take the wheat. The locks will be opened November 15, they say. And the boats will go through. Some very cold day. G. W. RYAN.

INFORMATION WANTED.

Will Some Gold Standard Men Please Answer This Question.

MR. EDITOR:

THE DALLES, Sept. 9th, 1896.

The Republican Editorial Association which met yesterday at Canton, Ohio, resolved into a board of education, to instruct the masses how to vote in this election. So maybe you may have something different from kindergarten lessons in politics in future, but even at the risk of giving aid and comfort to the enemy, I wish to suggest that the school should consist of some of the teachers. For instance in the Oregonian of the 9th, (today), I find this bright "squirrel."

"The workman who votes for Bryan volunteers to turn his wages over to millionaires and land-owners and speculators in silver bullion."

Now the "campaign statement that if silver was worked will be paid in 53-cent dollars" is familiar enough to all of us. The changes have been rung on the same old unitary scale, but their familiar campaign statement that "free coinage will enrich the mine owner and bullion speculator. These two seem to me to be like oil and water, they don't mix; either, without the other, might serve as the basis of a good argument perhaps, but not for the Oregonian attempts to put in its little "squirrel" above quoted, they make a very poor emulsion that must be well shaken, before taking.

Will some good gold man, editor of the Chronicle preferred, please reconcile the Mexican money puzzle. The question is, the simplest form, can put it like this: If, after free coinage a workman will be paid in 53-cent dollars, the bullion in a dollar now being worth about 53 cents, where does the big profit to the mine owner or bullion speculator come in? Or vice versa, if this is the mine owner's gain, where are the speculators money to win it, and will get a dollar for 53 cents worth of bullion; a profit we are told of 47 cents on each one coined, how can that dollar shrink again to 53 cents the moment it is used as pay wages?

McCamant is a man, can put it like this: If, after free coinage a workman will be paid in 53-cent dollars, the bullion in a dollar now being worth about 53 cents, where does the big profit to the mine owner or bullion speculator come in? Or vice versa, if this is the mine owner's gain, where are the speculators money to win it, and will get a dollar for 53 cents worth of bullion; a profit we are told of 47 cents on each one coined, how can that dollar shrink again to 53 cents the moment it is used as pay wages?

Or vice versa, if this is the mine owner's gain, where are the speculators money to win it, and will get a dollar for 53 cents worth of bullion; a profit we are told of 47 cents on each one coined, how can that dollar shrink again to 53 cents the moment it is used as pay wages?

McCamant is a man, can put it like this: If, after free coinage a workman will be paid in 53-cent dollars, the bullion in a dollar now being worth about 53 cents, where does the big profit to the mine owner or bullion speculator come in? Or vice versa, if this is the mine owner's gain, where are the speculators money to win it, and will get a dollar for 53 cents worth of bullion; a profit we are told of 47 cents on each one coined, how can that dollar shrink again to 53 cents the moment it is used as pay wages?
