DEMOLISHED BY STORM

A Town Levelled By the West India Gale.

THE CLUBS MEET

Great Gathering of Democratic Clubs in Convention to Assemble at St. Louis.

Terrific Storm on the Potomac—The War Cloud in Europe Has Disappeared—Republicans Have Fused With Populists.

JACKSONVILLE, Fla., Oct. 2—Cedar Keys is a place of desolation and death. Forty eight hours ago it was a thriving town of 1500 inhabitants; today many of the people are corpses, scores of others are injured and there are but few houses standing. Twenty corpses have been recovered, but few have been identified, so mutilated were they by falling timbers. Many of the corpses were dug out of the mud in which they were buried by the mighty tidal wave that swept over the town Tuesday morning.

Though warning had been given notwithstanding a heavy fog of unusual severity. Up to 11 o'clock the night was calm and quiet. At that hour a moderate breeze sprang up from the eastward, increasing gradually until at 10 o'clock it was blowing about 4 m. It blew a perfect tornado, and suddenly changed to the southeast, bringing a perfect deluge of water, the tide rising two feet higher than in the memorable gale of 1894, which was at the time said to be the worst storm on record.

DEMOCRATIC CLUBS

National Convention Will Be Held in St. Louis.

ST. LOUIS, Oct. 2—Assistant Secretary McKee and his corps of assistants were busy all day registering delegates to the National Association of Democratic Clubs, which meets in convention here tomorrow. Up to this evening about 600 delegates have been handed in their credentials, and late tonight and early tomorrow a great many more will arrive. Accommodations have been made for 2500 delegates.

Vice-President Adlai E. Stevenson, who will act as temporary chairman of the convention, was the first of the leaders to arrive today. Soon after Mr. Stevenson got settled at the Southern hotel, President Chauncey Black of Pennsylvania, and other officials of the national association came in on a special train, over the Chesapeake & Ohio road, accompanied by delegates from eastern states.

Fusion in Georgia

ATLANTA, Oct. 2—A. E. Buck, chairman of the republican state executive committee, has issued a circular calling upon the republicans of Georgia to cast their vote for Seaborn A. Wright, the populist candidate for governor.

The republicans had decided not to put out a state ticket and up to the present the leaders of the party had indicated no preference as between the democratic and populist candidates. Chairman Buck's declaration, however, amounts to a practical fusion, and will undoubtedly have the effect of largely reducing the vote of Atkinson, the democratic candidate in the October election.

Storm on the Potomac

WASHINGTON, Oct. 2—Reports from the Upper Potomac show that high winds did great damage to property this side of the mountains. In addition to the wind, there was a cloudburst that soon changed the small tributaries into raging torrents, carrying away much farm property and washing away many bridges. On a short spur of the railroad leading from Hancock to Berkeley Springs, 13 bridges were carried off. The Potomac is rising steadily here and the water is up nearly to the floor of the long bridge and the top of the docks. Serious damage might follow the rainfall now threatening.

The Powers Have Agreed

LONDON, Oct. 2—It would seem that the grant spectacle that has been stalking before the eyes of Europe has been laid to rest. It may be now hoped that the danger has been conjured by diplomacy, which alone was capable of dealing safely and adequately with the problem.

There is good reason for believing that a very important agreement has been reached between the great powers and that all danger of a European war has, for the present, passed away.

Foot Caught Between Car-Bumpers

ARLINGTON, Or., Oct. 2—Abe Kelly's foot was crushed between car-bumpers this evening. Train No. 34 had pulled into the station and stopped. Kelly attempted to cross between the cars, and as he stepped on the bumper the train started to back, catching his left foot and crushing the toes badly. The Oregon Railroad & Navigation Company's surgeon amputated the foot and looked after the man's welfare.

Fire Near Eugene

EUGENE, Or., Oct. 2—The residence of Alex. Tallefer, near the bridge, burning between 1 and 2 o'clock this morning, together with its contents. The house was worth \$800, and was insured for \$400. The contents were worth about \$800. The family was away from home temporarily, and the house was not occupied. The origin of the fire is unknown.

THE SUPREME COURT

Will Convene Next Monday for the October Term

WASHINGTON, Oct. 4—After a four-months' recess, the United States supreme court will convene on Monday, the 12th inst. for the October term. All the justices, except Justice Shiras, are now in the city, and there will probably be a full bench at the beginning of the term. The court docket now contains 615 cases, against 751 at

COINAGE OF SILVER

Highest of all in Leavening Power—Latest U. S. Gov't Report.

Secretary Carlisle Makes Some Showings.

IT WAS MURDER

The Dead Man Found Near Oregon City Was Murdered Says the Coroners Jury.

Bryan Does Not Suit the Socialists of Boston—They Denounce Him and Fear He Would Put Down Riots.

LOUISVILLE, Oct. 4—In reply to a letter from the Courier-Journal to Secretary Carlisle, asking for information concerning the coinage of silver, Secretary Carlisle replies, in part, as follows:—

From January 1, 1896, to September 30, 1896, standard silver dollars have been coined at the mints of the United States to the amount of \$13,592,192. Since November 1, 1893, the date of the repeal of the purchasing clause of the so-called Sherman act, standard silver dollars have been coined in the United States to the amount of \$17,899,491, or more than twice as much as was coined during the whole period of our history prior to 1878.

The coinage of standard silver dollars is going on every day at our mints, and during the last month it amounted to \$2,700,000. About the same amount will be coined during the present month. The seigniorage, which is added to the circulation on account of the coinage since November 1, 1893, is about \$5,700,000, and the seigniorage or gain in the coinage of last month was about \$600,000.

THIS MAN MURDERED

Stamper's Body Found Under the Bridge at Park Place.

OREGON CITY, Oct. 3—The body of a man was found underneath the Southern Pacific bridge at Park Place this morning. There were indications that there had been copious bleeding on the bridge above the body, showing that the man was killed by a fall to the rocks below, though that would have been sufficient, his skull being crushed.

A few names of Portland people were found upon papers with the corpse, and investigation develops the fact that the man was killed by a fall to the rocks below, though that would have been sufficient, his skull being crushed.

PHOENIX, Ariz., Oct. 5—The last of the republican conventions of Arizona, that of Gila county, in defiance of the republican platform, first declared in favor of free coinage at 16 to 1.

Field Without Roads

OREGON CITY, Oct. 5—Henry Rogers and Peter Moran, who were brought here from Woodburn yesterday, charged with the murder of Joe Stamper, at the Park Place railroad bridge last Friday night, were arraigned in Justice Schrevel's court this afternoon, pleaded not guilty, and underwent examination. Both defendants were held without bail. One of them is very nervous over the affair, and is expected to give the whole story here at the county's expense tomorrow.

Shot in the Foot

EUGENE, Or., Oct. 4—Ira Johnson, who is about 20 years old, while out hunting near this city yesterday, carelessly placed the muzzle of the gun on his right foot. In some manner the gun was discharged and the entire load of shot passed through the foot, tearing away the middle toe and mangling other toes. He came to this city about 4 o'clock yesterday afternoon and a doctor amputated the middle toe. It is thought that the other toes can be saved.
