IT STANDS FOR GOLD.

Pre-eminently above all other publicans in the state of Oregon stand-Hon. George H. Williams, who addressed the people of The Dailes last Saturday evening, and from his lips we expected, and no doubt did receive a true and correct interpretation of the republican national platform. His interpretation of its plank on the money question was evidently a disappointment to the many advocates of silver in the republican party, who were led by Senator Mitchell to believe that it meant the free coinage of silver at an early date, for Mr. Wil-Hams' address was confined to depicting the beauties of the single gold standard, and not as the national platform of 1892 had it, "the republican party, from tradition and instinct, favors bimetallsm," or as senator Mitchell explained "the republican party today favors making silver a primary money of final redemption and will exert its influence in that direction if Major McKinley is elected president." Therefore if Mr. William's construction of the platform is correct, and he is indeed high authority, the free silver republican has little to hope for, hence little encouragement to support the republican national ticket. It is indeed unfortunate that the re-

ouble construction can be put on it by two men so high in the party as are Mr. Williams and Mr. Mitchell. However we are forced to believe that the construction put on the platform by Mr. Williams is correct-that if the republican party succeeds on Nov. 3, the present glod standard will be continued for another four years, therefore there is but one choice left for the republican silver man, and that is to rise above party prejudice and vote as his dictates teach, for the interests of the people.

We believe that Mr. Williams more nearly correct in his interpretation of the national platform than is Mr. Michell, that the republican party of today stands squarely for the continuance of a single gold standard, and that no attempt will be made by it to secure an international agreement for the free or unlimited coiuage of silver should it again get into power. In this belief we are encouraged, not only by Mr. Williams, but by the great Kinley, which are unanimous in the and time it has been proved that their perfection as a financial policy. If a clear issue is made against them. the greatest minds of the nation have way and everywhere the republican been wrong in their views of what the result of a single gold standard would be. Blaine and Carlisle both conthe best interests of the country in times past, and with many other leading statesmen raised their voices against its maintenance. On January

Mr. Blaine said: "I believe the struggle now going on in this country and in other countries for a single gold standard would, if successful, produce widespread disaster in and throughout the commercial world. The destruction of silver as money, and establishing gold as the doubtful." sole unit of value must have a ruinous effect on all forms of property, except those investments which yield a fixed return in money. These would be enormously enhanced in value, and species of property."

This expression from Mr. Blaine is in direct line with the sentiment of monetization of silver will cause more misery than all the wars, pestilence history of the world." And this is pledged to maintain. Mr. Williams is high authority in the republican party and no one will have the termerity to deny that he speaks advisedly. the voter who is patriotic and loves his country affiliate with that party?

#### WHAT WILL MCKINLEY DO?

Nothing is more dangerous to the people, or causes them to pay unreasonable profits on the articles they consume, than the existence and maintainance of trusts and combines that prevent honest competition. Through the organization of trusts, combines largely lies." can be and are made by which the product of manufactures can be so limited and prices so adjusted that the consumer is forced to pay for such products whatever price may be demanded, since all competition in the can be paid laborers. lines controlled by such trusts is prevented. Congress recognized the disadvantage at which the consumer was placed by the organization of trusts, New York World, dated October 3, and in 1890 passed a stringent anti- says: trust law with the following provisions: "Every contract, combination in the form of trust or otherwise, or conspiracy in restraint of trade or commerce among the several states or

with foreign nations is hereby declared to be illegal. "Every person who shall monopolize or attempt to monopolize or conspire with any other person or association to monopolize, any part of the com- protected not only at home but in merce between the several states, or with foreign nations, shall be deemed guilty of a misdemeanor, and on con- so widely copied by the silver press of viction thereof shall be punished by a late, and denounced as spurious by the fine-not exceeding \$5,000, or by im- goldites. Now that the World, which prisonment not exceeding one year, is a strong and able advocate of gold.

discretion of the court." forced, and today there are more trusts in existance in the United States than authenticity will no longer be quesdecessor, Warner Miller, held that it States. could not be enforced, and the present incumbent, Judson Harmon, is equally rations during a good portion of his Oregon's congressmen and senators the most likely to go for Bryan. legal pasetice, hence is in sympathy are put down for gold in the estimate,

There is an effort made by the Mc-

However, with these ex-attorneyrenerals and the present incumbent mend such laws as will meet it."

But where does Mr McKinley stand? than that whomever Mr. McKinley rould appoint would be in barmony with the interests of his manager and his rupning mate, that the attorney general under his administration would be only a second edition of Miller or Olney.

#### OHIO IS DOUBTFUL.

Hardly any supporter of Bryan ha deemed Ohio anything but a certain state for McKinley: in fact it has been generally conceded that its 23 votes would go solid for its favorite son; but Henry George, after spending two weeks traveling over that state views the situation differently. In summing up the situation, Mr. George says: "Both the hope and fear that Mc-Kinley will carry Ohio are based upon the perfection of the Republican orpublican platform is so vague that a ganization, the special interests at its back and the great amount of money at its disposal. But, to my mind, there are forces on the other side that more than offset these. Take the matter of organization, a matter of which the democratic practical politician laments the lack, and it seems to me the Bryan people have the advantage. Their organization is of a different kind, but it will prove, I think, the more effective as the short sword and more open order of the Roman legion proved more effective than the long spears and serried ranks of the Grecian phalanx In every city in which I have been, in every town of which I have heard is proof that the political discussion that is going on is hand-to-hand work, and what counts the hanging up of banners, hiring of great hatls, bringing of speakers from abroad, getting up of monstrous excursions, to the talk of neighbor with neighbor that is honeycombing the entire state with free silver clubs and Bryan leagues. "Take the power of the banks and ratiroads and all they control. Time

contention that the gold standard is power at the polls is as nothing when they contend for this policy, then they favor a policy that is detrimental to the interests of the country, or ex-perience goes for naught, and some of Free silver is everywhere making its candidates are losing ground. I find

something over a week's absence, and sidered the gold standard dangerous to it is a thing upon which ail those I have talked with elsewhere are agreed. "And to these elements of success is being added that most potent element which Bryan's personal touch with the 29, 1878, in a speech before congress, people is producing and intensifying belief in the honesty of the man. From my views of the situation I cannot think Bryan will fail to carry Ohio by a large majority: and the same influences that give him Ohio should give him all the central Western states that have been considered

#### ONE THEORY EXPLODED.

The theory of the gold standard advocates, that wages in all lines of industry will be reduced if Bryan is would give a disproportionate and un- elected, seems not certain of being fair advantage over every other carried out strictly in all instances, hence the theory is exploded. There is a stove fac ory at Newark, Ohio, where wages will be advanced 10 per fact. They will receive 270 electoral Mr. Carlisle who said: "The concent in case of Mr. Bryan's success. A Newark dispatch, dated Oct. 5, to cent in case of Mr. Bryan's success. votes, Bryan will receive 110, and the S. F. Examiner, says:

"It has been many days since a and famine that have occurred in the factory notice promising mcreased wages has been seen in this vicinity, the policy which Mr. Williams holds but the employes of the Central city the republican party of today is Stove Works here today were notified that in case of Bryan's election an increase of 10 per cent in their wages The opposition has abandoned the would be given. The company's president. C. W. Cunningham, has been a Therefore we ask in all sincerity can life-long republican, while the heaviest stockholder, W. N. Fulton, although a banker, is an enthusiastic silver advocate. Nearly all the employees are republicans, but all are Bryan supporters. President Cunningbam said towages was made was because the company felt confident free coinage would stimulate business, especially in the west, where the trade of the concern

#### SETTLED AT LAST.

A special London dispatch to the

The World correspondent examined today a file of the Financial News, in its office here, and found the following statement in an editorial in its issue of April 30, 1894:

"There can be no doubt about it that if the united States were to adopt a silver basis tomorrow British trade would be ruined before the year was out, for American industry would be every other market."

This is the statement that has been or by both said punishments, in the has found it to be genuine, and to have been published more than two years to give more than 20,000 majority for dares to listen to the heart beats of But this law has never been enago, when the silver agitation was in McKinley This would give the humanity.—William J. Bryan. is infancy, it is to be expected that its at any other period in its history, not- tioned and that the goldites will conwithstanding the existence of the law. | cede that England is afraid of the re-Attorney-General Olney and his pre- sult of free coinage in the United

Judging from the but one farm product, wcol, which is fact that Mr. Hobart is at the head of placed on the free list by the Wilson the coal trust and that Mr. Hanna is tariff law. That the farmers may couin sympathy with more trusts and com- sider the effect the present tariff law bines than almost any other man in has upon their industry and the the nation, there is little to expect amount of protection that is extended to their products, we make the following quotations from the 1894 tariff law, showing the duty (protection) placed on a number of the leading products of the farm:

All live animals, not specially provided for, 20 per cent and valorem. \*Buckwheat, corn or maize, cornmeal oats, rye, rye flour, and wheat flour,

20 per cent and valorem. Wheat, 25 cents per bushel. Barley and barley pearled, patent or hulled, 30 per cent and valorem. Butter and substitutes thereof, cents per pound. Cheese, 4 cents per pound.

Milk, preserved or condensed. cents per pound, sugar of milk, 5 cents per pound. Beans, twenty per cent and valorem. Hay, \$2 per ton.

Honey, 10 cents per gallon. Hops, 8 cents per pound. Onions, 20 cents per bushel Peas, dried, 20 cents per bushel; split peas, 50 cents per bushel. Potatoes, 15 cents per bushel.

Vegetables in their natural state, not otherwise provided for, 10 per cent Apples, green or ripe, dried, desicated or prepared in any wanner, 20

per cent ad valorem. Straw, 15 per cent ad valorem Grapes, 20 per cent ad valorem. Oranges, lemons and limes, in packages, at the rate of 8 cents per cubic foot of capacity; in bulk, \$1.50 per thousand.

Plums, prunes, figs, raisens, and other dried grapes, including Zante currants, 11 cents per pound. Fresh beef, mutton and pork, 20 cent ad valorem.

Bacon and hams, 5 cents per pound. Extracts of meats, 15 per cent ad va-Lard, I cent per pound.

ssed 2 cents per pour

Tallow, 1 cent per pound. It will be noted that there is indeed many of the schedules the duty being more than the market price of the article. Take hops for instance. There is a protection of 8 cents, while for the past two years they have been sold this in Cleveland as I return to it, after throughout this state at from 3 to 71 cents. And too, the assertion is frequestly made that canadian competition is responsible for the low prevailing prices in farm produce, yet the facts are that there is at present a high Tariff on hay, grain, butter, and live stock, in fact all farm prodects except wool. A perusal of the above

quotations from the tariff law as it exists today, will cause the farmer to realize any increase in the tariff cannot benefit him, but on the contrary, any additional duty, except it be on wool, will be to increase the profits of the manufacturing syndicates.

#### JUST FOR EFFECT.

Senator Quay, the great Pennsylvania boss is pretty good at claiming, and under date of Oct- 12, sent out this statement:

"The election of McKinley and Hobart is an accomplished and assured there are six states, having 67 electoral votes, which are doubtful, but the probabilities at present point to the fact that these 67 will go into the renublican solumn and be added to the 270 now assured for McKinley and Hobart. This is the status today. We have the election and will hold it.

It will be noticed that in making this broad assertion, Senator Quay drawing \$2,500 annually of the taxpaycarefully avoids naming any one of the states from which the grand aggrega- while campaigning in Southern tion of 270 are to come. Evidently Oregon, though he is still on the state this estimate is made without any foundation whatever, for from other, day the reason the promise of better and fully as reliable sources, come evil as his services to the state are condences that instead of McKinley's cerned, nothing is lost-except his \$8 a election being assured, it becomes more | day. doubtful every day, and if his managers would acknowledge that their very souls are struck with the fear that their Napolean has found his Waterloo. They are truly alarmed, and the causes treasury of Oregon, W. S. Dunniway,

> In 1892, when Mr. Whitney was the er's hard-earned gold, and R. J. Hendpower behind the screens at democratic national headquarters, he induced his Wall street friends to send an independent commission to Ilvinois. With such facts as these staring him in the face, men like Quay cannot but than we have today, and good money feel alarmed, hence make such broad we will continue to have " Which of boasts as the above, simply for effect, these great men is the free silver rehoping thereby to create an enthusiasm for their candidate, knowing that there is a certain vote that always

#### MONEY FOR McKINLEY.

As the campaign progresses evidence accumulates to prove the oft-asserted statement that the monopolists and usurers both of America and Europe are arrayed together to defeat the election of Bryan; that it is a battle for the supremacy of wealth over the masses, for a concentration of the power of corporations in the management of the government. Even the great Oregonian places itself, unwittingly of course, in evidence along this

A man styling him-elf Baron Charles H. de Courtier, representing to be a "King of capital," was in Portland, and the Oregonian quotes him as say-

"We are hardly in position to say much of our plans and movements, as they will depend entirely on the November election. The syndicate we represent may be termed international, being comprised of leading capitalists in Amsterdam, Germany, France and England, whose aggregate capital will exceed \$45,000,000. This vast sum is today at a standstill, as the result of the present financial disturbance in this country, and I am under positive instructions to stop all investments until the result of the election is known. Further than that I am under orders to cancel all contracts and withdraw all investments in the event of Bryan being elected, and, on the other hand. to close all contracts and make further investments if Major McKinley is elec-

"I am now investigating the ques tion of state legislatures, both in Oregon and Washington, with a view to determining what their several complexions will be after the election. Any state in which the syndicate is interested whose legislature is shown to have a majority of populists will necessarily be stricken from the list of states with which the syndicate will deal, and all the investments in those states will be withdrawn."

What are we to learn from this statement of the "baron?" If McKinley is elected, a policy of government will be pursued that will be solely in the interest of the foreign bond holder and money loaner. If Bryan should are to be subserved. If McKinley's refuse it as a legal tender. Poultry, live 3 cents per pound, a high protective duty on nearly every future posterity, or the "baron" across and brands it as an "unblushing proproduct of the farm and garden, in the water who draws the wealth of the posal to buy the presidency of the country away in interest?

Those who vote for party and not for electors in Oregon. However, there This news which came from Wall are those who care nothing for the

Senator Mitchell continues to assert D. P. Thompson Finds That that if McKinley is elected, he will aid to "depreciate" our currency by international agreement looking toward the ree coinage of silver. Mr. McKinley says "we never had better currency

publican to believe? The Boston Herald, a gold standard paper, advises the goldite cartoonists to stop enricaturing the American farmer till after election. "It is a queer spectacle," it says, "to find the farmer ridiculed in politics now in the days of his reported distress. A clear mistake has been made, and it should not in ordinary prudence, be continued.'

Since Senator Ben Tillman, of South Carolina, has appeared on the rostrum in Oregon, the republican papers of the state have been quite loud in de nouncing him as an anarchist and traitor. If such appelation are justified, what about Senator Mitchell and Congressmen Ellis and Hermant ' The records of the senate and house show that they advocated exactly the same principles Tillman is advocating today Neither the living nor the dead are free from the scurrilous abuse of the

Oregonian. Thomas Garfield, a brother of the murdered president, wrote a letter a few days ago, which is pub lished in another column, defining his views upon present issues. This brought forth the following dirty slap, n t to him alone, but to his deceased brother: "Garffeld's brother is a Bryan man, and Garfield wasn't very

Since the billing of Senator Tillman and Mr. Schoonmaker to speak in The Dalles on the same date has caused some confusion, which none regret more sincerely than do the management of the Bryan campaign, they are willing and desirous to arrange matters so that a joint discussion may be held between the two orators. By such an arrangement all may have an opportunity to hear both sides of the question discussed by men of national reputation. Will the management of the McKinley campaign accept the challenge to a joint discussion?

The Chronicle in reporting Mr. Butlar's speech certainly did not mean what it said when it asserted that he "abandoned the position from which republican argument has driven him, that eilver was not demonetized in 1873." Mr. Butler dwelt at length upon that proposition, and very clearly showed that silver was demonetized not only by the act of 1873 but by every coinage act since that date; that congress had not only discriminated against the silver dollar but had succeed, the interests of another class | clothed the creditor with authority to

gold-standard policy shall prevail the | The Oregonian places great stress "baron" will invest his foreign capital upon an alleged discovery made by the interest) and who will it benefit, those owners have been solicited to conwho mortga e their property and tribute to the Bryan campaign fund, United States." Ye gods! What an There is something more to learn awful crime this is! But pray, what is from this "money king's" statement. Mr Hanna with his \$15,000,000 cam-In states whose legislatures are under paign fund trying to do? Why did control of the party that has always Vanderbilt, Huntington, Carnegie and been lavorable to the money syndicates, their associates contribute these he will invest, because he is assured of millions if it were not for the purpose

Some remarkable figures are brought points. When Arkansas went demoeratic wheat went up 2 points; when Maine went republican wheat fell 2 peared wheat went up 12 points; when the republican managers in September were claiming everything wheat in from Georgia and Florida, when it recovered to 69% cents.

"There is not a silver-standard country in the world today where the laboring man receives fair pay for his day's work." This is the last of the "five facts worthy of daily study," which the Oregonian parades in a double-column leader. Whether this is true or not, D. P. Thompson says in Japan, which is a silver standard country, laboring men alt find employment from European ports, and cotton from and have all the necessities of life. Is this true in Germany, France and pool and sold there, without being un-Italy? ail of which are gold-standard countries. Dos the people in those to this country, giving to Great Britain countries receive fair pay for their day's work? Is there not more poverty, more want, more hunger and lower wages in gold-standard Italy today than any silver-standard country on the globe?

### Callers at Canton,

CANTON, O., Oct. 13,-A special train of ten coaches arrived this morning with miners, mechanics and other citizens of Lehigh valley, Pa. The inclement weather still continues, so the visitors were taken to the Tabernacle, where Major McKinley went to receive their greetings. They gave him an enthusiastic reception, and applauded his addrass to the echo.

DENVER, Oct. 15 .- According to the sixth of the standard currency to pro atest advices from Meeker, Color da, vent a raid on the treasury they could which is 90 miles from the nearest to lnot meet, as is the condition of our unfortunate country at the present time egraph office, the three men who were killed there after robbing a bank It may be said: "Do you want ou people reduced to the manner of living of the Japanese? Do you want ou alded in robbing the banks of Telluride and Delta.

"I will work for you for a year for to stood talking to Assistant Cashler Dacents a day, for one year's steady vid Smith. As he turned to leave he work." I replied: "I have no work not want to discharge them without revolver commanded, "hands up." At the same instant two shots rang out and two bullets whizzed past the head of the assistant cashier, who threw up his hands. Meantime the other two robbers had

the case, to a large extent, in Eastern | have not had more than three months overed the crowd in the store, con work to do, and I have used every pelling them to assemble in the center of the room and guarding both door-No such condition of affairs exists i ways. Then Cashier Moulton was called and one of the men, said to him: 'Open the safe and bequick about it." At the point of a gun he was conducted to the safe, which he opened, and the ontents of the drawers, \$700, were emptied into a sack the robbers had brought with them. ers of Wall street, the sugar trust and Not a word was spoken, the robbers going about their work with a delibera-

tion that was astounding. After getting the money in the till, they quietly gathered in all the firearms in the place, helped themselves to cart ridges, and then the leader ordered the crowd to all go outside with them The crowd filed through the doorway, followed by the robbers. The robbers were not aware that the place was surrounded. The crowd they had driven from the store ran for cover Citizens of the town had been

store, and arming themselves to the teeth, surrounded the bank, quietly awaiting the appearance of the robbers Deputy Game Warden W. H. Clark noticed that three horses were fastened at the rear door, and surmising that the robbers would leave by that route took up his station a short distance from the back door and centered more men at this place than any other, not neglecting, however to keep the front door just as well watched.

When the robbers saw they were cornered, Charles Jones raised a rifle he had taken from the store and fired at Clark. The bandits were commanded to hold up their hands, but answered with a fusillade of shots from a dozen different directions. Jones and Smith fell to the ground literally riddled with bullets. Harris mortally wounded, held his revolver, and, stil staggering, continued the battle until General Alfaro, now chief executive of | he fell.

#### CUBA WILL BE FREE.

March. CADIZ, Oct. 15 .- If Spain has not pu down the insurrection in Cuba by the 1st of March, it is the intention of the government to give up the struggle and let the island go. The significance of this statement, coming direct from an officer of rank in the Spanish army, within the week, must certainly be regarded as of no little importance The above determination is an open secret among those who are close to the government, and it is said that the policy is being adopted of exaggerating the magnitude of the trouble in the Philippine islands with a view of preparing the people for the ultimate

design of letting Cuba go. By way of further corroboration of this estimate of the situation it may be remarked that while Spain is sending more than 200,000 troops to Cuba, who are in the main very young and unfrezen, the brake failed to hold the disciplined, she is carefully keeping her 80,000 well-disciplined and efficient soldiers who may be available in case ed to run. The front wheels struck a of an outbreak at home. She is al o keeping in Spanish waters 12 warships which are ready for sea, and which could be of great service in Cuban waters in aiding the United States in that police work which she now asks that country to do for her.

> W. G. Foster, manager of the Eastern Telegraph Company here, speaking of the situation, said: "There is no question that the gov

ernment is trying to use the Phillipine islands troubles to distract the people's attention from Cuba. There is no doubt that Spain intends to do her utmost to crush the Cuban insurrection between now and March. Failing in ago. They stopped at the Alaska that, I am informed that she will give hotel, this city, over night, and when up the struggle. "An important Issue is the fact that

Cuba has a debt of \$500,000,000, and that Real Estate.... Cuba will have to pay that debt; whereas if Cuba wins, the payment of that debt will fall on Spain, who contracted minister of railroads, Prince Hilkoff, it on behalf of Cuba. Naturally the the first public man to make the trip planters who have been driven from from St. Petersburg to this country the half-ruined plantations, however over the new Siberian railroad, arrived loyal they may appear to be to Spain, at Chicago at 11 o'clock today on the really want to see the Cubans succoed. Santa Fe road. He is engaged in a as in that case they would not be taxed tour of inspection of the railroads of by Spain to pay the interest on the the United States. He was envertained debt, and could then start again under more favorable suspices."
