Very few members of Mt. Hood Hose Company heard the alarm sounded from their hose house last night, and were not apprised of the fire until an alarm was sounded by the bell at the Jackson Engine Co's house. This is pretty good evidence that the Mt. Hoods should be supplied with a new bell, the one they have being cracked, and makes about as much noise as a cow bell. The city council should supply the company with a bell with more noise in it.

The reason that we cannot buy goods with the money that there is now in the country, is that about \$800,0000,000 of the socalled circulating medium of the country is in the banks, and the credit contraction of circulation. Crossen will open the postoffice from people were not in debt, their credit could be used to draw the money out for the channels of trade; then they could buy goods, and by that means it would be possible to raise a revenue every avenue by which the stream that supplies the people with a circulation Misses Owen & Van Duyn have sold has been cut off. Under the Bland-Allison act, and also under the Sherpartially supplied. I repeatedly called the attention of the people to that fact during the fall campaign. But they were sure it could be done, now we

will settle it. I think that the plan suggested for the convention is a good one. One silver republican, one democrat and one populist, from each county, if they have a proper conception of the financial question, can unify the silver forces of the state so as to control the next election in the interests of Americans. What we want in such a convention is patriotism, loyalty to American institutions. Yes, we can go further and say, loyalty to humanity, for the demands that we are making committed suicide at Mount Vernon, on this silver issue, involve the pros

Bunnell's Residence and All Its Contents Burned

Saturday morning a fire was discovered in the basement of Dennis Bunnell's house on Tenth street. Mr. Howe, who lives near by, discovered the fire and gave an alarm which awoke the neighbors, and Ike Perry hastened to the Mt. Hood hose house and rang an alarm, but owing to the bell being defective, very few residents on the hill were awakened until an alarm was rung from the bell at the engire house. The Mt. Hood hose team got to the scene of the fire in pretty good time and did excellent work, though the building was all ablaze before they reached it, and all they could save was the walls, the inside of the building and all the family's furniture and clothing being de-

but probably caught from sparks in the asement, as Mrs. Bunnell had been burning some rubbish in the furnace. There was no one in the house when the fire occurred. The government, says the Philadelphia Press, has equipped many of its postmen with roadsters, especially those who deliver mail in the suburbs or in the country districts. In each brigade a bicycle corps has been formed who are daily drilled in about the same style as similar organizations in the armies of Europe. The Japanese cople themselves still regard the wheel as a great curiosity, but are beginning to both master and manufac ture it. Some of the Japanese women have adopted a queer bicycle costume that is a combination of the bloomers with a native dress. It is neither Japanese nor European. Combined with the upper part of the kamona costume the Japanese ladies clothe their nether limbs in what are neither knickerbockers, trousers, zouaves nor bloomers. The ludicrous effect is heightened by the girl having a national habit of turning the toes in, developed to its largest extent.
