

ITEMS IN BRIEF

(From Saturday's Daily)

Miss Ketchum went to Hood River on the boat today. Mrs. W. H. Halver, who has been visiting Mrs. A. A. Jayne, left on the boat this morning for Portland. W. S. Chipp left this morning for Holcomb, Wash., where he goes to take a position with a lumbering company. L. S. Logan and I. Sichel, who have been delivering Crook county cattle at Huntington, arrived here on the early morning train. County School Superintendent C. L. Gilbert and family arrived home this morning from a visit of several months in Ohio and Indiana. There appears to be an epidemic of tonsillitis in the Walla Walla penitentiary. Six officers and about a dozen convicts are afflicted. Frank Leo, a prominent wool buyer who spent a good portion of last season in The Dalles, is ill with inflammatory rheumatism at Topper. A. Whelan, of that county, one of the pioneers of that section of the state, is in the city visiting his son, N. Whelan, and family. Today T. Burgess made another delivery of about 700 head of mixed cattle. They were placed on board cars this afternoon and will be started for Montana tonight. D. W. Jones came in yesterday from Antelope. Mr. Jones says Antelope has been favored with fine showers the past week, much more rain having fallen there than last. Carl Pez and wife, of Erskenville, are visiting in the city. Mr. Pez reports a fine shower of rain having fallen in Sherman county last night, and says crops are improving. The past few days the salmon run at Cascade Locks has been good. The fish caught are all firm big fellows, and both in quantity and quality have been very satisfactory to fishermen. R. H. Guthrie returned yesterday from his sheep camp in the mountains at the mouth of Dog river, and says that the summer range is rather scarce this season, the grass having started later than common. Another invoice of 220 pieces fell from the heavens last night and this morning. They were not yet coined, but will be when the grain is harvested next fall, and the good results of these occasional showers are fully realized. The 17-year-old daughter of Mr. and Mrs. Winsky, while playing at school, in Blodgett, Benton county, Thursday, was kicked by a horse. It was a frightful blow, and, after lingering a few hours, the little sufferer died Friday night. Owing to the fact that the firemen's tournament will be held here during the first week in September, it is probable school will not open until the second week of that month. The matter will be finally determined at the July meeting of the board. Pendleton has a circus, but the big show will give The Dalles the go-by, having been routed from Pendleton through Eastern Washington. The Dalles is none the loser, for circuses usually take out five dollars for every dollar they bring into a place. John Wood leaves tonight for Huntington to meet his brother, J. H. Wood, who is delivering 1000 cattle to eastern buyers. The boys sold their entire band of cattle at Malheur county, and will make another delivery of 1500 head about the middle of October. Sheriff Elliott, of Josephine county, had two especially prepared reports presented to him by the manufacturers at San Quentin, Cal., for use during his term of office. They are of hemp but not twisted so tightly as an ordinary rope. The ropes may be used to hang Nelson and Fiestler with. Geo. Crossfield came down from Wasco this forenoon in an open buggy, and says he discovered that the crops along the road were being wounded fully revived by a drenching rain. It is the making of the crops but pretty tough on George, for along with the grain he got a thorough soaking. Engineer James Gilbreth has assumed his former place on the steamer Dalles City as chief engineer. Engineer Hennes Campbell having resigned his position to take a place on the steamer Telephone. Mr. Gilbreth was chief engineer on the Dalles City for a number of years and is a thoroughly competent man. Yesterday was Miss Edyth Randall's 15th birthday, and the event was celebrated by a gathering of her friends at the home of her parents last evening. Refreshments consisting of ice cream and cake were served, and the evening was pleasantly devoted to playing games, music and other amusements. On the Waco end of the Columbia Southern railroad the farmers have begun grading. In conjunction with their agreement to grade the south half of the road. Yesterday the company established another camp of graders two and one-half miles from Biggs, and have about one hundred men and forty teams employed. At the last convening of the Rathbone Slaters the following officers were elected for the ensuing term: M. E. C. Miss Minnie Gosser; S. Mrs. T. A. Hudson; J. Mrs. John Michel; M. Mrs. A. M. Kealey; M. of F. R. & C. Mrs. C. L. Gilbert; M. of F. R. & C. E. Walbers; P. of C. Mrs. O. S. Waud; O. W. Mrs. John Gavin. Representative to grand lodge, Mrs. J. B. Crossen. The United States fish commission will make a study this summer of the conditions of the Columbia river bass, with special attention to its biological features. Some interesting biological investigations will be made at Walla Walla Lake and also on the chain of lakes beginning with upper Klamath and extending eastward through Central Oregon, including Summer, Albert and other lakes. E. Shanno and daughter returned last evening from a week's visit to Yakima. Mr. Shanno was favorably impressed with the Yakima country, and says it is one of the favored localities. The soil is rich and productive, and the facilities that have been provided for irrigating make crops certain every year. Besides the large irrigating canals, a number of artesian wells have been sunk that furnish an abundant supply of water.

campment, and tonight Mr. Oliver will meet with Wacoona Lodge, K. of P. Dr. Ganser, J. W. Pelton and Frank Hampton, all of Prineville, arrived here this morning from Ontario, where they have been delivering cattle driven across from Crook county to the railroad. The boat that arrived here last evening was well laden with delegates to the Sunday school convention, and among them were a number of the most prominent Sunday school workers in the state. Send your orders for barbed wire to Mays & Crowe, The Dalles. They are making red hot prices when cash accompanies the order. Two pointed Glidden wire, at \$2.35 per 100 pounds, and Gonine Baker \$2.45. Flashy posters advertising Prineville's celebration next Monday have been received at the office, and indicate that the patriotic citizens of that thriving city will cause the eagle to scream loud and long. Hon. W. S. U'Ren, of Oregon City, who carried the populist vote of the late so-called legislature around in his pocket for 40 days, and to whom the honor of authoring the "Mitchell push" is largely due, is in the city today. No wool sales were reported today, though the market appears to be getting stronger, and it was stated on the streets this forenoon that one wool grower had been offered 20 cents for this clip, which was exceptionally light wool. The club brewers made the following high scores during last week: Monday, F. H. Wilson, 52; Wednesday, M. A. Robinson, 54; Thursday, P. H. DeBur, 45; Friday, W. Schmidt, 37; Saturday, W. Bradshaw, 45. Two companies of state militia passed through here this morning on route to Camp Jackson. They were the companies from Pendleton and La Grande. Two special trains from the west arrived at Hood River yesterday with the second battalion and two companies of the first. Salmon are reported coming into the lower river in large numbers, but they are evidently nearly all caught before they reach the Cascades, for above that place the catch is very light. The Dalles Canning Co. got only about 2500 pounds of fish last week, and that was due to a heavy rain the night of Saturday night's catch. If you want to buy a new bed lounge for \$7 or a bedroom suit for \$8 and upwards, or a cook stove for \$5 up, or in fact anything in the line of new or second-hand household goods at the lowest possible prices, call on W. H. Arbuckle, half block east of postoffice opposite Mays & Crowe's, The Dalles, Oregon. wlm
