

ITEMS IN BRIEF.

Mrs. Hilton and daughter returned today to Bonville.

Rev. O. Taylor returned this morning from Portland.

Prof. Will H. Lee and wife left this morning for Warm Springs.

The fall term of The Dalles public schools will begin on Monday, Sept. 13.

Judge Mays returned last night from Portland, where he has been the past week.

Isaac Stern, publisher of The American Hebrew News, of Portland, is in the city.

Mrs. Moore and Mrs. Doubt visit to White Salmon this morning for a few days' visit.

Last night three cars of fruit were shipped from The Dalles, two by the Commission Co. and one by the Farmers Market.

The ups and downs of the wheat market in Chicago, New York and Liverpool had little effect on prices here. No. 1 wheat in The Dalles still holds up at 80 cents.

Miss R. S. Hill, who has accepted a position as teacher in the schools at Simons, starts today for the Yakima reservation, going as far as Goldendale on a wheel.

Miss Minnie Devin, who has been visiting her aunt, Mrs. Sinnott, left on this morning's boat for home in Los Angeles. She was accompanied as far as the locks by Col. and Mrs. Sinnott and Mrs. Fish.

General Croshaw does not propose to be summarily fired off the board of railroad commissioners, and refuses to accept the gift of retirement tendered him by Gov. Lord. He will contest the matter in the courts.

The fruit shipments from Mosier this season have been heavier than common. J. J. Davenport, who is in the city today, informs that the Times-Mountaineer had already six cars of prunes and pears have been shipped one or two more cars will be sent out next week.

Yesterday the nine-month-old child of Mr. and Mrs. J. C. Thrall was suddenly prostrated with heat, and apparently dead. Dr. Doane was called, and by applying restoratives succeeded in reviving the little sufferer and today it is in apparently normal health.

Under the head of "Another Man Gone Wrong," the Telegram publishes the announcement that A. J. Gove, formerly of Cascade Locks, Miss. Aldrich has returned to Rockland, and the papers of the account in high praise of the account she gave the endeavors of her sojourn in San Francisco.

A. D. Looney, postmaster at Mitchell, and wife are in the city, having recently returned from Chicago. The wedding occurred at Freeport, Ill., August 14, after which Mr. and Mrs. Looney started for Oregon, coming by the U. P. to San Francisco, thence over the Southern to Portland. They leave Monday for their home at Mitchell.

There is but one matter of consolation for The Dalles with regard to the failure of firemen from different cities to accept the invitation of this city to come here and contest for the different prizes. It is that The Dalles team holds the championship, cup and will continue to possess the champions of the state indefinitely, or until some team comes here and wins it from them in a race for the cup and nothing more.

Ex-Recorder Phelps is packing his law library today, preparatory to leaving next Monday for Heppner, where he will permanently locate, having arranged to take charge of Cassady's Elie's law practice at that place. While the Times-Mountaineer regrets Mr. Phelps' departure, it congratulates the people of Heppner upon this acquisition to the legal fraternity of their city, and cheerfully recommends Mr. Phelps as a thorough reliable and competent attorney.

Since the firemen's tournament has been declared off, the only hope of all special event in The Dalles this fall reverts to a district fair and racing season. Over \$1,000 was subscribed to the tournament, though unfortunately cannot be used for that purpose, so why not attempt to have a rousing big fair and series of races? Certainly \$1,000 can be raised for purses, and with the \$1,500 appropriated by the state for the district fair, would give a respectable fund for the enterprise.

It appears to be "all off" with candidates for federal appointments in this state, just like it is with The Dalles tournament. The delegation could not agree whom they would recommend, so Congressman Tongue skipped out of Portland yesterday morning for his quiet retreat at Hillsboro, to recuperate from his siege with the office seekers in Portland. It is suggested that the delegation charter a tug and go out over the bar at the mouth of the Columbia where they can be free from the army of place hunters, and quietly determine whom they will endorse.

From Monday's Daily.

Dr. H. Logan has returned from a visit to the coast.

Mrs. J. F. Eaworth returned Saturday evening from a visit to relatives and friends in Douglas county.

Hon. J. F. Moore visited White Salmon yesterday, going down on the Regulator and returning on the evening train.

Prof. Landers came home Saturday night from Trout Lake, where he has been having had a most enjoyable outing in the mountains.

Miss Josie Jenkins and her cousin, Miss Jenkins of Portland, who has been visiting in the city, left on this morning's boat for Portland.

Today's weather is threatening and is sufficient to remind farmers and warning given them by the Times-Mountaineer several weeks ago to get their grain under shelter as early as possible.

Dr. Sutherland is home from a visit to his old home in Canada, where he went seven weeks ago. The doctor spent several weeks in a private hospital in New York while East, and be-

ASCENT OF MT. ADAMS.

The Trip Described by an Amateur Mountaineer.

(Continued from last week.)

We were awakened next morning by hearing some one say: "This reminds me of the sleeping beauty story. I'm afraid that if you don't reach the summit, it will be our fault."

A DELIGHTFUL SUMMER RESORT. Newport after about twenty attractions for the pleasure seekers. NEWPORT, Aug. 25, 1907.

We arrived here the first of the week, and after coming out of the dust and intense heat of the city, we were delighted with the salubrious atmosphere of this famous summer resort.

As I described Newport geographically in my communication from here last year, a repetition is unnecessary, but will repeat that this is one of the most scenic summer resorts on the Pacific coast, and is easily reached from Portland by taking the Southern Pacific and O. C. & E. trains, connecting with the latter road either at Albany or Corvallis.

The professor is a good cook, and offered to get breakfast if we would only stay in the hotel. We found a very good breakfast. We were thoughtful of him on toast and other delicacies, but told him we would get up after while and get breakfast, but when we tried to "arise" we found we were almost paralyzed, so after several trials we got up and prepared the morning meal.

We found that two of the ponies had left the evening before, so the two girls rode the professor's pony and the other experts, with the professor and the guide walking ahead, leading the pack animals, we started off on the procession homeward bound.

We followed the guide for a mile and then saw away ahead of us a light, which looked like a star in the heavens. The effect was weird, as the light moved and soon we saw two and then three and four, and then five, and then John Filloon hailed to us that he was going up in the "loft."

Mr. and Mrs. R. G. Davenport returned this morning from a visit to Wallace, Idaho, and report having had a most enjoyable trip.

J. B. Croshaw has taken a permanent position as salesman in C. P. Stoenhorst's store, and will hereafter be found ready to accommodate the public.

Light rains fell last night and this morning, but not sufficient to interfere with harvesting, just enough to lay the dust and clear the atmosphere of smoke.

The steamer Elmer will not sail for Alaska tomorrow as advertised, therefore, the departure will not leave for their northern journey until Friday morning.

The funeral of the late L. D. Ainsworth will take place from the residence of G. W. Rowland, corner Fourth and Laughlin streets, at 4 o'clock tomorrow afternoon.

The weather forecast is not propitious for Wasco county farmers. Pagan's telegram predicted that a heavy shower that continued showers might be expected tonight and tomorrow.

ONE GUESS

for every yellow ticket—in every package of Schilling's Best tea.

Don't send coupons; save them for something else.

Rules of contest published in large advertisement about the first and middle of each month.

The other day our party went in carriages, jaunting cars and on bicycles to visit the Lava cove. This cave is about one mile and a half from Trout Lake, and is easy of access.

We were awakened next morning by hearing some one say: "This reminds me of the sleeping beauty story. I'm afraid that if you don't reach the summit, it will be our fault."

AN IMPORTANT VISIT

Congressman Hooker and Party View the Columbia.

Sunday Hon. W. B. Hooker, of New York, chairman of the house committee on rivers and harbors, accompanied by Mr. Hooker and children, Mrs. Thomas W. Moore and Miss Sessions, of New York, came up the Columbia from Portland, and spent a few hours in The Dalles.

The steam Regulator on the river left Portland at 4 o'clock Sunday morning, carrying besides the visitors the congressman and party representatives Ellis and Tongue, ex-Governor Moody, Judge Morland and Mr. and Mrs. Gill, of Portland, Miss Bertie Tongue, of Hillsboro, Hon. T. J. Driver and Capt. Lewis, of The Dalles. The steam Regulator is the only boat on the river that carries a committee of The Dalles Commercial club appointed to meet the congressman consisting of Hon. Chas. Hilton, Hon. B. S. Huntington, W. Col. Patterson Lord and J. W. French, also Hon. W. H. Blythe, of the practice and the office, A. Brown, merchant, and J. A. Douthett, editor Times-Mountaineer.

Unfortunately a cloud of smoke hovered over the river, preventing the visitors from abroad viewing the magnificent scenery of the gorge of the Columbia. The congressman, however, was enabled to carefully examine the river from Portland to The Dalles, and judge of its importance as a water way. He expressed the opinion that it was one of the grandest rivers in the world, and was free to state that he would introduce legislation in the government to remove all obstructions to its navigation from the Pacific ocean to its source.

When The Dalles City arrived here, Governor Moody secured an engine of the O. R. N. Co., it being impossible to get a coach, and accompanied Mr. Hooker to the rapids between The Dalles and Ollie, where it is proposed to construct the ship railways. This Mr. Hooker was given an opportunity to personally inspect the ground over which the next improvement to the Columbia is to be made, and no doubt he has taken a deep interest in his action when the question of appropriations for this improvement shall be referred to his committee at future sessions of congress.

It is to be regretted that Congressman Hooker could not have had more time to review the resources of the country to be affected by this improvement, but his time was limited, he having arranged to visit Congressman Sherman, of New York, who was a passenger on the six o'clock train, en route to Yellowstone Park.

Local Congressman Ellis and Tongue were called back to Portland, hence were unable to accompany Mr. Hooker to the rapids, nevertheless the visit of the chairman of the rivers and harbors committee cannot but be of benefit to the inland Empire in securing appropriations for river improvements, for Mr. Hooker has a personal knowledge of the needs of the country for freer navigation of the great waterway of the Northwest, and this knowledge will aid him in forming estimates of the amount of money required.

Death of Mr. Ainsworth. At a few minutes past 6 o'clock last evening Lewis Ainsworth died at the residence of his father-in-law, G. W. Rowland, after a long illness with consumption.

Mr. Ainsworth was born in Iowa, in 1860, and came to The Dalles March 1, 1890, entering the employ of French & Co., with whom he continued until his falling health compelled him to retire from active employment in the fall of 1894, since which time he has been traveling almost continuously. He first went to Arizona, but obtaining no relief returned to The Dalles and from here returned to the Hawaiian Islands in the fall of 1895, remaining there until last spring, though without receiving any material relief.

On April 12, 1895, deceased was united in marriage with Maggie, daughter of Mr. and Mrs. G. W. Rowland, of this city, and besides his wife he leaves a daughter about three years of age, father and mother, one sister and two brothers.

Lewis D. Ainsworth was highly respected by all who knew him, being a man of faultless habits and strict integrity, and his loss is keenly felt by the entire community.

FAREWELL TO MR. PHELPS. The Elks Make His Last Evening in the City a Pleasant One. Last evening G. W. Phelps was the guest of honor of Cascade Lodge, No. 303, B. P. O. Elks. The occasion was a farewell entertainment given Mr. Phelps by the lodge on the eve of his departure to Heppner, where he goes to enter upon the practice of his profession, having formed a partnership with Congressman W. B. Hooker, and aside from the regrets his departure from the city caused, it was one of the pleasantest social events of the year.

The Elks and their ladies together with invited guests began arriving in the hall at 8 o'clock, and within half an hour a splendid supper was being ringed with laughter and merriment. Exalted Ruler Fish was master of ceremonies, and in his customary suave manner, readily spread good cheer among the audience.

Dancing was the predominant feature of the entertainment, though the honor of the evening was bestowed on the rendering of a pleasing program including a solo by Miss Myrtle Mitchell, recitation by Harry Louisa, solo by Lota Kelsay, solo by Lota Kelsay. This occupied the time until 11 o'clock, when the Elks marched in with Congresswoman W. B. Hooker, and as the band played, she sang a beautiful and popular song, and Fred W. Wilson, briefly expressed the regrets of the lodge at the departure of their esteemed brother. John Hampshire was called upon for a recitation, and related the experience of Pat McDuggan on joining a lodge of Elks, which was followed by a recitation by Mark Long. At the conclusion of Mr. Long's solo, the Elks gathered around their departing friend to bid him good-by and Godspeed, when Mr. Phelps very feelingly expressed his deep sense of gratitude for the tokens of affection shown him, and his regrets at leaving the city he had always called home.

At 1 o'clock Mr. Phelps took the train for Heppner amid the good wishes of his numerous friends who escorted him to the 4 o'clock train.

AN OLD AND WELL-TRIED REMEDY. Dr. Williams' Pink Pills for Pale People have been used for fifty years by millions of mothers for their children while teaching, with perfect success, the simple, safe, and sure way of curing the child, softening the gums, always all pain, cure wind colic, and is the best remedy for diarrhoea.
