The railroad is not yet a thing of realicy; but every day brings it closer. Much work has been done in the past two weeks; and much remain to be done. THE SECRET IS OUT.

Hunting Party Tells Why H Shot Decoy Gees

ED TIMES-MOUNTAINEER: I see in your valuable paper an ac count of four gentlemen going across the river hunting. It spoke about me shooting some decoy geese. Now, Mr. Oregon manufacturers opened Wed- Editor, that is so. I shot at them with the full intention of killing them, but there are some other circumstances attached to that hunting trip that I will try and explain, and when I get through you will not wonder that I shot at the decoy geese.

We started up Klickitat mountain on this side with Bill Gilmore and Tom Ward in the front seat, Dennis Bunnell and myself in the back seat. Before we got half way up the hill they became very talkative, they got to talking about stage driving and iquidating their indebtedness to the killing Indians. Bill said his father county. Only a few more days remain came to The Dalles in 1811. At that time I got interested and asked Bil how old be was when he came herehe said 14. Bill showed us where he killed three Indians at one shot. laughed, but he declared it was so Tom said he drove a stage from The Dalles to Canyon City for 33 years; said hedrove 18 horses at one time to the stage, and he proved it by Bunnell.

When we got to the top of the mountain and down on the other side, Tom and Bill began to get pretty lively. I think it was on account of the light air. They started the horses down the hill in a dead run and instead of seeing grouse they went so fast we couldn't have seen a bear. When they came to the road leading from Goldendale to Lyle they turned down toward Lyle, and all at once Bill stopped the horses and Tomgot out and said he was sun struck. From the way he staggered I thought he had been struck by some-

He went to the house and inquired of a lady if there were any stray cattle around there. "I have 1800 head running around here somewhere" said he, and the lady looked at him as though she thought he was sun struck. Bill made it back to the wagon and I said to him we had better go back to get the stage driver. so we turned the team around and drove back where Tom was sleeping. He was so hot that he couldn't swallow water. I took the stock off my gun and put one end of the barrel down his throat and poured water in the other end and managed to cool him off. Then we started up the road, and by the way, we had a dog with us and they had run the poor thing nearly to death. When we got to the forks of the road we started up the one that went to Goldendale. The dog was so warm he didn't know what to do, but he sat down and howled a few long pitiful howls as good as to say "if you don't rent had been paid, that is the water know what you are doing I do," and expense for the present year will be struck for home. We drove on about \$273 instead of \$746. From this source,

you or anyone else would blame me cil thought, to estimate this expense thing else.
