CALIFORNIA GOLD DISCOVERY

It has long been acknowledged that James W. Marshall was the discoverer of gold in California, and to him has been accredited that honor so long that it is useless at this time to attempt to detract from his name 'that connection of "descoverer." It would in New York. be like an attempt to take from Columbus the honor of having discovered America. Still, there were those who of luxury; had never known what it were entitled to as much credit for the discovery as was Marshall, for it was was to earn a meal, to exercise a care in the supervision of business, or even purely accidental that the discovery was made, and it was accidental that Marshall was the man who found the shining metal that brought the Pacific coast to the front as a great wealth producing country.

General John Bidwell, a California to the sens. oneer of 1841, has been lecturing before the California Pioneers on the discovery of gold in 1848, the credit for men's sons. During the early life of which he gives to General Sutter rather young George his father was struggling than to James W. Marshall Marfor position and existence. The boy shall picked up the first nugget, was made the companion of the father but that was a mere lucky accident in his labors. He was taught to grasp while but ' for Sutter's money knowledge and at the same time to rely and enterprise in establishing a saw upon himself, to know that upon his mill, the gold discovery would never have been made by his workman, Marhall, says the Oakland Enquirer. A life. Their education was entrusted to deal of argument has been exhirelings. They were never made the ied in times past over this question whether Sutter or Marshall was enthe father, and means with which to titled to most credit for the discovery, satisfy their every desire were conbut the fact is that neither man did stantly at their command; consequentanything to earn many laurels. There ly the sons were not prototypes of the was really very little reason for erectfather. Is it any wonder the son of ing a monument to Marshall for the George is a success and the sons of gold discovery, as it was only chance Pullman are failures? that carried him to the finding of the gold rather than some other person. The men who really deserve credit in connection with the mining development are those who followed in the obscures the future from the present, wake of this accidental discovery with and gazes into what is in store for the scientific study and courageous enter-Pacific coast during the next few years. prise; those who followed the first clue he can but see a vision of unprecefrom the creek in which Marshall work that cannot but bring good times stumbled upon it through the mountains and up the channels of a hundred to the coast, commencing with the prosperity that has been created by streams, and proved that the precious metal was not a product limited to one the immense crop of cereals harvested or two spots in California, but was dif- this fall. AN UNREASONABLE DEMAND.

A reporter at Baker's City Representative Ellis as saying that if "an attempt should be made in concress to pass a bill for free coinage of silver by the United States alone, he would most decidedly vote against it." Also, that "the time was when he en-tertained different views, but that time is passed." Mr. Ellis should put this statement in a public address, so it may be understood that there is no mistake about it. Men cannot be held to accountability for private conversations on matters of public importance. Hearsay is always doubted.

Oregonian. The Oregonian is indeed exacting n refusing to accept ordinary pledges of fealty to party from any public man who has ever looked upon silver with favorable gaze. It insists that they

shall swear never again to eyen let the thought of free coinage enter their brains. Almost anybody but the Oregonians would have accepted the for the statements of Senator Mitchell made on the stump last fall that he stood by the St. Louis platform on the money question. His former friends who were ready to support him because of his friendship to silver accepted his statements as true, and at once foreswore their allegiance. On account leave them under servilance. The of his statements that he supported the national republican platform, men who were elected to the legislature pledged to support him for re-election

bellion. Rebels prosecuted for com- withdrew their support, and joined with those who were working to accomplish his defeat. Everybody in some of its followers, saw in Mr. Mitchell no longer a friend of silver,

"Those suffering sentences imposed but one who had followed the lead of prior to the date of this edict will have his party along the lines that were their sentence cummuted to a certain certain to result in nothing except the witched them before marriage, and extent, and perhaps in some cases in gold standard.

So will the statement of Mr. Ellis that he would "most decidedly vote against free coinage," be accepted by residence, which they will designate the advocates of silver as plainly defairer creatures.

and which will be communicated to fining his position, to the extent that should he be the nominee of the reresidence outside the principal towns, publican party for congress next year none of them will vote for him. By this statement he has alienated the silver republicans, and they will hereafter class him with the gold element. No more positive proof than his statement should be demanded by the Oregonian or any other gold-standard there is no possibility of its falling beadvocate. It is absurd that he should low the price fixed by the mints. As be required to hire a hall or proclaim his loyaity to gold from the housetops. The Oregonian asks too much, asks

more than is reasonable; the proof it demands is more than is required, for Mr. Ellis has already said enough to drive all the silver republicans from him, and he has no other place to fall. than with the gold advocates.

IS A DEMOCRAT STILL.

Though battered and beaten, and And now Congressman Ellis, the after having made a good fight for a to square itself when accused of inerstwhile friend of silver, announces he erstwhile friend of silver, announces he after having made a good light for a consistency.
