A Wealthy Iowa Merchant Shot While Holding a Store. Cuban Insurgents Eject Officers of a Granite Man In Trouble.

SAN FRANCISCO, Dec. 3.—The Call says: The report that the Russian government is buying large quantities of army supplies in the United States has been verified. Cable messages from Vladivostok stating mechanics to bid on large lots are frequently received. Yesterday Dodge, Swaney & Co. of this city, received a Vladivostok cable to figure on 1200 tons of supplies.

Travelers arriving from Asia report that the garrison at Vladivostok has been largely reinforced by the arrival of troops from Stankov and sailing vessels from the Black sea.

The concentration of Russian troops at that point and the haste that Japan is making to increase her power on the sea leads some of our mechanics to predict that the impending conflict between Russia and Japan may open as early as next summer. The recent heavy orders for army supplies to be forwarded to Vladivostok are regarded as a significant of important movements to the Orient.

It is believed the completion of the transiberian railroad with its termini at Vladivostok will largely increase the trade of San Francisco, and there is talk of establishing a line of steamers to that place, touching at Alaska ports. A local subsidy of \$25,000 a month has already been subscribed for an Alaskan line.

A Merchant Burglar Killed. BRIDGE PLAINS, Mo., Dec. 3.—A. E. Sibbey, merchant in official, was shot dead while robbing a neighbor's store. The safe in his private apartments has been opened. In the safe were many diamond rings, gold bracelets and jewelry of every description, including 17 gold watches. Dry goods that had been stolen by Sibbey were identified by Liscoomb merchants. Jonas Slesinger, of Hampton, identified clothing stolen from a car at Yanton, and for which the railroad company had settled. Mrs. Roby, of Yanton, found three packages which had been stolen. Sibbey was reported to be worth \$40,000.

Work of a Fire Bug. PORTLAND, Dec. 5.—The incendiary who set fire to the building on the night of November 27 and who has had little difficulty in eluding the efforts of the police to find him, made his presence known again yesterday morning by nearly accomplishing the destruction of Columbia block No. 2, at the Alameda water front. The structure's plans were laid with all the cleverness which characterized his former attempts, but the flames here started were fortunately discovered before they had spread too far.

Minneapolis, Dec. 4.—It is reported at the chamber of commerce that the Peavey Elevator Companies have made a combine with the Pillsbury companies and secured control of not only the wheat in Minneapolis, but all the wheat in the Northwest. If this story is true Peavey and Pillsbury can sit back and let the price of wheat go where it will. They would be independent of any price speculators might make.

Fifty-Fifth Congress Organized. BOTH HOUSES ASSEMBLED

Seventy-Seven Senators and Three Hundred and One Representatives Answer Roll Call.

Appropriations Asked For are \$32,000, 166 in Excess of the Appropriations for the Present Fiscal Year.

WASHINGTON, Dec. 6.—At noon today the first regular session of the 55th congress was launched upon the unknown sea of legislation. Simultaneously both ends of the capitol, Speaker Reed in the house and Vice President Hobart in the senate, dropped their gavels and called to order the bodies over which they preside.

At the capitol crowds swarmed into the corridors at an early hour and checked the marble steps as they ascended to the galleries from which they were to view the show. As is usual on such occasions, the reserved galleries were carefully guarded, admission being only by card, and the public had great difficulty wedging its self into the limited space set aside for it.

A frightful blizzard is prevailing, and it is impossible to see any distant objects. The blizzard, which began at 11:55 last night, was nine hours later, and was tearing down the grade from Durham toward Blackfoot at a terrific speed with two engines and a snowplow in advance. Midway between the two stations, the engines and snowplow were demolished, from what cause is not known. Both engines were completely wrecked, and it is thought both engineers and their firemen were killed.
