

ITEMS IN BRIEF.

From Wednesday's Daily.

Chas. Van Dusen, of Tygh Valley, is in the city.

Mrs. Katie Abund, is visiting Judge and Mrs. W. L. Bradshaw in the city.

J. M. Long, attorney for the O. R. & N., and A. H. S. Watt, tax agent for the company, were in the city last night.

One lone duck was before Recorder Simsport this morning to make amends for his misconduct, and was promptly freed.

This morning Messrs. Albert and Antonio Bettenger left for Los Angeles, where they will spend the remainder of the winter.

The populist and silver republicans of this county have called meetings to prepare for the coming campaign. It is time the democrats were taking some such action.

This morning T. A. Hudson, F. H. Sharp and J. C. Hostetter were called to Portland as witnesses before the federal court in the case of the United States vs. Seufert Bros.

There will be a special meeting of the G. A. R. and W. R. C. on Saturday, January 30, at 7:30 o'clock, at the G. A. R. hall. H. H. Learned, post commander, invites all old soldiers to be present.

The improvements that are being made to the brewery hill are first class. Crushed rock is being put in the road from the foot to the top of the hill, and a double track of road.

For some time past the public schools of Heppner have been closed on account of the prevalence of measles in that city, but the disease has now far abated that the schools have been reopened.

The U. S. jury in charge of Deputy Marshal Humphrey and accompanied by the attorneys for the government vs. Seufert Bros., after having examined the lands sought to be condemned, returned today to Portland.

Several years ago A. B. Hammond bought the old Oregon Pacific at Sherbrooke for \$100,000. Reports come that he has sold the property for \$1,000,000. This looks as if some rather queer manipulating had been resorted to.

The Yakima county democratic, free silver republican and people's party central committee, Friday night in joint meeting, adopted a resolution favoring the continuance of the alliance at present existing between the three parties.

If the projected railroad is built from Albany to the eastern boundary of the state, the Dalles will have to get a lively move on itself, or much of the trade that has been the Dalles' mainstay will be lost. But the Dalles can be depended on to meet the emergency.

It is estimated that \$12,000,000 in gold will be taken out in the Klondike region this winter, and everybody is wild over it. Last year Colorado produced more than double that amount, and it is expected that this year will be no less.

An agent for a Montana firm is buying up acreage in Marion county. The buyer purchases usually at so much per acre, generally paying a good price. The cattle purchased are not being shipped away, but are being bred in rented pastures.

The Sheep Growers convention to be held in the Dalles on March 1, will be one of the most important gatherings held in the northwest. It will be attended by prominent sheepraisers from all over the coast, and every phase of the business will be thoroughly discussed.

The stone used in the crosswalk laid across Second street by French & Co., is proving to be satisfactory. It was from Montpelier's quarry on Mill creek. That rock is demonstrated to be an excellent quality of building material, and will be used for the trimmings of the new school house to be erected at Academy Park this season.

Last night was an important event in the camp of Dalles Red Men. Three degrees were conferred, and the Red Warrior was conferred on three initiates. The degree work was followed with a banquet furnished by the appointive officers and braves, and corn and venison fanned in abundance as it always does when the Red Men indulge in sociability.

Several cases of stomach amputations have been reported in the county lately, but none of the patients have succeeded in surviving very long without his "bread basket," hence it may be inferred that the stomach, though one of the most troublesome organs, because so important, and vital, is worth three times a day, is by no means superfluous.

The town of Oakesdale must pay \$3,800 to Armstrong \$175 for a broken arm, caused by Mr. Armstrong falling from a defective sidewalk into a ditch on the night of October 5, 1917, having recently obtained a judgment against the city for that amount. Other cases might take this as a warning to keep their walks and public highways in perfect repair.

Again the fine hand of ex-senator Mitchell has been shown in dispensing federal patronage in Oregon. Dave Dunne has been appointed collector of internal revenue for the district of Oregon. The dispatch announcing the appointment does not say whether or not Mr. Blackman will be allowed to hold the office until the expiration of his term.

The Portland Daily Tribune is coming to the front as a formidable competitor of the Oregonian for the patronage of the northwest. It has recently ordered a fine run of galleys, which is evidence that it is thriving. Senator Mitchell and the Southern Pacific are making a commendable effort to get the Tribune well established, and do not appear to be negligent in their financial support.

One of Salem's school directors, Adam Olmst, has resigned to go to the Klondike, and Elvan Smith a member of the city council, contemplates doing the same thing. Of course neither of them was getting a salary that justified his foregoing the allurements of Klondike, and as there is no show for a pickup from the legislature or state fair for some time, they can afford to leave the capital city for a time.

People are rushing to Klondike little realizing that they will have to endure with small assurance that they will succeed in securing good locations or even avoid starving to death. Probably 100,000 will go there this year, if they can secure transportation, and perhaps of that number one in five

nearly all occupied which Rev. Wood had intended to use for preaching. The sermon was omitted and the altar call made and nearly the entire audience pressed to the front and several earnest prayers were made for the prosperity of the work and extension of religious interest. Devotional meetings at 2:30 this afternoon, regular revival services this evening at 7:30.

"As if brick were lying in my stomach is the description by a dyspeptic of his feeling after eating. This is one of the commonest symptoms of indigestion. If you have it, take Shaker Digestive Cordial.

Not only this symptom, but all the symptoms of indigestion are cured by Shaker Digestive Cordial.

So many medicines to cure this one disorder. Only one that can be called medicinal, because only one that acts in a simple, natural and scientific way. Shaker Digestive Cordial.

Purely vegetable, and contains no dangerous ingredients. Shaker Digestive Cordial tones up, strengthens and restores to health all the digestive organs.

Sold by druggists, price 10 cents to \$1.00 a bottle.

(From Thursday's Daily.

A. J. Bigham, of Dufur, spent the day in the city.

Messrs. William, E. E. C. L. D. W. and G. R. Pierce, of Goldendale, are in the city.

Mr. and Mrs. Fred Young, of Ridge-way, returned last night from a visit to Portland.

Club week is quoted at 70 cents here, though choice lots of bluestem are worth 70 cents.

Mrs. Charles Hansen, who has been visiting in this city, returned yesterday to her home at Hood River.

Today the jury for the February term of circuit court was drawn. The term begins on February 14.

Plumes must drop, but the shirt wearing will not be so holding in place for another season. So says dame fashion.

The populist and silver republicans will hold meetings at the court house next Saturday to arrange for the coming campaign.

A private letter from Princeton states that exceptionally fine weather prevailed here last winter, and so far there has been no loss of stock.

This morning George and William Moon started for Alaska. They go to join W. T. Wiseman, at Juneau, for the purpose of engaging in business.

In some lots of wheat have changed hands in The Dalles the past few days at 72 cents a bushel. This is the best price realized since the slump in wheat last December.

Fred Skibbe left this morning for Skagway, where he will open a lodging house. He left his business here in charge of his brother Antone, who is now host at the brick hotel in the East End.

Work of excavating for the addition to the Waco warehouse is being prosecuted, and the ground in front of the present building is being leveled off in nice shape to receive the new building.

The Knights of The Dalles will celebrate the anniversary of Pythianism at the evening of February 21. A committee has been appointed to arrange for the celebration, and probably a public meeting will be held.

The past few days of sunshine have caused R. E. Salmarsbe to long for the fishing season to return, and he is busy himself arranging his fishing outfit. Among other things he is preparing for the front season is a homemade fishing rod, that he is constructing out of Ohio hickory.

The altar for the new Lutheran Church, which was made by Pierce Bros. at Goldendale, was brought over that place yesterday and has been put in place in the new building.

The new warehouse in Waco is one of the handsomest pieces of workmanship ever put up in the northwest.

Today A. Anderson contractor, completed the new warehouse on First street and the work was accepted by the owner, Sam Wilkinson.

The warehouse is 110x32 feet, has three floors, and is supplied with an elevator and steam wood press. Throughout it is a modern building and well appointed for warehouse purposes.

The importance of the town of Waco is shown by the amount of freight that is forwarded to that place. At present Waco is receiving from one to two cars of merchandise every day, which indicates that an immense business is done there. The Dalles will have to look well to its interests or Waco will get lots of its former trade.

Last Monday Wm. Brune, who lives across the river in Washington, celebrated his 50th anniversary with one of those pleasant neighborhood gatherings that cement friendship and make people thankful that they are. Quite a number of Mr. Brune's friends from The Dalles were in attendance, and they report it one of the pleasantest events of their lives.

The Dalles bowlers will look upon the following from the Solo News as rather dandy: A Solo bowler took a regulation ball with such English and peculiar force that the ball knocked the two side pins down, (the pins being set up for cocked ball), leaving the center pin standing. The ball struck the right pin first, rebounded to the left pin, knocking them both down with one ball.

That Klondike craz is going to draw heavily on every section of the state, for there are people everywhere who will go to Alaska this year to seek a fortune, and everyone who goes will take with him enough means to live on a year, hence just so much money will be taken out of circulation, but the fellow who stays at home and raises something for the Klondikers to eat will be the one who makes money.

The Dalles can certainly boast of its climate if nothing else. Here we enjoy spring-like weather, while our neighbors on every hand are experiencing the chilling blast of winter. The past few days Portland has had good sleighing, and at Camas Prairie, 45 miles from Pendleton, the mercury has registered 36 degrees below zero. Certainly Dallestes should feel thankful that they have chosen such a climate as this for a home.

The Times-Mountaineer is truly grateful for the numerous complimentary notices given the special illustrated edition, and would be pleased to reprint all of them, but space will not permit. Hardly a paper on the coast that has received a copy but proclaims its merit. The Dalles and vicinity will testify to it that the paper is circulated throughout the east, this section will derive a lasting benefit. We have done our share toward advertising the country, now let others do theirs by giving the paper circulation.

The meetings still continue at the Methodist Church. Last evening, after the song service, the pastor said, "The meeting will begin just where it left off last night, with a testimony meeting. There was a ready response, two and three standing at the same time to testify. The meeting continued this way until the time was

LET'S LOOK TO OUR INTERESTS

A Move on Foot That Threatens the Business of The Dalles.

The following item, which is somewhat interesting The Dalles, is taken from Sunday's Albany Herald:

"Recent developments in the affairs of the O. C. & E. railroad show that it was a fortunate thing for the Williamsatte valley when Mr. Hammond secured control of the old Oregon Pacific. He proceeded at once to put the road in first-class condition, and now comes the welcome news that after years of waiting the road is to be built to an extent which will benefit the Dalles. "Recently an effort was made to buy the Corvallis & Eastern Railroad Co. as fully incorporated for the purpose of carrying out this important undertaking, and the plans as outlined in the articles of incorporation are now being carried out.

"A. B. Hammond, president of the road, will arrive in Albany tomorrow, when, it is learned from a reliable source, a deed will be executed, transferring the entire property of the O. C. & E., including roads, rolling stock, lands, etc., to the Corvallis & Eastern Railroad Co. Soon thereafter it is also learned, a blanket mortgage will be executed to a New York company, composed of foreign capitalists, and first mortgage bonds will be issued for something over \$10,000,000 for the purpose of building the road to an eastern connection and constructing branch lines.

"The plans as outlined in the recently filed articles of incorporation of the new company, whose principal place of business is to be in the city of Albany, call for the purchase of the 132 miles of completed track of the Oregon Central & Eastern road, the operation and construction of a railroad line from Yaguina bay to Snake river, near Ontario, in Malheur county, Oregon, along the route originally planned by the old Oregon Pacific Company, also the construction of a branch line from a point near Prineville southward through Lake and other southeastern counties to the California line.

"The papers for the entire deed have been drawn up, and the ten million dollars is ready, awaiting the execution of the documents, and within the past few days several lots have changed hands from 85 to 70 cents a bushel, according to quality.

The state league of republican clubs meets in Portland next Tuesday, and it is expected 1000 delegates will be in attendance. Most of the delegates elected by the McKinley club will attend.

The Hale & Kern Contracting Co., of Portland, has secured the contract from the government for building the jetty at Gray's Harbor, Wash. Their bid for doing the entire work was \$700,000.

Mrs. Capt. Waud went to Portland today to attend the funeral of Mrs. F. Ruffeno, who died at 2 o'clock yesterday morning. Mrs. Ruffeno was the mother of William Ruffeno, the steward on the steamer Regulator.

Each day the D. P. & A. N. boats are taking down more or less wheat from The Dalles to Portland, and besides the wheat they are handling a considerable amount of local traffic in addition to the regular freight from Portland to The Dalles.

E. E. Lytle, president of the Columbia Southern railroad, is in the city. Mr. Lytle says his road is preparing to push on south from Waco this season. Already they have ten miles of survey made, and grading will commence as soon as the frost is out of the ground.

Hardly anyone in this or Sherna county but has some friend in the east who wants to know something of this country. No better way of giving the information is presented than sending a copy of the souvenir edition of the Times-Mountaineer. Copies are sold five for \$1 or 25 cents for single copy.

Rev. T. Devitt, Talmage, of Washington, and Mrs. Elmer McCutcheon, Collier, of Allegheny City, were united in marriage last week. On the following Sunday he preached a sermon strongly advising young women not to marry until, unless they could marry well. He took good care that he did not preach this sermon the week before.

The Pendleton Tribune says San Francisco capitalists are interested in a scheme of developing water power on the Umatilla river with a view to putting in factories and furnishing power to those who want it. Nothing definite is known of the movement yet, but it is said steps will be taken to define the rights now owned by W. S. Byars. He will probably be given an interest in the syndicate.

The Elk's charity committee are finding an abundance of calls, and many very deserving cases have come before them which have been promptly relieved, while some cases have been presented that are in no way entitled to assistance. The members of the committee have been very careful in examining into every case brought to their knowledge, and every one who is deserving has been promptly aided.

Seeds have been sown at Waco that will cause a sort of coolness between the city and The Dalles. It is an account of an act of the "dammymites" of Waco as reported in the News. They have sought to perlin two Dalles citizens, "Dutch" McCoy and Judd Fish, and into them away from a life of recidivism, while some cases have been presented that are in no way entitled to assistance. The members of the committee have been very careful in examining into every case brought to their knowledge, and every one who is deserving has been promptly aided.

The prodigal daughter.

The prodigal son may return, but how about the prodigal daughter? As far as the world is concerned there is no money for the prodigal daughter. The son may walk in the mire and filth of pollution, feed upon the husks of sin and infamy, and if he will come back in becoming raiment, and knock at the door of society, he is eagerly received within its portals; marriageable daughters simpler and smile sweetly, and fond mamma are very gracious and kind in feeding it their womanly duty to encourage the fellow to do better now that he has sown his wild oats. But the prodigal daughter—ah, hush! Breathe not her name with relief, while some cases have been presented that are in no way entitled to assistance. The members of the committee have been very careful in examining into every case brought to their knowledge, and every one who is deserving has been promptly aided.

Senior Thurston has gone over to the opponents of Hawaiian annexation, because of the alarm for the interests of the bill. Mrs. Bailey's about this is entirely groundless. If all that land in Hawaii was devoted to sugar culture it could produce but a very small proportion of what the United States consumes. At present the total production of sugar in the archipelago is less than \$10,000,000, while the United States buys over \$101,000,000. There is every reason for expecting that the culture of sugar will give way to that of coffee, to which the islands are readily adapted, and which is much more profitable than

sugar growing. We buy annually about \$22,000,000 worth of coffee, and our consumption is constantly increasing.

SPECIAL SCHOOL MEETING.

A Levy of 7-10 Mills Made for School Purposes and to Pay the Interest.

A special meeting of the voters of school district No. 12, was held at high school building this afternoon for the purpose of levying a tax to pay current expenses for the coming year.

The meeting was called to order by Chairman O. D. Doane, who after stating the objects for which the meeting was called presented a statement showing the estimated receipts and expenditures of the district for the year, based upon the receipts and disbursements for the past year.

The statement submitted showed the following:

ESTIMATED RECEIPTS.

From county tax fund..... \$ 3,320.00
From state school fund..... 1,361.26
From tuition..... 500.00
From special district tax..... \$1,189.14
Total..... \$ 6,370.66

ESTIMATED EXPENDITURES.

Salaries teachers at present..... \$ 8,955
Salary one additional teacher..... 450
For school supplies..... 300
Salary clerk..... 300
Interest on bonds..... 1200
For fuel..... 300
Supplies and repairs..... 600
School desks..... 200
For other school purposes..... 220
Phone..... 144
Total..... \$13,371

After reports had been submitted and discussed, a resolution was introduced and carried by unanimous vote levying a tax of 6 mills for current expenses and 1 mill to pay interest on bonds.

The taxable property of the district for the coming year was ascertained to be \$1,172,479.73 mill tax on this amount will create a fund of \$8,798.52 provided it is all collected, leaving a balance of \$604.46 to apply on the original indebtedness. However, it is hardly probable that all the tax will be collected, hence about all the revenue created from the levy of 7 mills will be required for current expenses and meeting interest payments. There is at present delinquency on the rolls of '94, '95 and '96 to the amount of \$1,172,479.73 mill tax on this amount will create a fund of \$8,798.52 provided it is all collected, leaving a balance of \$604.46 to apply on the original indebtedness. However, it is hardly probable that all the tax will be collected, hence about all the revenue created from the levy of 7 mills will be required for current expenses and meeting interest payments. There is at present delinquency on the rolls of '94, '95 and '96 to the amount of \$1,172,479.73 mill tax on this amount will create a fund of \$8,798.52 provided it is all collected, leaving a balance of \$604.46 to apply on the original indebtedness.
