NEW YORK, Feb. 4 .- A dispatch to the Tribuce from Havana says General Blance has returned from a trip to the western provinces, which, put in the best possible light, has failed to come up to the expectations raised in Madrid. The situation is that persuasion has failed to win the insurgents to antonomy, and the army has had no etter success. The intransigents have their remedy. They are making threatening demonstrations against the captain-general, and telling him the situation is insupportable, and that the only practical solution is for him to go home.

Though Weyler has many partisans, they do not look for him to return to Cubs in command. The recall of Blanco would be a confession that his policy has been a failure. It is not expected that the Sagasta ministry will confess itself out of office in this manner. They talk vaguely to the effect that the army must be made supreme in enforcing peace, as though the army

TROOPS START NORTH.

Relief Expedition Sailed on the Steame Elder Saturday PORTLAND, Feb. 6.-With 371 pas engers, including the first detachment of troops for the Alaska relie expedition, 56 horses, 50 dogs and 1150 tons of freight, the steamer Elder left Alaska wharf for the far north, at 10:30 o'clock, last night. Though the wharf was well filled with sightseers, it was not crowded to suffocation, fo many of the Eider's passengers were from outside of Portland, and had no

friends here to see them off. Some 200 tons of the Elder's freight was for the government relief expedition, 400 tons was miners' outfits and 550 tons general freight. All the freight save a few outfits was aboard within. Its power of resistance is and objecting dogs were taken aboard while the passengers were embarking. Into the City From the East, The work of covering the brewery hill with crushed rock, that was coun menced by the city about a month ago is at present about completed

The city rock crusher was stationed about half way up the grade, and from that place crushed rock has been hauled each way from the foot to the top of the hill, and the road has been covered with from six to 18 inches of fine rock, which when packed will make a very durable and solid road bed. The imprevement reaches from the East end of Second street to the city limits, a distance of half a mile, and makes of the brewery grade, which for several years past has been in fearthe female attaches of the theater, mize with your stomach. For use in the county. The cost of the work when ful condition, one of the best roads ly whom he accused of stealing \$140 from such a climate, and under the trying completed will be about \$500. The expense is born by the city, the work

having been done under the super-

vision of Marshal Lauer. Now if the county would take up the work where the city has left off, and cover the road as far out as Eight-Mile with crushed rock, the most generally traveled throughfare in the county would be put in splendid repair. The expense of doing the work would no be so great from the city limits on the south as it was on the brewery grade,
