The printer's best friend is the man or woman who gives him items of news. There are people we know, however, who have such a prejudice against telling a newspaper man anything, that if they did they would say a thing about it. If a baby is born to you, give it in for publication—that is, the item, not the baby. If you have visitors send their names and residence. If you have made a successful business speculation and have money in your pocket, give it to us—that is, the item, not the money.

SILVER MEN MEET

Enthusiastic gathering of the Silver Forces last Saturday.  
It was a red letter day for the silver forces of Wasco county last Saturday. The first meeting was that of the silver republicans in the afternoon which was well attended by representative men from different parts of the county.

The meeting was organized by the election of Dr. Sanders as chairman and M. J. Anderson as secretary. The first order was a motion that the silver republicans unite with democrats and populists during the coming campaign, and the motion received the unanimous vote of those present. This question having been decided, the meeting then took up the question of how a union could be best accomplished and a motion prevailed requesting the silver republicans, democrats and populists to meet in convention at The Dalles on the same day, and that a committee of three be appointed from each convention to determine upon the plans for union, distribution of offices, etc.

Later a silver republican club was organized by the election of Dr. Sanders, president; Brent Dufur, vice-president; and Douglas Dufur, secretary. After the appointment of committees for the different precincts, the meeting adjourned.  
At 7 o'clock in the evening the members of the people's party met and organized by electing H. S. Turner, chairman, and A. L. Reese, secretary. The meeting was addressed by a number of prominent populists on the question of a union of the reform forces, at the close of which a motion prevailed that the three organizations present that a union be formed with the democrats and silver republicans of Wasco county for the coming campaign. Then a motion prevailed that the people's party club be organized, and A. L. Reese was elected president and L. S. Turner secretary.

At the close of this meeting a large number of members of the bimetallic league of The Dalles were admitted, and a sort of informal meeting was held at which democrats, populists and silver republicans spoke and expressed their willingness to form a coalition of the reform forces in the county and state to battle against the gold standard and boomism. At the close of the three rousing cheers were given union, silver and reform, and the walls of Wasco county's court house fairly trembled from the shout that went up against the single gold standard of Hanna & Co.

Mrs. Mary Bird, Harrisburg, Pa., says: "My child is now well millions to me; I had had her for many years and had not invested twenty-five cents in a bottle of One Minute Cough Cure." IT RAVALS KLONDIKE  
Ore Discovered in Grant County That Goes \$16,000 to the Ton.  
Last year several rich ledges of gold-bearing quartz were discovered in the Susanville and Grant county area. Also have several rich discoveries been made in mines in the Granite and Robinsonville camps, but the latest and richest of all, similar in many respects to the Klondike strikes, has been disclosed near the famous old mining camp of Canyon City. The Eagle in receipt of the following relative to the discovery: "Some excitement is prevalent here in Canyon City by the recent strike in the Granite north mine, situated about two miles southeast of Canyon City. The Granite North mine is owned and operated by Isaac Guker, having located the same in September, 1886. Two men have taken over \$1000 from the claim with a mortar and pan during the past week. The gold is being taken from a vein 12 to 18 inches deep, in which there is an exceedingly rich ledge 12 or 14 inches in width, and which makes an average yield of \$8 to the pound, aggregating \$16,000 to the ton. In one instance \$22,500 was secured from four pounds of discovered quartz.  
"The surface prospects about the same for 35 feet. One shaft is 18 feet deep, and about ten feet from the cut, is equally as rich.  
"There is a tunnel on the claim 25 feet long with rich prospects besides the ledge, which is very rich quartz. The gold is mostly wire gold, with some four gold.  
"It was on Mr. Guker's claim that Clark Bros. found the pocket last fall which contained \$1500."

Be not deceived! A cough, hoarseness or croup are not to be trifled with. A dose in time of Shiloh's Cure will save you much trouble. Sold by Blakely & Houghton, druggists, The Dalles, Or.  
A Western Rustler.  
"Jack Dalton," who gave the name to the "Dalton Trail" in Alaska, is a

Harney county, Or., man. His real name is Jack Miller, and he is a typical lawless killer. He killed two men, both in self-defense; one in Harney county and one in Alaska. The one in Harney was named Egan. Jack was too quick for Egan, "got the drop" on him and was exonerated by a coroner's jury. In the year 1886, Jack brought two fine horses into Harney county. They were claimed by Unatilla men, who sent six officers with a warrant for Jack. But he got away, went to Alaska, and changed his name to "Dalton." Five years ago in Alaska he killed his second man. He spent \$30,000 in making the "Dalton Trail." He was a Junco merchant while he is now interested in transportation schemes at Dyea and Skagway. The Harney County News describes him as "a man of dauntless courage, generous and true, who belongs to the famous wild-turkey breed of Western home-builders."

An Old Veteran Gone.  
Jacob Fritz Answered the Last Call to Tap.  
Jacob Fritz is no more. He breathed his last at his home on Liberty street last night after a long illness with kidney troubles, surrounded by his family and friends. In his death The Dalles has lost a good and respected citizen, and the nation a man, though an adopted son, who gave many years to its service.  
Jacob Fritz was born in Nassau, Niederzengheim, Amt Hadamar, Germany, October 14, 1828, and with his parents came to America when 16 years of age. They located in St. Mary's, Penn., where deceased was deemed to have a good education for the occupations of his father. Shortly after arriving in his majority he entered in the regular army, being detailed to service at Fort Brady, Mich., in the Fourth U. S. infantry, under Col. Brady, and was attached to the quartermaster's department as quartermaster sergeant. At the expiration of his first enlistment he re-enlisted, and was attached to the First Cavalry, where he was ordered to the Pacific coast.  
With his regiment Mr. Fritz came by way of New York and the Isthmus of Panama to the coast, arriving at Vancouver, Wash., in the fall of 1852. While crossing the straits, he met and Lieutenant W. B. Grant afterwards (general and president) were in charge of the commissary department, hence were in the rear of the main body which was stricken with cholera, when 150 soldiers fell victims to that dread disease.  
Arriving at Vancouver Mr. Fritz was retained as clerk in the quartermaster's department, and served in that capacity until the breaking out of the civil war when he was honorably discharged from the regular service, and enlisted in the Oregon volunteers, and served until the close of the war. When peace was declared Mr. Fritz came to The Dalles and had charge of the commissary of the post here until it was abandoned. While at Vancouver he also acted in the capacity of government agent between Vancouver and Fort Huachuca.  
In 1875 he entered the employ of the O. S. & N. Co. as storekeeper and clerk, which position he held until that corporation merged into the O. R. & N. Co., when he was given the position of storekeeper, and held it until the time of his death. In 1866 Mr. Fritz was married to Sarah A. Collins, a native of Rochester, N. Y., at Vancouver. The result of this marriage was ten children, five girls and five boys, all but three of whom, together with their wives, are still living. Those of the children living are Mrs. A. Baldwin, Mrs. Geo. C. Keoht, Mrs. Mary and L. S. and John Fritz, of The Dalles, Mrs. John C. Fleischutz, of Denver, Col., and Charles B. Fritz, of Boise, Idaho.

A BRUTAL DEED  
James Fritz said by William Ewing in Morrow County.  
On Wednesday the 2d, a farmer by the name of William Ewing, who lives on Willow creek in Morrow county, about 20 miles south of Arlington, shot and fatally wounded James Fritz, a sheep herder, of the employ of C. A. Rhea. From what can be learned of the shooting it appears to have been a brutal and cold blooded affair.  
Some of the sheep Fritz was herding had got onto Ewing's land. Ewing was called to his aid by Rhea, and taking two young men with him, went out where the sheep were with the intention of driving them into an enclosure and keeping them until Rhea should pay him damages. Fritz objected to Ewing herding the sheep, and started toward Ewing, having a light case in his hand. When only a few steps away Ewing fired striking Fritz in the right side. He fired a second shot that took effect in the herder's right arm. After the shooting, Ewing left the wounded man lying on the ground, and calling his assistants corralled the sheep.  
Fritz was so badly wounded that he could not walk, and being abandoned by his assistant, crawled a mile to his cabin. Dr. Geisendorfer, of this city, was called to attend the wounded man, and found him in a very dangerous condition, there being but little chance of his recovery.  
Ewing has been arrested and taken to Heppner, where he is being held in jail.

On a Kimbark.  
Deputy Sheriff F. W. Kimbark, of Peedilton, recently took a prisoner to Salem and deposited him in one of the lock boxes there for safe keeping for two years and six months, says the Baker City Republican. One of the cardinals on the Statesman got his feet and lead pencil tangled up with his brains and note book and announced in his journal that the prisoner was F. W. Kimbark. As a matter of fact, Mr. Kimbark has none of the earmarks of a criminal, so he had no trouble at all in convincing the Statesman that "some one had blundered."
