THE ASIATIC FLEET IS SAFE, It Has the Spaniards Thoroughly Whipped.

TOOK THE WHOLE FLEET, Dewey Didn't Leave a Thing of the Spanish Fleet.

WASHINGTON, May 7.—Advices from Hong Kong just received say a dispatch boat has arrived from Manila with letters from Commodore Dewey in which he says he destroyed the entire Spanish fleet at Manila on Sunday morning. He did not lose a man, and had only six wounded, while the Spanish loss was 300 killed and 400 wounded. Dewey assures the government that he is in full control of the Manila harbor and city, but cannot hold the Philippine islands without the support of aid forces. The cabinet is now in session considering the necessity of sending Dewey relief, and it is given out that orders will be issued for all troops west of the Rocky mountains to mobilize at San Francisco at once. The steamer Queen, of the Pacific Steamship company, and the Asiatia, of the Oceanic company, have been chartered to transport the troops to the Philippines, and other vessels will be secured to carry provisions and munitions of war.

OREGON MILITIA IS DISGUSTED, Their Ranks Thinned Out by the Government Examiners.

PORTLAND, May 7.—The examination of the militiamen at Camp McKinley has been very rigid, the doctors having demanded that the national guard more effectively than Spanish bullets ever will. Only about 40 per cent. of those enlisted have been accepted, and in consequence those who have been rejected are disgusted, and it is having an effect upon those who have been taken into the service. They do not feel disposed to remain in the service while their brothers in arms are left at home. However, there is little probability that enough will remain in the service to make up Oregon's quota of 12 companies, and they will be a picked lot of men—a good array as was ever mustered into service.

For Over Fifty Years, AN OLD AND WELL-TRIED REMEDY—Mrs. W. W. Moore's Suffering Symply.

PORTLAND, May 7.—General Tuttle has been instructed that another call for volunteers has been issued, and is authorized to receive new enlistments throughout the state.

EFFECT OF TIME, A Woman So Old That Her Muscles Hung Like Shreds on Sticks.

PORTLAND, May 7.—General Tuttle has been instructed that another call for volunteers has been issued, and is authorized to receive new enlistments throughout the state.

PORTO RICO IS SILENT, Fails to Respond to a Challenge to Fight.

WASHINGTON, May 9.—A cable from Hayti says that Admiral Sampson challenged Porto Rico this morning, but there was no response from the batteries. The Spanish fleet has no evidence of life, and never fired a gun. The Spanish fleet was not sighted today, but it is supposed to be hovering in reach of the island.

IT IS REAR ADMIRAL DEWEY, The Senate Confirms His Appointment Unanimously.

WASHINGTON, May 9.—Last Saturday President McKinley sent the name of Commodore Dewey to the senate for confirmation as rear admiral. Today by unanimous vote the senate confirmed the appointment. Secretary Long carried the appointment to Dewey immediately after the vote was taken.

PROBABLY ONLY A RUMOR, Reported That Sampson's Fleet is Disabled.

PORTLAND, May 9.—It is believed here that Sampson had an engagement with the Spanish fleet off the coast of Porto Rico today and that he had several vessels disabled. The report lacks confirmation, and is not credited.

WILL RESIST THE INVADERS, Spanish in Manila Will Fight to the Last.

WASHINGTON, May 9.—A cable dispatch from Dewey states that the Spaniards in Manila are quiet at present, but will offer a stubborn resistance to American invasion. They have announced that they will fight as long as there is a man left to repel the invaders. His forces are not sufficient to justify his taking the city, as he would have no land forces to hold it after it should be reduced. The Spaniards are fortifying the harbor, and will be able to put a strong defense whenever he shall attack their strong hold.

Escaped Captive, BOSTON, May 9.—The steamer Roman has just arrived and reports having been chased by a Spanish warship to within 300 miles of the coast. She was able to show her heels to the battleship and kept out of the reach of its guns.

Ordered to Tampa, SAN FRANCISCO, May 9.—Two battalions of California volunteers and two battalions of heavy artillery have been ordered to Tampa. They will leave tomorrow, and it is presumed will be sent to Cuba.

Heavy Firing Heard, PLANTO PLATA, San Domingo, May 9.—Heavy firing was heard off the coast this morning. It is believed a halfhearted engagement between the American and Spanish ships at sea.

No Report From Sampson, WASHINGTON, May 9, 3:30 P. M.—Nothing official has been received from Sampson, and will not be received until tomorrow.

Fired on Refugees, NEW YORK, May 9.—A cable dispatch states that refugees from Cienfuegos bound for Jamaica were fired on this morning by a Spanish cruiser.

Oregon All Right, NEW YORK, The battleship Oregon arrived safely at Bahia, Brazil, today.

WOMAN AS A MAHOUT, The Views of One of the Drivers of Elephants.

She can do her best work in the world by turning her own talents to account to smooth the path of a man whom she can sway and who has all the possibilities before him. So when the woman does a halfhearted thing, that is her interest, to attend to all tireless details, so as to leave him as free as possible from petty cares and worries. Then the man can concentrate the whole of his energy in his work, and the woman's ambition is vicariously satisfied. She watches the friend brother and husband, and feels, with a half-conscious consciousness, that he for her his end would never have been attained. And this eternal watching and criticism develops in woman a greater power of knowing what men will do in particular circumstances. She has seen so often before that particular circumstances have particular effects in determining the actions of the workers. In the stress and hurry of the fight the man is not conscious which way the action is tending. He is absorbed in doing the duty immediately before him. The woman looking coolly can say to him: "See, this line of conduct must lead to this and this consequence; you have only to take advantage of the man and your success will be assured."

It is therefore because woman is essentially a looker-on that she is so invaluable as an adviser to man. To many a great man the advice of an Egeria, even an Egeria of an obviously inferior intellectual caliber to himself, is almost essential. She can watch and weigh the motives of his adversaries, she can calculate the probable effect of his own actions, and still more of his words she can criticize his past decisions and his future ones. She can say to him: "You are a mahout—a driver of elephants. The good with which she steers the animal is her love, but yet she knows as according to Mr. Rudyard Kipling every mahout knows, that some day, sooner or later, the great beast will get behind her control and may turn on her with a terrible punishment for the result of having kept him in subjection. For the ultimate force in life, physical strength, is against the woman as it is against the mahout—London Spectator."

TRANSPORTS HAVE BEEN SECURED, The Government Charters Thirty Vessels.

WASHINGTON, May 10.—The navy department has closed a contract for thirty vessels, capable of carrying 30,000 troops. They will be pressed into service at once in carrying the army to Cuba. It is the intention to land troops on the island as rapidly as they can be transported over from the main land.

ARMS FOR THE INSURGENTS, They Were Successfully Landed on Cuban Soil.

TAMPA FLA., May 10.—The graptob Gussie, made a successful landing on the Cuban coast this morning with arms for the insurgents. There was no resistance to its landing, and the goods and powder comprised provisions, arms and ashore, articles greatly needed in the insurgent camp.

Spanish Tramp Ships, NEW YORK, May 10.—It is believed here that the two missing Spanish line-of-battle ships, that have apparently been lost to the world the past three weeks, are sailing around the bay, either for the Philippines or to attack the Pacific coast. Possibly they may attempt to intercept the soldiers that will be sent to Dewey's relief. The cutting of the South American cable yesterday, indicates that the two Spanish ships are in Southern waters.

Bread Riot in Spain, LONDON, May 10.—Advices from Madrid are that there is terrible suffering among the poor people of Spain. A bread riot occurred there last night in which many people were killed. The city is still under martial law, and quiet is maintained only at the point of the bayonet.

Anxious for Aid, WASHINGTON, May 10.—A cipher dispatch has been received from the navy department from Dewey urging the United States to send him aid at once. Unless it is forthcoming soon there will be terrible loss of life throughout the islands, the insurgents having risen up everywhere wild for vengeance and Spanish blood.

WILL MOVE ON TO HAVANA, Fifteen Thousand Regulars and Twenty-Five Thousand Volunteers Have Started.

What Mr. E. A. Satter Says, BRITAIN, N. Y.—Genl.—From my personal knowledge, gained in observing the effect of your "Shiloh's Cure" in cases of advanced consumption, I am prepared to say it is the most remarkable remedy that has ever been brought to my attention. It certainly saved my mother from consumption. Sold by Blakeley & Houghton: The Dalles, Or.

Thanks to Dewey, WASHINGTON, May 7.—On receipt of Dewey's dispatch of May 4th, President McKinley called the following: "To Dewey. The president in the name of the American people thank you, your officers and crew, for your splendid achievements and conspicuous victory."

Change of Schedule, To all concerned: Commencing Monday, May 24, the steamers of the Regular Line will leave Portland at 6:30 A. M., and The Lafayette at 8:00 A. M. W. G. ALLAWAY, General Agent.

May Leave Tonight, PORTLAND, May 7.—Colonel Summers has received orders to take his regiment to San Francisco at once, and will probably leave by special train tonight over the Southern Pacific.

Prosperity comes quickest to the man whose liver is in good condition, Dr. Wm. W. Moore's Suffering Symply for biliousness, indigestion and all stomach and liver troubles. Sold by Kinnersly Drug Co.

Another Call for Volunteers, PORTLAND, May 7.—General Tuttle has been instructed that another call for volunteers has been issued, and is authorized to receive new enlistments throughout the state.

MOVEMENT OF THE ARMY, Fifteen Thousand Regulars Embark for Cuba.

WASHINGTON, May 9.—Tomorrow is expected to be a day of events in the present war. The two fleets are closing in on each other at Porto Rico, and a decisive battle is expected to occur tomorrow. The Spanish fleet consists of 17 vessels, several of which are the best ships in the Spanish navy. Sampson has all the American-Atlantic fleet within reach of the Cuban scene of battle.

The land forces to be sent to Cuba number 15,000 regulars. They will be sent to Cuba at once, and will invade the country as soon as they are landed. Havana will be the objective point, and one of the greatest battles of the war is expected to be fought there in a few days. Blanco's army is concentrated in and about Havana.

PORTO RICO IS SILENT, Fails to Respond to a Challenge to Fight.

WASHINGTON, May 9.—A cable from Hayti says that Admiral Sampson challenged Porto Rico this morning, but there was no response from the batteries. The Spanish fleet has no evidence of life, and never fired a gun. The Spanish fleet was not sighted today, but it is supposed to be hovering in reach of the island.
