Today a prominent republican was met on the streets by a Times-Mountaineer representative and asked how he liked Mr. Schoomaker's speech. His reply was: "I am glad it is not to be repeated, for if it were our cause would be lost. We can not hope to win votes by abusing our enemies. We must win them by argument, and if we have no convincing argument, our cause must fall. Schoonmaker is populace of their error.

If so it is sincerely sorry, for it would have been pleased if every voter in Wasco county could have heard Mr. Schoomaker, for his abusive style and gross misrepresentations is convincing evidence of the weakness of the gold standard cause, and has the tendency to drive votes away from the gold standard.

The amount of salmon packed on the river up to the present time is reported to be almost up to that of last season, says the Astorian. Notwithstanding reports to the contrary, many of the fishermen have made average catches and their deliveries at the canneries are fully up to those at the same time last season. Salmon have run steadily since the beginning of the sesson, which is considered rather unusual, as past seasons show that the run increases or lessens, as the case may be, before the 1st of June. The weight of the fish is above the aver-

age, ω pounds, but the past day or two they are reported to be increasing in size as well as in number.

Last evening James Blakeney start ed out on horseback to look for his yard on the bluff and started to drive gold man, who changed his ideas on cow. He found her near his brickher home. The cow took a notion to go in the opposite direction from home and made a run for the hills. Mr. Blakeney wheeled his horse quickly of bimetalism that is worth hearing. and in so doing the horse slipped and fell on his left leg and broke it just above the ankle. he has become acquainted. His place

of business is on Second street, a con-

of the greater portion of their mutton when the price was up. During the campaign of 1892, as in the present campaign, Judge Bradshaw made no political speeches. He is a democrat and always has been, but he rightly considers a judicial office above partisanship, there fore has never sought votes on polit-

ical issues. His record as an attorney

and a judge is his recommendation. This morning about 9:30 as China Sam, the vegetable peddler, was passing Louie Cemini's place of business on Second street, he was bitten on the chin by Mr. Comini's dog, that was in front of the store. Sam received quite a severe flesh wound, and was badly scared, otherwise was uninjured.

The outlook for wool is a little more encouraging than it was a few days ago. The Oregonian of June 1st, in its market report, quotes Eastern Oregon wool at 8 to 12 cents. The demand for woolens to clothe the army may cause it to go a shade higher. We trust that first-class Bastern Oragon wool may, on this account, reach 15 cents before the season closes.

MR. SCHOONMAKER'S SPEECH.

Disappointing to Republicans and Enco aging to Their Opponents. Mr. Schoonmaker's address at the opera house last night was a bitter diatribe against the opposition, in which empty, invective and unreasoning abuse took the place of argument. It will cost the republican party many votes in this locality. The speaker dubbed all who opposed him "copperheads," and referred to the patriotic men in the United States senate who oted for the recognition of Cuban independence, as belonging to the

'socialistic and anarchistic" element, and as "buccaneers" and worse than "copperheads." Many republicans who still hold their party are by no means lost to the sense of decency and propriety, nor do they forget that many patriotic senators of their own party, including Thurston, Foraker and Perkins, of California; Mason, of Illinois; Wilson, of Washington, and Chandler, of New Hampshire, as well as Teller Mantle and the other silver republicans, voted and fought for this recognition, and will resent an unwarrant ed attack upon their patriotism. But on the other hand, gold democrats, who listened to the harsh and bitter words, have been called "copper-

HORRIBLE ACCIDENT.

An Indian Has Both Legs Ground off by t Switch Engine

Yesterday afternoon about 4:30 the witch engine, in going from the depot to the roundhouse, ran into an Indian just in front of Sam Wilkinson's warehouse on Front street. The engine was going very slow at the time, and the Iodian was seen coming up the track, but the engineer thought naturally he would get out of harm's way as the bell was ringing. The redman still retained the center of the track and was struck by the tender and had both legs ground off. Dr. Doane wa immediately called and had the injured man removed to the city jail, where he was shown every attention possible, but the shock was too great and he died at 8:30 last night. Marshal Lauer found a bottle of alcohol on his person and undoubtedly he was in an intoxicated condition when the accident

happened. Coroner W. H. Butts held an inquest this morning with the following result: THE DALLES, Or. June 3, 1878. We, the jury called and sworn to inuire into the cause of the death of an ndian whose body now lies before us, after hearing the evidence of the dif-

ferent witnesses called and sworn find as follows: That the name of said deceased was Sam, his place of residence being Rock Creek, Wash., and being a member of the Rock Creek tribe of Indians: that he came to his death on June 2d, 1898, by being run over in Dalles city by switch engine No. 12 belonging to the O. R. & N. Co., which was at the time in charge of Engineer C. A. Brown and H. Willerton; we further find from all the evidence that the accident which resulted in his death was due to una-
