LOGIC AND FACTS.

The Speech of Hon. John J. Lentz Embodied Both.

Last Saturday evening Hon. John J. Lentz, congressman from the 12th Ohio district, addressed a large and enthusiastic audience at the Baldwin hotel, and members of all parties were free to acknowledge it was one of the ablest political speeches they had ever listened to. It would be impossible in a limited space to give a synopsis of Mr. Lentz' address, as it lasted for two and one-half hours, but that he covered every point under discussion for it is undeniable.

Some of the burden of official work that falls upon the queen may be gathered from the statement that in the course of last year her majesty mastered the contents of no fewer than twenty-eight thousand dispatches.

In the democratic days we are so accustomed to keep up-to-date in our minds the social side of the sovereign's duties that we are apt to forget how heavy is her share in the actual work of government.

Though her ministers are, of course, responsible, no official act of theirs is valid without her sanction, which is given without a thorough and conscientious examination of the question in hand.

But, in addition to her majesty's heavy state duties, there is the enormous private correspondence which her royal highness's family circle renders necessary and which she maintains with the most scrupulous and unaltered regularity.

This is probably the heaviest work of her life performed by the indomitable queen.
