STRANGE COINCIDENCES. me Instances of the Efficacy of Obeving

Queer Orders. The London Spectator lately had clever article entitled "The Tyranny of Coincidence." The example shown is of a lady who was driving outside of Athens. When the horses were halted one of the team refused his oats. The Greek coachman insisted that the horse was under a spell. The young Euglish lady had an "evil eye." man told Miss Symonds to spit-that was the only cure. The young woman was forced to go through the unladylike performance, and at once the horse took to his feed. "The coincidence rivited the chains of superstition upon the driver tighter than ever." Many coincidences of a similar character must occur to the reader. Here is a case: A child was told to put a fourleaf clover in his left shoe, and was assured "that he would be sure to find something." The little boy did so, and had hardly moved out of his tracks in a large grass-grown pasture before he found an old half-dollar of an ancient date, evidently lost years before. The drawn by two large horses. child was not superstitious, and fortunately the parents were not. The matter of coincidence was explained to him, and among other things he was plentifully supplied with four-leaf clovers, but he never found anything. The amulets or any material objects must owe its being to just such coincidences. Among those who are not educated it may be that the tyranny of coincidence does exist, but it should not hold with those having sound minds. We all have, however, a dark chamber in our

RUN GREAT RISKS. Reinsuring Delayed Ships. Reinsuring risks on vessels long over due and supposed to be lost is a game of chance in which speculative marine underwriters have been indulging. One of the vessels on which such big odds have been taken, says the Philadelphia Record, was the British bark Commander, which sailed on April 11 from Chittagong, India, for the West Indies and the Delaware breakwater, and has been given up as lost. Both vessel and cargo were insured as ordinary risk at the rates then current for vessels trading on long voyages. After three months had elapsed without the arrival of the vessel the original insurers placed their risks with other companies, paying twenty guineas premium and escaping took the new risk became alarmed at

to protect themselves they reinsured the vessel and cargo at forty guineas premium. As the loss of the vessel now appears to be beyond doubt those who ast took the risk will be called upon to pay a total loss. The British ship Munster sailed in Newcastle N S W and is believed to have been lost off Cape Horn. She is now being reinsured at eighty guineas premium. The ships Lord Spencer, which sailed from San Franeisco for Queenstown on April 9, and the Star of Austria, which sailed from

She made a plunge for it and whistled for the conductor to stop the concern. The con-

She ran like a rabbit, and it wasn't long before she had planted her tiny foot upon the step of the retreating car. "I felt disposed to applaud her for this

feat, but about that time she reached up and pulled the bell cord and stopped the car herself.

"The conductor and motorman looked up in astonishment. 'I simply want to wait for my dog to catch up,' she replied, to their inquisitive glances. "Now, all I have to say is this-that it that woman is a new woman, we need more of them to run this country. We need them particularly in the corn

That the celebration was a marked success in every particular cannot be denied by anyone who was in attendance, and to the various committees who had the management in charge much credit is due, and too much cannot be said in praise of Capt. John W. Lewis, chairman of the executive committee, on whom the entire supervision of the arrangements for the celebration devolved. For two or three weeks Capt. Ill Feeling Existing Between the Chinese Ruler and His Subjects.

The Speedy Downfall of the Present Dynacty Prophetically Announced—T Country to Be Divided Into Three Kingdoms.

Reports of a serious revolt against the present Chinese government in Manchurin and the issue of proclama tions by the rebels declaring that the Manchu dynasty is near its end have created a great deal of interest among the foreign colony in the treaty ports, says a letter from Shanghai. News that bears directly upon the reported disaffection in many provinces of China comes from Nanking. It appears that all up through the great valley of the Yangtse a finely written prophecy of the approaching end of Manchu rule is being circulated. It is almost impossible for a foreigner who has not lived that is given by the gentry to anything which is well written or carefully strongly violate the probabilities it

will be accepted as Gospel truth. This prophecy, says the Chicago Tribune, appears to be firmly believed by all the Chinese who have read it. It purports to have been written by Huan Peh-Shan, who in a vision describes the downfall of the present govern-ment. It shows considerable literary ability, but anyone who is skeptical may readily see that the author has thrown in local detail to clinch his

The sketch of the emperors of China is very well done, but this historical introduction appears to have been written merely to lull the suspecions of the reader and to induce him to accept the sensational statements about the cominces of Yunnan and Kueichou are the first that will abandon the empire After this China will be divided into three kingdoms, but this will not take place and permanent peace will not be secured until the woods are cleared from Purple mountain and the waters of Lotus lake are dried up. The specious nature of such a prophecy may be seen when it is stated that about all the forest has been cut off of Purple mountain, while in dry years one may walk over the bed of Lotus lake, which is converted into solid ground Any season of drought may therefore be taken by the conspirators with the assurance that the two main items of this prophecy will be found fulfilled. AN OLD AND WELL-TRIED REM-EDY.—Mrs. Winsiow's Soothing Syrup has been used for over rifty years by millions of mothers for their children while teething, with perfect success It soothes the child. softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world Twenty-five cents a bottle. Its value is uncalculable. Be sure and ask for

Mrs. Winslow's Lochinva who, according to the story, ran away with his bride, did not particle more devotedly

a story of truer manly devotion than the "humble romance" revealed by the following letter from Mr.

Harry Chant, of 211 Haskell Avenue, Dallas, Texas.

"About fourteen or fifteen months ago I was working with a gang of men and happened to say to one of them, "I hope it will not rain as I have a big washing to do for the children. The man said, 'What is the matter with your wife?'"

"For years my wife had been suffering from The man said, 'What is the matter with your "For years my wife had been suffering from what the doctors called prolapsus of uterus. She was nervous had cold hands and feet, palpitation, headache, backache, constipation, a disagreeable drain, with bearing down pains; no appetite. She got so weak she could not get around. I am only a laborer so was always in debt with the doctors, and all for no good, as none did her any good. We began to think that she was never going to get well."

"I told this man what the doctors said was the matter with her," and he said "did you ever hear of Dr. Pierce's Pavorite Prescription?" "I told him no, but I had tried so many patent medicines

him no, but I had tried so many patent medicines that I was tired of them all, and besides I did not have enough money to pay the doctor and the drug store. He said if I would get two or three bottles and try them, and if it did not do my wife any good that he would pay for the medicine. I went to the drug store (Mr. Clawber's on Elm Street), and bought a bottle. The first and second did not seem to have much effect but the third seemed to work like a charm. She has taken in all about thirteen bottles and she is to day as stout and healthy as any woman in the United States. This is not the only case. Whenever I hear tell of any woman who is sick in the neighborhood I just send the book and paper that is wrapped around every bottle and that does the business. I am no longer bothered about doing my own washing and cooking, for my wife can do it all in one day and never seems tired or out of spirits now."
