WASHINGTON, Nov. 18 .- The new points laid down by the Spanish peace commissioners in the answer presented by them at Wednesday's session of the joint peace commission will not be permitted to change the attitude of

the United States commissioners. These points were in substance, that the Spaniards could not permit any authority of the Spanish government to pledge the resources of the Philppines, and that they could not permit an accounting of the method in which the proceeds of this loan had been ex-

There is reason to believe the Spanish purpose is to conceal the enormous defalcations by Spanish officials who have governed the Philippines since the issue of the loan However the American commissioners are posted as to what sums have been expended in 'pacific expenditures" in the islands. Knowing this, the Americans can afford to ignore entirely the effort of the Spaniards to becloud the facts and will adopt the simple expedient of proffering a lump sum of as many million doltars as is deemed a fair and just tender for the Spanish properties, requiring and rendering no statement or calculations as made for the offer.

NEW YORK, Nov. 18 .- While a gang of 20 track hands was at work on the Pennsylvania railroad line near Jersey City today they were run down by a train. Eleven workmen were killed outright and six seriously

The train which ran down the workmen was a local from Millton, due at Jersey City at 8:30 a. m. A fog delayed the trian, and Engineer John van Ostrand was running at high speed believeing there was nothing to prevent a quick run to Jersy City. He only knew that he had run into the men when the engine jarred. Then the cries of the men were heard, and as soon as possible he stopped the

A train had passed on the westbound track a few seconds before the east-bound train ran the men down. The noise of the west-bound train prevented the men from hearing the approaching east-bound train. They were not aware that the train was near them until they had been scattered right and left.

ST. PETERSBURG, Nov. 20-The semi-official Journal in St. Petersburg repudiates the anti-American views with reference to the Philippine islands recently expounded by the Bourse Gazzette, which it declares in no way represents the views held in leading Russian circles.

Emperor William Finds Enough at Home.

BERLIN, Nov. 20 .- Emperor Wil liam's sudden abandonment of his in tention to visit Spanish ports and his Adriatic sea, landing at Pola and taking the train there for Potsdam by way of Innsbruck, has given rise to considerable speculation as to the real motive of his change of program. The official explanation giving the health of the empress as the sole reason for his majesty's rapid return is only partially accepted here.

The impression among leading politicians however, is that the state of home politics and the inappropriate eness of the visit to Spain at the present juncture, mainly influenced the emperor's decision. The imperial chancellor, Prince Hohealohe, represented to his majesty the necessity for an early opening of the reichstag. in view of the mass of work that body has to get through and suggested November 29 or December 1 for the opening ceremonies. Emperor William who intends to open the session in person thereupon decided to return directly. The ministers have all returned suddenly to Berlin and the greatest activ-

ity is observable in political circles. The discussion of the government's anti-strike measure promises to make the sessions of the reichstag extremely lively. It is suggested in some quarters that Emperor William's roundabout detour from Pola to Potsdam by way of Innsbruck, capital of the Austrian Tryol, was dictated by a plan empress of Austria and the discovery of a plot against the emperor's life at movements-namely, complete secrecy last days of these poor unfortunates a
