At the meeting of Jackson Engine Co. last night a letter was read from Fred Skibbe, a member of the company who is now in Skagway, in which Fred related his experience at a recent fire in the "frozen country of the north." The letter was dated November 25, and the writer said the mercury on that date registered 22 degrees below zero, hence as an old fireman he found it pretty cold work battling against the destroying element, an experience he was not accustomed to during such cold weather at the Dalles.

When a hobo applies for work at the city jail, begging is becoming unprofitable, and it is evidence that the people here are determined to cease bestowing charities upon this class of drunks. A professional tourist made application at the city jail this morning for work, and was given a job of sawing. He had failed to get anything while begging.

Mrs. Coles and Miss Canfield, who have been visiting Mr. and Mrs. S. L. Brooks, left this morning for their home in Minneapolis. They were accompanied to Portland by Mrs. Brooks.
At the fair to be given by the Methodist ladies, there will be offered for sale all manner of fancy articles suitable for Christmas presents, also German coffee cake and coffee will be served.
Last evening Marshal Lauer arrested Peter M. Granda, and this morning he appeared in the recorder's court charged with being drunk and disorderly. He was fined \$5, but not being well supplied with circulating medium, will serve a couple of days in jail.
At the Umalla House parties yesterday J. D. McDermid and Miss E. J. Smith were united in wedlock by Rev. A. Brongest, Mr. McDermid is a prosperous farmer of Wasco, and after the wedding with his bride left for their home in Sherman county.

McCalvey a case in which the plaintiff sues for a divorce and a division of the community property. The plaintiff's attorneys are Huntington & Wilson, and Dufur Menefee appear for the defendant.
The busiest place in The Dalles is on Union street where some 30 men are engaged putting down the new pipe for the water works. The Pacific Bridge company engineers seem to be doing everything possible to rush the work along to an early completion, and are making very good headway, considering that they have been delayed in getting material.
Wednesday Mrs. Bonzie, who keeps a lodging house near the court house, went to her bureau to get some money

and discovered that a thief had carried away some \$20 she had left in the bureau. A young fellow who had been rooming in Mrs. Bonzie's house is supposed to be the thief, as he disappeared some time Tuesday night and is supposed to have gone to Portland.
This morning at Grants, W. H. Reeves, a brakeman in the employ of the O. R. & N., attempted to board a moving train and caught his right foot between the gears and main rail and had it severely crushed. He was brought to The Dalles and Drs. On Friday evening Hampshire and Clarke will render several numbers in their customary original and pleasing manner.
An accident that occurred to the water works this morning caused many amusing incidents to occur. When people got up they found that there was no water in the pipes, and as it had been quite a cold night they all supposed the water had frozen, and many of them proceeded with lamps and other heat producing devices to "thaw out" the pipes. After devoting a few hours to this pastime, they learned that the water had been shut off, and each one wasted his neighbor to kick him because he had not thought of the water being shut off.
A silver napkin ring was taken from Mrs. Nelson's boarding house on Third street, last Friday evening. The ring is resting on a leaf and flower of silver and has the name "Lizite" inscribed on the top. The person having the same will confer a reward by returning it, as it was a gift to the owner. Suspicion rests upon a certain party, and they will find it to their welfare to return it, as a letter has been received which completely gives them away. If it is returned no questions will be asked.
An error was made a few days since in stating that the attorneys for Forester had been given until January 17th to file a motion for a change of venue. The action of the court was to overrule the demurrer to the indictment, and give notice to the attorney as to the date when the case would be set for trial. The attorney for the defendant are not decided as to whether they will move for a change of venue, but in all probability will offer no objection to the case being tried in this county.
The Eugene Guard says: Claudio Branton, the convicted murderer of John Lind, who is soon to be hanged, is as restless in the county jail as a caged lion. The other day he sent for Deputy District Attorney Harris, but had nothing particular to say, but several times tried to induce Mr. Harris to come within reaching distance of his cell. Monday evening he tried a number of times to have Sheriff Withers approach the cell closely, but was not accommodated. After the sheriff had left he told the prisoners that if Withers had come up to the cage he would have attempted to get his hands on the sheriff, but it is a good advantage that he has been successful. He also said that the officers were onto him, and that if Harris had come within reaching distance he would have "choked him to death."

Recollections of the War.
Some evening in the near future Capt. John W. Lewis will deliver a lecture in The Dalles on his recollections of the civil war, his experience as a prisoner in Libby prison, his escape through the big tunnel, and his subsequent capture by the Confederates. The lecture has been carefully prepared, with a view to telling facts as the captain saw them, and will be found interesting throughout. The writer has examined a portion of the lecture, and finds it in many historical facts told in a concise and pleasing manner. Due notice will be given of the date on which the lecture will be given so that all may have an opportunity of hearing it.
Active solicitors wanted everywhere for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the road of battle at the fall of Manila. Boonzo for agents, Brinfall of original pictures taken by government photographers on the spot. Large book. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. NO HEAT FOR ALMON.
The New Oregon Senator Had to Stand the First Day
Senator Simon found himself in rather an embarrassing position on the first day of the session. He could not find a seat among the republicans and would not sit with the democrats. A Washington special of the 8th says: When Joseph Simon, the new senator from Oregon, was formally sworn into office, he found that there was no seat for him in the senate.
After he had qualified, signed the roll and received congratulations, he was turned over to the sergeant-at-arms, who was expected to provide him with a desk and a seat. The senatorship in Oregon has been vacant so long that in the strange way in which the senate is organized, the republican senators could not find a seat for him in the senate.
The new senator resented the suggestion that he sit on the democratic side. The republican senators consulted the company to buy, construct and operate a line of steam boats on the Columbia and Snake rivers. The North Carolina man had tried that side early in the day, and was stung by a chance remark that in view of Oregon's position in the senate he would hereafter identify himself with the democratic party, so he refused to give up his present seat, and Senator Simon is still seatless.
HILL ON THE NORTHWEST.
President of the Great Northern Says It Has a Brilliant Future.
James J. Hill, president of the Great Northern, was in Portland yesterday, and to a Times reporter said: "It would not surprise me, and in fact I make the prediction that Portland will be a city with a population of a quarter of a million within ten years or fifteen years at the outside. Your people should be a unit in the acquisition of the Philippines and the expansion of trade in the Orient. It means a rapid development of the Pacific Northwest unequalled in the history of the world's progress. Congress must enact such laws as will enable the inauguration of a regular line of steamship ports and Asiatic points. It would mean the opening of a market for all the products of this section. It would mean that there would be a full and growing demand for all the Oregon products raised in the states of Oregon and Washington. The business of transportation is the key to prosperity. Give the farmers a market—bring it to them or them to it—and you have solved the problem of good times. What is needed is a subsidy of say one dollar per ton and a line of merchant ships would be established that would make daily clearances from Portland and Puget Sound ports.
WILL ENTERTAIN THE PUBLIC.
Jackson Engine Company Will Give a Grand Ball.
Last evening the old veteran fire company, Jackson Engine Co. No. 1, held a rousing meeting, 30 members present for the purpose of giving a grand ball on the evening of December 30th. A committee of general arrangements was appointed, consisting of G. A. Liebe, Chas. Lauer, A. Sandrock, John Blaser and W. H. Butts. It is the intention of the company to give the best ball of the season, and no expense or pains will be spared to make it a glowing success. Jackson Engine Co. is the oldest volunteer fire company now maintaining an active organization in Oregon; it has contributed the elements for over a quarter of a century, and has been a valued factor in defending the property of The Dalles against the fire fiend. It is but just that the citizens of The Dalles recognize the merits of the company, and give a liberal patronage to the annual ball.
Toner or Piano.
Toner was tuning and singing a song. To people of Grass Valley, that wasn't very long.
But the truth wasn't in it, and they found it out 'er long.
So he left for another climate, and now he's in the Dalles in the name of a great traveling salesman Toner must be.
When Sherman, Clay & Co. insists that he shall remain in one town "a few days only."
But the writer don't wonder, for with his wife and child he has a grand ball on the evening of December 30th. A committee of general arrangements was appointed, consisting of G. A. Liebe, Chas. Lauer, A. Sandrock, John Blaser and W. H. Butts. It is the intention of the company to give the best ball of the season, and no expense or pains will be spared to make it a glowing success. Evidence Which is Right to the Point and Reliable.
Judge Frank Ives of District Court of Crookston, Minn., says: For some time I have used Stuart's Dyspepsia Tablets with seeming great benefit. Tablets with seeming great benefit. With few exceptions, I have not been free from indigestion in 25 years. George W. Roosevelt, U. S. Consul to Brussels, Belgium: Stuart's Dyspepsia Tablets, safe, pleasant to take, convenient to carry, give keen appetite, perfect digestion.
Mr. W. D. Tomlin, mechanical engineer, Duluth, Minn.: One box of Stuart's Dyspepsia Tablets has done its work, and I am again gaining flesh and strength.
O. E. Ransom, Hustonville, Ky.: I was distressed and annoyed for two years with throwing up food, often two or three times a day; had no certainty of retaining a meal if ate one. Four boxes from my druggist had fully cured me. I find them convenient to carry.
Rev. G. D. Brown, Mondovi, Wis.: The effects of Stuart's Dyspepsia Tablets is simply marvelous; a quite hearty dinner of broiled beefsteak causes no distress since I began their use. Over six thousand people in the state of Michigan alone in 1924 were cured of stomach troubles by Stuart's Dyspepsia Tablets.
Full sized packages may be found at all druggists at 50 cents, or sent by mail on receipt of price from F. A. Stuart Co., Marshall, Michigan. Send for little book on stomach diseases, mailed free.
