GOMEZ IS TRUE

Will Not Come to Havana Without His

Troops.

NEW YORK, Dec. 30 .- A special Wednesday 200 insurgent calvarymen withdrew from the city in a sulk beause the Americans refused to recognize them exept as individuals. Civil Governor De Castro advised General as imminent. Ludlow to avail himself of the service of cavalary under Colonel Hernandez. The men entered as dragoons and hoisted Cuban flags, doing police duty west of Galiaco street. The Amerian organized body, and after doing duty one night they lowered their flag

and returned to Menocal's camp at Mariaua. It is known that Gomez feels that he not treated properly. Indeed, he has never received anything but curt the American government. Some time ago he sent a personal representative to confer with the American evacuation committee. General Butler proposed that a personal note of congragulations be sent to Gomez but General Wade and Admiral

Sampson refused to join him. A letter from Gomez has just been received here. He is wise enough not that he could not come to Havana un less he came as commander-in-chief of the Cuban army of liberation, and if rope with which Mrs. Wellmer had the men who had fought with him for three years were not good enough to come he preferred to stay with them. He scouted the idea that the presence Get a Bicycle Cheap of the Cuban troops would result in disorder, declaring their presence

> would be the best possible guarantee of good order. He concludes his letter with the remark that he had full confidence in the good will and fairness of the Americans as a people, but believed

cuse to compel the nation to break its

most sacred promises. The Americans are divided in sentiment, many believing a great mistake has been made in not giving the Cubans an opportunity to celebrate the event which they have fought so many years to bring about. General Lee was in favor of granting permission for the insurgents to parade, and recognizing Gomez as the head of the Cuban decision. Lee has, of course, refused

to express himself. Do You Know

AN APPEAL FOR LIBERTY

Delegation at Washington D NEW YORK, Dec. 30 .- A dispatch to the World from Washington says: The Cuban delegation to the United States has just prepared and sent to Cuba an elaborate appeal in circular form to be widely distributed to all

natives to remember that they fought for independence and not annexation. The manifesto reviews the struggle to throw off Spain's tyranny, and recounts the glories of the victory and refers to the action of the congress in regard to a stable government being "If annexation were desired,

would be better to have brought it about now than later, and for that reason it is desired that the question should be settled finally at the present time. Yet it is sufficiently known that Cubans made war and fought for independence, not for annexation, and that ail the precious blood that has been shed and all the hardships endured and all the suffering, were to

to gain independence, and nothing short of that. "It is ridiculous to try to answer the accusations that the Cuban people are indolent, that they are uneducated, unfaithful and unable to govern themselves. Their industry, labor and

energy have made Cuba in many espects one of the most productive countries in the world. "Their duty now is to stand by the lone star banner, which signifies inde-

pendence and liberty, the greatest blessings of heaven. "Remember that Cuba has not fought

and endured for a change of masters, but that her people may be their own

"We are none the less grateful to the people of the United States for their aid and support, and in doing what they have done to free Cuba from Spain they have but repaid the debt which they owe to humanity, justice and right for the aid they received from Lafayette and France during their war for independence."
