now do." This occurred in the year of our Lord 1799. Ninety-eight years ago. Yet there can be seen in the courthouse yard, under the spreading mades, the shallow excavation in the ground into which the papers were piled. The old governor's mansion was only torn away last year, the capitol disap-

peared many years ago, and the old slave market which inspires this sketch will soon, too, give way before the march of nineteenth century push. A water tower will probably take the place of this hoary sentinel of time.

An old gentleman whom I met on the streets of Louisville, and whose gray hair and tottering form I could not heln comparing to the ancient landmark, "I know I've seen a thousand niggers

bid off here. The bell which hangs inbeing about four inches in depth as side you will notice bears the French coat of arms and is stamped 1772. 1 in colonial days from the deck of a French privateer. It has only been

cracked since a few years before the war." The strangest part of the story is the wonderful preservation of the timbers in the old structure. They are all hewn oak, put together with wrought-iron nails, and the wood is so hard that I don't believe it would be possible to drive a nineteenth century nail into it with an ax.

PIN HOLES IN THE CHECKS. Only One of the Cashier's Precaution

Overlooked by the Forger. In the course of a lecture devlivered

recently on chemical tests used in dis-covering by the ink the age of docu-ments, and whether there have been interpolations, Prof. C. A. Doremus told of a curious discovery in the case of a raised check, made by his father, who is an expert in chemistry and in docu ments. The interests involved in this case, says the New York Sun, were very large, and it was not practicable that the original check should be tampered with or chemically treated. For purposes of testimony an enlarged pho-tograph of the check was taken by Dr. Doremus, who was called as an expert in the case. The first trial resulted in no decision, and on the second trial what purported to be the original check was produced. It was handed to the cashier of the bank for identification.

He examined it and said: "This is not the original check." "How do you know that?" demanded the amazed lawyer.

"Because in the heading of the orig-inal check I pricked a hole in the center
