ASK RELIEF OF WASHINGTON.

NEW YORK, April 7 .- A special to the Tribane from Washington says: Creditors and debtors in Cuba are all appealing to the Washington authorities for relief. The creditors are afraid that Governor-General Brooke will issue an order carrying out the plan of the Sugar Planters' Association. This provides in substance for an extension of credits through a period of six or seven years. It is admitted on all hands that the landowners in Cubs cannot pay their debts now, and if foreclosure of mortgages were permitted it would bankrupt threefourths of the planters, and many

smaller property-owners. Weyler issued a decree extending the time in which debts on city and country property can be collected. Blanco extended the decree for another vear. General Brooke has extended it as a temporary measure until May 1, pending a permanent plan. That is what alarms the Spaniards who have money loaned on plantations and other property. They fear that the new decree will bankrupt them.

The arguments they have forwarded to Washington are that the propositions of the Sugar Planters' Associacreditors' money. They argue against asweeping decree of any kind by the military authorities on the ground that it is a revolution in the Spanish code of civil law, and that it completely upsets the law of hypothecation for the benefit of a class.

The American troops were then, as planned, to sweep the country to the south.

General Lawton's plan was to reach Santa Cruz on Monday morning at daylight, to capture or destroy the rebel gunboats or shipping, to take the town and then to scour the country to the south of the lake, a district not yet explored by Americans. Messrs. Reed and McGuire, accom-

All three came to this city with Governor Geer, Secretary of State Dunbar and Adjutant-General Tuttle on business connected with the hatchery location and the Oregon Soldiers' Home. Messrs.
