letter received from a distinguished Cuban, now a resident of the United States, is a most sensational statement about the plans of the irreconcilable Cubau leaders. The writer is conservative and is in a position to know what is going on at present in Cuba. The information is as follows: "The latest story fromCuba, which I have

every reason to believe, having been told me by a prominent Cuban whose intimacy with the leaders in Havana lends authority to the statement, is that the former revolutionary element has decided to make a virtue of necessity and gracefully, to outward appearances, accept American inter-

Dr. de Barritt spoke today about present conditions in Cuba and the possibility

of an outbreak against the Americans. "If this occurs," he said, "it will be the fault of the Americans. The Cubans are a peaceful people, but they are also proud and sensitive, and many things have been done recently to anger them. The Cubaus feel that they are being treated very much as though they had been conquered by us. At any rate, the Washington authorities should do away with the present military government. It is worse than unecessary; it is doing an immense deal of harm. A great many of the American officers do not like Cubans and don't scruple to let this be known. WASHINGTON, June 9 .- The cabinet n connection with the possible necessity of enlisting an additional force of volunteers, today discussed a plan for enlisting several skeleton regiments in Manila from among the volunteers who desire to remain in the service, and subsequently filling out the regiments with recruits enlisted in this country. It is said that the scheme received impetus at the national convention of brewers at Detroit, when plans were discussed secretly.'

Albert Lieber, manager of the brew ery syndicate of this city, which includes the three largest breweries here, confirmed the story of the formation of a giant brewery trust. Mr. Lieber had just returned from Detroit, and after learning that the story was

out, said: "A Pittsbury broker, named Merkie, representing the American Malting company, has just closed a deal involving \$92,000,000, whereby all the Pennsylvania breweries were consolidated. This was one of the first steps in the big scheme. Options are now out on a number of Indiana breweries, and the same is true of other stater. The principal factor in the big scheme is Seymour Scott, a wealthy broker of New York city, who has been working on it for some time.
