## MUST PROVE INNOCENCE

This is the Only Hope for Dreyfus.

NEW YORK, Aug. 18.—A dispatch to the World from Rennes contains the following analysis of the Dreyfus court-martial by Max Nordau: "This is a war of savages and not an inquiry of cool research for the truth which is now going on at Rennes. I find that even American and English newspaper men delegated here to give accounts of the proceedings are gradually infected with a spirit of partisanship. Some of the correspondence I am allowed to read before it is sent. It does not give a real idea of the strength of the prosecution because of an unconscious tendency of the writers to be little certain arguments of facts brought against Dreyfus."

"I have been observing from the beginning the attitude of the judges and public, and also have been gathering opinions of the best qualified men of both parties. You may believe me, acquittal is far from being as certain as seems to be commonly thought in the United States, judging from the tone of the editorials in the American newspapers we are getting here. You must understand that everybody's mind in France is fully made up—the opinion is hard set and impermeable to any argument whatsoever."

"If Bogert speaks, whatever may be the strength of what he says, the Dreyfusards, exclaim 'He lies, he lies, he lies!' while the anti-Dreyfusards see proof of the accused's guilt in every charge he makes, however improbable it may be. Likewise, when Bogert argues that Dreyfus cannot be guilty, all of his wonderful logical deduction is absolutely without effect as to changing any one's conviction. One side cries 'How admirable!' the other 'What rot!'"

"What French and neither one side nor the other takes pains to listen and think. If the judges are of the same mind as I have observed generally in the audience, each has decided consciously or unconsciously what his vote will be and the verdict is already settled."

"Now if we may infer anything from the spirit exhibited by the combative character of the questions asked by the witnesses by the judges, it is to be feared that the result of the new trial will not be what is expected generally in foreign countries."

**EXPLOSION IN MEXICO.**  
Killed Five American Engineers and Three Mexican Workmen.

CHICAGO, Aug. 18.—A special to the Record from Tampico, Mexico, says: By the explosion of a boiler of a locomotive on the Mexican Central railroad seven men were killed and three others fatally injured. The locomotive was standing on the sidetrack at Cardenas when the explosion occurred. It was of a special pattern and of great size, being used to haul trains up the mountain.

Among the killed are four American engineers who were in the cab. Their names were Simon, Fitzgerald, Husey and Gibson another American engineer named Lockheart was standing near the locomotive when the explosion occurred. He was hurled a distance of 100 feet and was fatally injured. The other men were three Mexican firemen and wood passers.

**Tenth Pennsylvania Boys.**  
SAN FRANCISCO, Aug. 18.—All arrangements for the special train which will carry the Tenth Pennsylvania volunteers to their homes have been completed. C. E. Clark, of company E, and Morrison Barclay, of company I, will be the only ones left behind. Barclay is very ill, but the surgeons hope for his recovery.

Lieutenant Barnett has received a letter from Consul Wildman, at Hong Kong, to the effect that \$400 has been deposited in a Hong Kong bank to the credit of the Tenth Pennsylvania. The money has been contributed by friends for the benefit of the regiment, and the consul desires to know what disposition he shall make of it.

**Tupper Talks Trade.**  
NEW YORK, Aug. 18.—A dispatch to the Times from London says: "Sir Charles Tupper has left London for a brief stay in the country although his visit here is in no way official, he has given the authorities his views of the Alaska boundary difficulty. Sir Charles says he has always tried to keep on the most friendly terms with the United States but in diplomacy it is a difficult matter. If America were either just or beloved herself just, he has given the whole question would be referred to arbitration unreservedly."

**Foot Play Suspected.**  
OAKLAND, Cal., Aug. 18.—The dead body of a man, believed to be John W. Walton, a resident of Albuquerque, N. M., has been found floating in the bay at the foot of Seventh street. Many cuts and bruises on the face and head lend strength to the suspicion that the man may have met with foul play.

**System for Consumption.**  
CHICAGO, Aug. 18.—The Illinois Society for the Prevention of Consumption is preparing plans for the establishment of a state sanitarium for the treatment of consumption, which it will ask the next legislature

## GOVERNMENT IS CONFIDENT

That Situation in Samoa Is Under Control.

NEW YORK, Aug. 18.—A dispatch to the World from Rennes says: Lieutenant-Colonel Lope, who has been in charge of the mounted gendarmes doing duty about the court martial, said yesterday: "The Anti-Dreyfusites charge the Dreyfusites with being responsible for this death. It is rumored that Colonel Lope blew out his brains because of the attacks of newspapers friendly to Labor since the shooting of the latter."

**Two Men Hanged in Maryland.**  
ROCKVILLE, Md., Aug. 18.—Armed Taylor and Alfred Brown were hanged here this morning for the murder of Louis Rosenstam and wife. The crime was committed May 13 last, the purpose being robbery. While being arrested Taylor shot and killed one of the officers.

**Ladest Improving.**  
RENNES, Aug. 18.—Maitre Loberi was not well this afternoon. He over-exercised himself yesterday, and today he was only allowed exercise for half an hour, which he spent in the garden. His wound is no worse, but he suffers from nervousness.

**ENGLAND PAYS LITTLE HEED**  
Probable War With Boers Received Lightly.

LONDON, Aug. 20.—Through many signs point to the likelihood of war between Great Britain and the Boers, and though the troops are pouring in the direction of the Cape and the British army chief, are deep in the means of preparation for possible hostilities, the English people as a whole scarcely heed the portents that at another time would raise a whirlwind of patriotic enthusiasm. The nation seems absolutely absorbed in the Dreyfus case. As each day passes without an answer from the Boers to the proposition from Great Britain for a joint commission to investigate the effect which the franchise reform legislation would have on the outsiders, the probability of a pacific settlement of the difficulty decreases. Yet national interest, tired of flags, flags as the tension at the war and colonial offices grows. If war comes Great Britain will awake with a tremendous start.

If the Boers surrender to the British demands scarcely more than a ripple of interest will be excited so long as the Rennes court martial holds the world under the spell of its dramatic recital. From a political point of view a rapid and successful war against the Boers would probably strengthen the hands of the conservative government more than any other outcome of the present crisis for the vast preponderance of public sentiment already heartily endorses the course of Mr. Chamberlain, secretary of state for the colonies, and expresses the belief that it would be in the best interests of the British empire to retain the Boers, for would remain bold enough to openly oppose the mortality of the war.

**OPPOSED TO AN ALLIANCE.**  
Saturday Review Says England and United States Will Be Rivals.

LONDON, Aug. 20.—The Saturday Review in an article on Europe and Americans, asserting that the proposed Anglo-American alliance, frankly declares that it amounts to little or nothing.

"We have" the review says, "accepted almost as an axiom of sound policy that friendly relations with the United States is the only object worth aiming at in the western hemisphere. A few music hall ditties and after-dinner speeches would convince us that we should forthwith ignore all American concerns as contemptible strife of parties."

The review goes on to say there is nothing in all that. "Our future in the west were received so severe a blow as that dealt by the Lord Salisbury's recognition of the right of North American interference in South American concerns."

The review, continuing, says that the completion of the Nicaragua canal by the United States is a certainty, and expresses the belief that it would be in the best interests of the British empire to retain the Boers, for would remain bold enough to openly oppose the mortality of the war.

**To Command in South Africa.**  
LONDON, Aug. 20.—Lieutenant General Sir Frederick Walker, who receives General Sir Francis Butler as commander of the British troops in South Africa, sailed for his post today. He was given an enthusiastic farewell by the crowds surrounding the train on which he was a passenger at the Waterloo station. It was stated by an army officer who is accompanying General Walker that in the event of hostilities in the Transvaal, General Walker will take command of the fighting force, General Walker remaining at Cape Town. General Walker had frequent conference with the officials of the war office before leaving.

**Boys Lined in Alabama.**

## ROYAL Baking Powder

Made from pure cream of tartar. Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.

drink heavily. A gambler named H. L. Linnard at a quarrel with some of those assaulted one, shooting and stabbing him seriously. The tribe armed themselves with all the weapons in the camp, shot the gambler seven times, scalped him and mutilated his body beyond recognition. Troops from Ft. Wingate have been ordered to the scene and serious trouble is feared.

**DEWEY FAVORS PEACE.**  
He Would Like to See Violence Against the Philippines Stopped.

NEW YORK, Aug. 21.—A dispatch to the World from London gives at some length the London Daily News' report of an interview with Admiral Dewey at Naples. According to the correspondent Admiral Dewey began by saying that he regarded Cavite as the battle which decisively turned the fortunes of war in favor of the Americans. He added: "The Spanish ships were fought well, all the same."

The correspondent asked him if the Philippines were likely to be pacified soon. The Admiral replied: "I have the question of the Philippines more at heart than any other American, because I know the Philippines intimately and they know I am their friend. The recent insurrection has led to the question of the Philippines which has long reigned in the islands, but the insurgents will not submit themselves to the law of the United States, and I believe and affirm, nevertheless, that the Philippines question will be very shortly solved."

**IN THE COURSE D'ALENS**  
The New Miners are Giving Perfect Satisfaction.

BOISE, Idaho, Aug. 20.—W. E. Borah returned from Wallace, where he had been for some time on business connected with the prosecution of the dynamite. He said the condition in the Cour d'Alens are most satisfactory. The mines are practically all running to their full capacity and everything works smoothly. The new men give entire satisfaction and the output of the property is as great as before the trouble. A good spirit prevails and outlook for the region is more than promising. There are still a few of the bad element remaining, but most of this class have gone. Their houses at Canyon creek are for rent or sale on the aspect of the towns of Gem and Richfield are under a complete transformation.

An effort is being made by Edward Boyce to retain some of his men in the camps, said Mr. Borah. To this end he has issued secret direction for them to take out permits and go to work. But in this he is likely to be balked as the state will not assent to these men coming in now after having stood out and fought it all these months. The disposition to scare them out is intensified by knowledge of the fact that Boyce has taken the action referred to in order to retain a nucleus in the mines with which to hatch out trouble.

**AFTER WHOLLEY'S SCALP.**  
Officers of Washington Regiment Want Him Removed.

OLYMPIA, Wash., Aug. 20.—It has leaked out here that twice within the last few months the officers of the First Washington volunteers have wired Governor Rogers asking the recall of Colonel Wholley. When talked to some time ago regarding Wholley, the governor said he had nothing to do with the matter, as it was entirely in the hands of the war department; that while he made the appointment of Wholley as colonel of the regiment, the department only could recall or remove him from his command.

**WILL CONVICT DREYFUS.**  
Court-Martial Believed to Have Already Determined on a Verdict.

NEW YORK, Aug. 20.—A dispatch from Rennes to the Tribune says: According to impressions just communicated to your correspondent from such an exceptional source as to carry with it unusual presumption of truth, the sentence of Dreyfus is already decided upon. He will be found guilty of disciplinary indiscretions, for which he will be sentenced to five years' imprisonment. As he has already served this term of sentence the result will be that he will be set free and take his position in the army as a captain en reforme, without pay or emolument and any career in the active army will be closed to him.

**No Clue to the Assassin.**  
RENNES, Aug. 20.—The police have abandoned a clue to the would-be assassin of M. Loberi which they have been following at Assisi. The suspect has given satisfactory proofs of his innocence.

**Indians Kill and Scalp.**  
SAN FRANCISCO, Aug. 21.—A special from Winslow, Ariz., says: Two hundred Indians in Foreman Mink's grizzly gang at Navajo springs, Ariz., 75 miles east of here, are threatening to exterminate all the whites in that section. They were paid off on the 15th, and proceeded to gamble and

## FORESTRY REGULATIONS.

Chambers Must Put Out Fires in the Timbered Country.

At this season when thousands of Oregon people are encamped amid the mountain forests it will be wise to re-force a law carrying with it severe penalties, for the punishment of the careless or malicious who set fires which destroy our valuable forest timber.

L. P. W. Quimby, of Portland, game and forestry warden of Oregon, has posted notices giving plain warning on this important matter, that have been distributed generally all over the state, and nobody can well plead ignorance of the law if by accident he permits a forest fire to get started, the intention of those notices the principal features of the law are as follows: For maliciously kindling a fire which shall injure wooded timber lands of another the penalty is a fine from \$20 to 1,000 or imprisonment from three months to one year.
