THE WELLMAN FAILURE.

The conditions abroad are not bearish. The Wellman polar expedition bas anded in conspicious failure. Perhaps quite the contrary, so that no alarm of all the Artic trips of discovery may be feared from that direction. Another new feature comes into the has been the one most notably barren of results. No very high latitude was narket this year, which has been ab eached, one member of the party sent for several years-the matter of carrying charges, which is generally died, the leader was crippled possibly considered as in favor of the shorts. or life, and all that it brought back as a result of a year's hardship is some It may figure out so, but it is offset, work by the scientists of the expediby transferring buyers from discounted futures to the spot market. For some tion and a few meagre discoveries on r near Franz Josef land. Ill for une time foreign buyers would buy futures set the party soon after it started on the dash for the pole. As that is what has always caused failure in Artic ex- little anticipation meant good profits. lorations, and always will, it is idie Now that the spot market is selling at a to speculate upon what would have discount, buyers would prefer to handle Well, sir, there never was a tax in the been done had it not been met. Mr. Wellman sailed unusually early

ast year from Tromsoe, but unfortuntely the prevailing winds banked the spot. ice up instead of driving it southward, he was compelled to put back to Norway for coal and make a second ttempt. Having reached Hall island the plan was to send forward a reconissance party to locate a site for winter quarters and spend the summer unting, to lay in supplies for men d dogs. The rest of the party would e heavier equipment for winter and to stret north early last spring.

at ce post called Camp Mc-AV WES 68 an were ) left at the camp, but in force did not come up to it go into wiater quarters, as had d at the southern point of Hall bullish. Odessa reports new damage d in Intitude 80. In the middle of to the Russian crop.

NOT WORTH THE PRICE.

ary the main body moved north, aing up to Camp McKinley. that one of the two men left had died. The flying column ten started north, but had not prowas recorded and a retreat with the leader disabled. reaching headquarters work of was started in the surnt ling country. The discoveries ade may be of some value, but as an xpedition to reach the pole its labors ave been disappointing.

There were some features in Mr. Wellman's plans which were highly
