Hanna says it would be disgraceful to sell the Philippines. NEW YORK, Sept. 19.—Last night before starting for Cleveland, the attention of Senator Hanna, of Ohio, was called to the alleged interview with Li Hung Chang, in which the Chinese statesman advised selling the Philippines.

"Perhaps the Chinese had not said it," said the senator. "It may be a harmless falsehood. But even if he did, what does it matter? The ideas are posterior. It would be more than a disgrace to the United States to barter away the islands. It would be a repudiation to our moral obligations to the civilized world. The nations of Europe are watching to see what we are going to do in the Philippines. The thinking classes look with satisfaction on this country's present policy."

DREYFUS TO BE FREE

The Persecuted Captain Finally Pardoned

PARIS, Sept. 19.—The council of ministers decided today to pardon Captain Alfred Dreyfus, in principle. The pardon will take effect in a few days.

Dreyfus has relinquished his appeal for a reversal of the judgement of the court-martial.

"A principle" is an idiom sometimes used in semi-official announcements of forthcoming actions. It seems to have but slight bearing on the matter, except, perhaps, that it implies the fulfillment of various formalities before the pardon is actually issued.

The announcement that Dreyfus was to be pardoned had already been discounted by predictions and there was absolutely no excitement along the boulevard when newsboys ran along at about 3:15 P. M., with the first edition containing the statement that the cabinet had decided to pardon Dreyfus.

Everyone expected it and the decision met with no opposition. The Droits Del Homme, socialist organ, says: "Our task remains the same as before the liberation of Dreyfus, to continue the campaign against all those who are responsible for the lamentable affair, and unmask the forgers, traitors and false witnesses, even though they may be covered with glittering decorations."

Relics To Be Disposed Of. HAVANA, Sept. 20.—General Brooke has issued an order permitting municipalities to pull down and dispose of temporary Spanish fortifications, returning to the owner such material as was confiscated by the Spanish government purposes.

This order was issued as the result of numerous applications received from many parts of the island for the return of private property unjustly held, and also from municipalities desiring to utilize land occupied by the blockhouses and similar defences.

It exempts the military railroad and trenches extending from Moran to Juacaro, on account of the extraordinary completion of this work, suggesting that the future generations of Cubans will be pleased to study the style of warfare of their forefathers. Much pleasure is expressed by the Cubans at General Brooke's action in excluding the troops from the order.

At a meeting of the various industrial clubs and unions held yesterday to consider the question of a general strike and to fix a day for a general representation meeting of all the laborers of the island, it was decided to hold a mass meeting this evening. The discussion expects a general strike tomorrow and says: "We sympathize with the endeavor of the stockholders to obtain an eight-hour day. The present time, however, is inopportune, as many men are out of work and have been for considerable periods. The labor leaders should have selected a later date for a general strike, should be better prepared to resist the extra expense and hardship owing to the want of work, as Havana will be without meat or milk and almost without the necessary means of life if their project is carried out now."

HOSTILITIES WILL SOON BEGIN

Dogs of War Will be Turned Loose in the Transvaal.

LONDON, Sept. 20.—Great Britain's relations with the Transvaal remain unchanged, and so far as the former is concerned the situation is not likely to take on a new phase until after Friday's cabinet council. Whether the Boers will be content to wait that long without ending the suspense with hostilities depends upon circumstances.

The Morning Post contained a dispatch from Pietermaritzburg, Natal, dated September 19, saying: "I have never known the situation to be graver. The Boers only await two day's rain for the valid before beginning hostilities. They are determined on war, and consider they can expect nothing else after the last dispatch, and are prepared to face the consequences."

The correspondence then described in detail the Boers' elaborate border preparations, which appear more thorough and formidable than heretofore believed. He says the Orange Free State officers at Pretoria have devised a combined plan of action, which also includes seizing Majuba, Laing's Neck and Newcastle, Natal, the moment the ultimatum arrives.
